

# Substance Abuse Program Curriculum

- The curricula used by the jail, prison and Recovery Kentucky Centers and the community substance abuse programs must include the Twelve Steps (Alcoholics Anonymous/Narcotics Anonymous), Relapse Prevention and Cognitive Behavioral Therapy.
- Cognitive Behavioral Therapy (CBT) is based on the idea that a person's distorted thoughts and beliefs lead to his or her negative moods and unhealthy behaviors. Cognitive behavioral therapy holds the person accountable for their feelings and behaviors-not other people. For those involved in the legal system, CBT provides an additional opportunity to intervene with offenders by also focusing on developing skills for living in harmony with the community and engaging in behaviors that contribute to positive outcomes in society (Cognitive-Behavioral Treatment, U.S. Department of Justice, National Institute of Corrections, May, 2007).
- Relapse Prevention focuses on identifying specific high-risk situations for each offender and enhancing his or her skills for coping with those situations and restructuring the client's perceptions of the relapse process (Relapse Prevention, An Overview of Marlatt's Cognitive-Behavioral Model, Larimer, Palmer and Marlatt, 1999).
