Analyzing Within-subjects Experiments John W. Cotton, 2013-05-13 Most behavioral scientists know two important concepts how to analyze continuous data from randomly assigned treatment groups of subjects and how to assess practice effects for a single group of subjects given a constant treatment at each of several stages of practice However except in the case of the repeated measures Latin square design researchers are not facile in analyzing data from different subjects receiving different treatments at various times in an experiment This book helps fill the void **Understanding Critical**

Social Psychology Keith Tuffin, 2005 Understanding Critical Social Psychology is an exciting new textbook providing a comprehensive and reader friendly approach to the theories and methods surrounding Critical Social Psychology This book combines a critical examination of the traditional philosophies practices and topics with an emphasis on introducing innovative and contemporary developments in social psychological research In this way Tuffin integrates newer insights with established modes of thinking *NASA Technical Note*, 1970 *Atypical Cognitive Deficits in Developmental Disorders*

Sarah H. Broman, Jordan Grafman, 2014-02-25 This volume is based on a conference held to examine what is known about cognitive behaviors and brain structure and function in three syndromes and to evaluate the usefulness of such models The goal of this endeavor is to add to the knowledge base of cognitive neuroscience within a developmental framework Most of what is known about the neurological basis of cognitive function in humans has been learned from studies of central nervous system trauma or disease in adults Certain neurodevelopmental disorders affect the central nervous system in unique ways by producing specific as opposed to generalized cognitive deficit Studies of these disorders using neurobiological and behavioral techniques can yield new insights into the localization of cognitive function and the developmental course of atypical cognitive profiles The focus of this book is a discussion of the multidisciplinary research findings from studies of autism and Williams and Turner syndromes The approaches methods techniques and findings reported are at the cutting edge of neuroscience research on complex behavior patterns and their neural substrates Each disorder is accompanied by some degree of general cognitive impairment or mental retardation Of greater interest are the atypical deficits in which a cognitive function is spared such as language in Williams syndrome or is disproportionately depressed as are spatial discrimination skills and visual motor coordination in Turner syndrome Drastically reduced or seemingly absent language capabilities and little interaction with other people characterize the core autism syndrome A comprehensive and critical discussion of appropriate statistical techniques is made vivid by examples given from studies of small groups or single subjects in neurolinguistics and related fields

Journal of the National Cancer Institute ,2008 **The Use of Computers for Man-machine Modelling** Gerald P. Chubb, 1970 Four papers each describing a different approach to modelling man are presented The first paper describes an extension of the servo theoretic approach to describing the human operator as an active element of a control system The model presented has been developed to describe and predict muscular actions The second paper addresses the monte carlo simulation of human performance within a task and time analytic framework and illustrates the current state of the art A third paper deals with man computer interaction in information processing and decision making tasks An attempt was made to describe such interactions in a manner that facilitates the allocation of tasks to man and the computer The fourth paper demonstrates the feasibility of graphically portraying human biomechanical movements on an IBM graphic display console Such techniques can simulate human movements and aid the designer in optimizing workplace geometry Together these papers illustrate the breadth of techniques available for modelling man in a man machine environment
