Sublimation Inquiries Into Theoretical Psychoanalysis:

Sublimation Hans W. Loewald, 1988 In psychoanalytic theory sublimation the process of expressing instinctual impulses in constructive socially acceptable forms is a central yet poorly understood psychic process The eminent psychoanalyst Hans W Loewald here offers a provocative new examination of sublimation After reviewing the writings of Freud Fenichel Hartmann Winnicott and Kris on sublimation Dr Loewald presents his own ideas In his attempt to disentangle sublimation from other concepts with which it is often confused he examines it within three contexts as reconciliation as defense and as symbolic expression He establishes a strong case for the undifferentiated quality of early life a time of unselfconscious unity prior to awareness of self or other Sublimation according to Dr Loewald is an act of instinctual expression derived from this early pre differentiated period Dr Loewald s inquiry leads to a reexamination and revision of basic psychoanalytic theory relating to instincts symbolism motivation ego development and various emotional processes This is a new and highly thought provoking approach to an understanding of the phenomena of sublimation A Scott Dowling M D Case Western Reserve University This book is not only a profound consideration of the nature of sublimation a subject of excruciating importance for humans it is a summarizing statement encompassing the whole work of a great psychoanalyst Vann Spruiell M D Tulane University The Emerging Tradition of Hans Loewald Rosemary H. Balsam, Elizabeth A. Brett, Lawrence

Levenson, 2024-07-15 Alongside its companion volume The Legacy and Promise of Hans Loewald this book addresses the current lack of familiarity with the ideas and life of the eminent psychoanalytic teacher and scholar Hans Loewald 1906 1993 It provides an account of the evolution of his ideas across different disciplinary fields Contributors to this volume take a broad look at Loewald s impact on the fields of sociology anthropology and feminism language development as well as delving into his work s significance for the sublimatory potential of religion music the arts This volume shows how Loewald s thinking about internalization can adapt to our ever changing social and cultural environment even offering a Loewaldian lens to understand the contemporary use of psychedelics in mental health treatment Ultimately this book demonstrates that after Loewald as would have been his wish for those who read him psychoanalysis as an approach to mental health can never languish in stasis Animating this powerful yet contained and complex man there are contributions from his family students and analysts and an introduction to the new virtual Loewald Center making this volume essential reading for any psychoanalyst or psychotherapist working today

a critical reading of creativity literature Sophia Richman presents a new theory of the creative process whose core components are relational conceptualizations of dissociation and witnessing This is an interdisciplinary book which draws inspiration from life histories clinical case material neuroscience and interviews with creators as well as from various art forms such as film literature paintings and music Some areas of discussion include art born of genocide confrontation with mortality in illness and aging and the clinical implications of memoirs written by psychoanalysts Visual images are interspersed throughout the text that illustrate the reverberations of trauma and its creative transformation in the work of featured artists Mended by the Muse Creative Transformations of Trauma powerfully articulates how creative action is one of the most effective ways of coping with trauma and its aftershocks it is in art in all its forms that sorrow is given shape and meaning Here Sophia Richman shows how art helps to master the chaos that follows in the wake of tragedy how it restores continuity connection and the will for a more fully lived life This book is written for psychoanalysts as well as for other mental health professionals who practice and teach in academic settings It will also be of interest to graduate and post graduate students and will be relevant for artists who seek a better understanding of the creative process **The Legacy and**

Promise of Hans Loewald Rosemary H. Balsam, Elizabeth A. Brett, Lawrence Levenson, 2024-07-15 Alongside its continuing volume The Emerging Tradition of Hans Loewald this rich collection of essays addresses the current lack of familiarity with the ideas and life of the eminent psychoanalytic teacher and scholar Hans Loewald 1906 1993 by presenting the most comprehensive account of his work ever produced Its chapters present Loewald s intellectual history and his reception in the North American psychoanalytic scene as well as clinical developments from his thinking and their importance for the future An obituary written by a close friend also provides a summary of Loewald s personal and professional life With the benefit of authors being able to detect the functions and place of Heidegger s teaching in Loewald s thought this book will newly enlighten readers to Heidegger s place in Loewald s expansive open system vision of the psyche Featuring contributions from those who worked directly with Loewald and those inspired by his ideas this book will be essential reading for any psychoanalyst or psychotherapist working today *The Private Self* Arnold H. Modell, 1993 The concept of the self is the subject of intense debate in psychoanalysis as it is in neuro science cognitive science and philosophy In *The Private Self* Arnold Modell a leading thinker in American psychoanalysis studies selfhood from the inside by examining variations on the theme of the self in Freud and in the work of object relations theorists self psychologists and neuro scientists His significant contribution is an interdisciplinary perspective in formulating a theory of the private self Modell contends that the self is fundamentally paradoxical in that it is both dependent and autonomous dependent upon social affirmation but autonomous in generating itself from within we create ourselves by selecting values that are endowed with private meanings Modell presents an extensive view of these self generative and self creative aspects The private self is an embodied self the psychology of the self is rooted in biology By thinking of the unconscious as a neurophysiological process and the self as the

subject and object of its own experience Modell is able to explain how identity can persist in the flux of consciousness In arriving at his unique synthesis of psychoanalytic observations and neurobiological theory Modell draws on the contributions of Donald Winnicott in psychoanalysis William James in philosophy and Gerald Edelman in neurobiology The Private Self boldly explores the frontier between psychoanalysis and biology In replacing the instinct driven self and the attachment oriented self with the self generating self the author offers an exciting and original perspective for our understanding of the mind and the brain

Mystical Moments and Unitive Thinking Dan Merkur, 1999-02-11 Merkur proposes an alternative to the traditional psychoanalytic explanation of mystical experiences as regression to the solipsism of earliest infancy He does this by viewing unitive thinking as a line of cognitive development and mystical moments as creative inspirations on unitive topics Utilizing classical self reports by Christian Jewish and Muslim mystics Patanjali's Yoga Sutras and modern Western peak experiences Merkur argues that experiences of mystical union are manifestations of a broader category of psychological processes that manifest in scientific and moral thought as well as in mysticism Unconscious as well as conscious unitive thinking is sometimes realistic and sometimes fantastic in patterns that are consistent with cognitive development in general Mystical moments of unitive thinking may be considered moments of creative inspiration that happen to make use of unitive ideas Building on the psychoanalytic object relations theory that the self is always in relationship with an object Merkur argues that the solipsism of some varieties of mystical union always implies unconscious ideas of a love object who is transcendent

Love and Violence David Richards, 2023-11-25 This book offers both a philosophical and psychological theory of an aspect of human love first noted by Plato and used by Freud in developing psychoanalysis transference love namely lovers as

mirrors for one another enabling them thus better to see and understand themselves and others Shakespeare's art makes the same appeal theater as a communal mirror expressing the artist holding a loving mirror for his culture at a point of transitional crisis between a shame and guilt culture The book shows how Shakespeare's plays offer better insights into the behavior of violent men than Freud's based on close empirical study of violent criminals develops a theory of violence rooted in the moral emotions of shame and guilt and a cultural psychology of the transition from shame to guilt cultures The work argues that violence is contra Freud not an ineliminable instinct in the nature of things requiring autocracy but arises from patriarchally inflicted cultural injuries to the love of equals that undermine democracy and that only a therapy based on love can address such injuries replacing retributive with restorative justice and populist fascist autocracy with constitutional democracy Love thus understood underlies a range of disparate phenomena the appeal of Shakespeare's theater as a communal art the role of love in psychoanalysis in Augustine's conception of love in religion disfigured by his patriarchal assumptions in Kant's anti utilitarian ethics of dignity in a naturalistic ethics that roots ethics in facts of human psychology the role of law in democratic cultures as a mirror and critique of such cultures and the basis of an egalitarian theory of universal human rights inspired by Kant and developed more recently by John Rawls In all these domains uncritically accepted forms of culture the initiation of men and women into patriarchy traumatize the love of equals and thus disfigure and distort our personal and political lives
