Subordination Or Empowerment African American Leadership And The Struggle For Urban Political Power:

Subordination Or Empowerment? Richard A. Keiser, 2023 **Subordination or Empowerment?** Richard A.

Keiser, 1997-09-18 Why have Blacks won political empowerment in some cities and in others remained subordinated or had their achievements rolled back Why do some cities have many Black leaders with multi racial appeal while other cities have none Subordination or Empowerment answers these questions through detailed historical examinations of the Black struggle for political power in Chicago Gary Philadelphia and Atlanta Keiser argues that electoral competition among White factions has created opportunities for Black leaders to win genuine political empowerment and avoid subordination When electoral competition among Whites does not exist Black votes lose their electoral leverage leading to the rise of extra electoral strategies Keiser's dynamic theory of leadership formation explains the current appeal of Black separatism and messianism at the local and national levels and the consequent rise of leaders such as Louis Farakhan and offers a rejoinder to Cornel West's critique of Black leadership in *Race Matters* **If There Is No Struggle There Is No Progress** James

Wolfinger, 2022-07-08 An edited collection exploring the development of African American political engagement in Philadelphia and how Philadelphia has served as a critical site for Black politics over the last century **Urban Politics**

Bernard H. Ross, Myron A. Levine, 2015-07-17 This popular text mixes the best classic theory and research on urban politics with the most recent developments in urban and metropolitan affairs Its very balanced and realistic approach helps students to understand the nature of urban politics and the difficulty of finding effective solutions in a suburban and global age The eighth edition provides a comprehensive review and analysis of urban policy under the Obama administration and brand new coverage of sustainable urban development A new chapter on globalization and its impact on cities brings the history of urban development up to date and a focus on the politics of local economic development underscores how questions of economic development have come to dominate the local arena The eighth edition is significantly shorter than previous editions and the entire text has been thoroughly rewritten to engage students Boxed case studies of prominent recent and current urban development efforts provide material for class discussion and concluding material demonstrates the tradeoff between more ideal and more pragmatic urban politics *Leadership Resources* Center for Creative Leadership,

Greensboro, NC., 2000 This guide provides over 300 pages of resources suggested by leadership educators in surveys Center for Creative Leadership staff and search of library resources This eighth edition is half new including web sites and listserv discussion groups and it places a stronger focus on meeting the needs of human resources professionals and corporate trainers An annotated bibliography groups leadership materials in several broad categories overview in context history biography and literature competencies research theories and models training and development social global and diversity issues team leadership and organizational leadership 180 pages Includes annotated lists of journals and newsletters 9 pages instruments 21 pages exercises 41 pages instrument and exercise vendors 5 pages videos 29 pages video distributors 4 pages

Grassroots and Coalitions Michael Mitchell, 2017-07-12 The main focus of this volume is an exploration of the patterns of competition for political power at the state and local levels in American politics This volume looks at institutionalized patterns of black political power as they have evolved in the aftermath of the civil rights movement in the 1960s The editors argue that enough time has elapsed to warrant a new look at the circumstances in which black politics in America has played out Chapters include an examination of the ability of black candidates to win statewide elections with crucial white support an analysis of the impact of local political organizations in enhancing the chances of black candidates in winning local races a look at the messages of black pastors regarding solidarity with the Latino community and an investigation of the extent of the differences in the political participatory styles of poor blacks and poor whites The editors note that changes have taken place as black American politics has confronted new complexities A works in progress section explains how theories of racial violence can be used to analyze racial incidents in the United States Other essays include reflections on blacks in Brazil and in urban American politics

Place Matters Peter Dreier, John Mollenkopf, Todd Swanstrom, 2014-08-15 How can the United States create the political will to address our major urban problems poverty unemployment crime traffic congestion toxic pollution education energy consumption and housing among others That s the basic question addressed by the new edition of this award winning book Thoroughly revised and updated for its third edition Place Matters examines the major trends and problems shaping our cities and suburbs explores a range of policy solutions to address them and looks closely at the potential political coalitions needed to put the country s urban crisis back on the public agenda The problem of rising inequality is at the center of Place Matters During the past several decades the standard of living for the American middle class has stagnated the number of poor people has reached its highest level since the 1960s and the super rich have dramatically increased their share of the nation s wealth and income At the same time Americans have grown further apart in terms of where they live work and play This trend economic segregation no longer simply reflects the racial segregation between white suburbs and minority cities In cities and suburbs alike poor middle class and wealthy Americans now live in separate geographic spaces The authors have updated the case studies and examples used to illustrate the book s key themes incorporated the latest Census data and drawn on exit polls and other data to examine the voting patterns and outcomes of the 2012 elections They have expanded their discussion of how American cities are influenced by and influence global economic and social forces and how American cities compare with their counterparts in other parts of the world And they draw upon the latest research and case studies not only to examine the negative impacts of income inequality and economic segregation but also assess the efforts that civic and community groups unions business and government are making to tackle them Fully up to date and far richer and more provocative this new version surpasses its previous editions and will continue to be an essential volume for all who study urban politics and care about our cities

Changing White Attitudes

toward Black Political Leadership Zoltan L. Hajnal, 2006-12-25 Despite the hopes of the civil rights movement researchers have found that the election of African Americans to office has not greatly improved the well being of the black community By shifting the focus to the white community this book shows that black representation can have a profound impact Utilizing national public opinion surveys data on voting patterns in large American cities and in depth studies of Los Angeles and Chicago Zoltan Hajnal demonstrates that under most black mayors there is real positive change in the white vote and in the racial attitudes of white residents This change occurs because black incumbency provides concrete information that disproves the fears and expectations of many white residents These findings not only highlight the importance of black representation they also demonstrate the critical role that information can play in racial politics to the point where black representation can profoundly alter white views and white votes

Race, Neighborhoods, and Community Power Neil Kraus, 2000-11-09 In this provocative and in depth history of several decades of recent Buffalo city politics Neil Kraus examines the local political causes behind geographic concentrations of poverty Race Neighborhoods and Community Power makes the compelling case that policy adopted at the local level has had a significant impact on the development of low income segregated urban neighborhoods By examining the policy areas of urban housing urban renewal education fair housing as well as several major development decisions Kraus offers a detailed step by step investigation of how each policy decision affected the segregation of the city's east side and thus provides a new perspective on the debate over concentrated urban policy

Political Monopolies in American Cities Jessica Trounstein, 2008-09-15 Around the same time that Richard J Daley governed Chicago greasing the wheels of his notorious political machine during a tenure that lasted from 1955 to his death in 1976 Anthony Dutch Hamann's reform government centralized authority to similar effect in San Jose In light of their equally exclusive governing arrangements a similarity that seems to defy their reputations Jessica Trounstein asks whether so called bosses and reformers are more alike than we might have realized Situating her in depth studies of Chicago and San Jose in the broad context of data drawn from more than 240 cities over the course of a century she finds that the answer a resounding yes illuminates the nature of political power Both political machines and reform governments she reveals bias the system in favor of incumbents effectively establishing monopolies that free governing coalitions from dependence on the support of their broader communities Ironically Trounstein goes on to show the resulting loss of democratic responsiveness eventually mobilizes residents to vote monopolistic regimes out of office Envisioning an alternative future for American cities Trounstein concludes by suggesting solutions designed to free urban politics from this damaging cycle
