The Wiltshire Archaeological and Natural History Magazine, 2003 Scientific Investigation of Copies, Fakes and Forgeries Paul Craddock, 2009-02-04 The faking and forgery of works of art and antiquities is probably now more extensive than ever before The frauds are aided by new technologies from ink jet printers to epoxy resins and driven by the astronomic prices realised on the global market This book aims to provide a comprehensive survey of the subject over a wide range of materials emphasising how the fakes and forgeries are produced and how they may be detected by technical and scientific examination The subject is exemplified by numerous case studies some turning out not to be as conclusive as is sometimes believed The book is aimed at those likely to have a serious interest in these investigations be they curator collector conservator or scientist Paul Craddock has recently retired from the Department of Conservation Documentation and Science at the British Museum where he was a materials scientist **Catalogue** Bailey Brothers, 1887 **Antiquaries** Rosemary Sweet, 2004-05-28 Eighteenth century Britain saw an explosion of interest in its own past a past now expanded to include more than classical history and high politics Antiquaries men interested in all aspects of the past added a distinctive new

dimension to literature in Georgian Britain in their attempts to reconstruct and recover the past Corresponding and publishing in an extended network antiquaries worked at preserving and investigating records and physical remains in England Scotland and Ireland In doing so they laid solid foundations for all future study in British prehistory archaeology and numismatics and for local and national history as a whole Naturally they saw the past partly in their own image While many antiquaries were better at fieldwork and recording than at synthesis most were neither crabbed eccentrics nor dilettanti At their best as in the works of Richard Gough or William Stukeley antiquaries set new standards of accuracy and perception in fields ranging from the study of the ancient Britons to that of medieval architecture Antiquaries is the definitive account of a great historical enterprise
