Paul and First-Century Letter Writing E. Randolph Richards,2025-07-29 Traditional Christian art depicts Paul the letter writer pen in hand attentive to the Spirit We might think we know better and imagine him pacing in agitation as he rapidly dictates to a secretary his letter to the Galatians But in reality neither of these pictures is accurate In Paul s day producing a letter was a time consuming and costly business And we have ample resources from the ancient world to piece together what it must have been like A secretary was usually part of the picture But so were notes drafts corrections and careful rewrites not to speak of scratchy pens sooty ink and coarse papyrus Interestingly there is evidence that Paul involved his missionary team in the writing of letters And then came the delivery over land and sea the reading and circulation as well as the epistolary afterlife of copying collecting and storing E Randolph Richards has extensively studied ancient letter writing and secretaries Informed by the historical evidence and with a sharp eye for telltale clues in Paul s letters he takes us into this world and places us on the scene with Paul the letter writer What first appears to be just a study of secretaries and stationery turns out to be an intriguing glimpse of Paul the letter writer that overthrows our preconceptions and offers a new perspective on how this important portion of Christian Scripture came to be

Harpsichord and Lute Music in 17th-Century France D. Ledbetter,2019-06-12 The works of the 17th century French harpsichord composers the clavecinistes are among the principal treasures of the harpsichord repertoire It is a commonplace of music histories that their style was strongly influenced by contemporary lutenists yet the assessment of this influence has until now been limited to pointing out a few superficial resemblances This book is the first comprehensive account of the relationship between the two styles The nature and extent of the influence can now be seen as much more far reaching than has been supposed The clavecinistes adopted many details of lute style and an understanding of these is essential for the proper performance of their works More importantly the lute style opened up the possibility of an entirely new expressive dimension in the playing of the harpsichord in exploring this the clavecinistes evolved a style which dominated European keyboard music in the 17th century and provided a basis for the subsequent development of idiomatic keyboard style
