Suddenly Alone:

Beautiful Piece Joseph G. Peterson, 2009-10-01 During a deadly Chicago heat wave that's claiming hundreds of lives Robert who's stuck in his apartment alone fears he's going to be the next victim In the apartment above him lives a shell shocked Vietnam veteran who talks obsessively about the corpses of his war experience while alternately listening to Die Meistersinger and Madama Butterfly One day Robert ventures forth into the searing heat to gas up his car Immediately he encounters enigmatic Lucy who is trying to escape her brutal fiancé Matthew Gliss On a whim Lucy invites Robert to her apartment where she shows him her mysterious tattoo and tells him of her dangerous life with Matthew Gliss She warns Robert that if Matthew ever catches them together he should run not walk because Matthew won't think twice of killing him So begins the risky short lived relationship that leads to a chilling climax Each of Robert's increasingly hallucinatory recollections of what happened during the heat wave leads him to profoundly question his own culpability Old and Alone Jeremy Tunstall, 2024-05-10 What is it like to be an isolated old widow living alone on the bare old age pension In the 1960s the question had become a standard refrain Originally published in 1966 this was the first full length study by a sociologist of isolation in old age Although the majority of old people were in no sense a problem group at the time a substantial minority of the elderly were alone in one or more ways About 1.3 million people aged sixty five and over in Britain lived alone a large number admitted to feeling lonely at least sometime About a million were actually socially isolated in terms of low level and frequency of social contact Mr Tunstall also uses a fourth category of aloneness namely anomie as developed by Durkheim Merton and Srole This report uses careful and statistical analysis of the four types of aloneness and of specially affected groups such as the single the recently widowed and the housebound But it also includes details of interviews with ten highly individual old people from suburban Harrow booming Northampton industrial revolution Oldham and rural South Norfolk The book contains a discussion of the problem of personality in isolation and a commentary on the inadequacies of social theory about old age Finally the concluding chapter suggests a wide variety of policy measures which might help to alleviate social isolation in old age **So, You Think You're Alone** Ann Marlatt, 2008-06 So You Think You're Alone is a charming collection of real life stories that demonstrate the extraordinary and enchanted moments that happen every day **What We Eat When We Eat Alone** Deborah Madison, 2009-05-01 RENOWNED VEGETARIAN COOKBOOK AUTHOR Deborah Madison set out to learn what people chew on when there isn't anyone else around The responses are surprising and we aren't just talking take out or leftovers This is food gone wild in its most elemental form In a conversational tone What We Eat When We Eat Alone explores the joys and sorrows of eating solo and gives a glimpse into the lives of everyday people and their relationships with food The book is illustrated with the delightful art of Patrick McFarlin and each chapter ends with recipes for those who dine alone **Aging**, 1983 **A Passion for Truth** Abraham Joshua Heschel, 2025-09-23 In A Passion For Truth Heschel delves into the exploration of hope and despair in Hasidism Heschel drew on his own experiences

from his study of the Kotzker and the Baal Shem Tov to create this classic work **Cured** Jeffrey Rediger, M.D.,2020-02-04

When it comes to disease who beats the odds and why When it comes to spontaneous healing skepticism abounds Doctors are taught that miraculous recoveries are flukes and as a result they don t study those cases or take them into account when treating patients Enter Dr Jeff Rediger who has spent over 15 years studying spontaneous healing pioneering the use of scientific tools to investigate recoveries from incurable illnesses Dr Rediger s research has taken him from America s top hospitals to healing centers around the world and along the way he s uncovered insights into why some people beat the odds In **Cured** Dr Rediger digs down to the root causes of illness showing how to create an environment that sets the stage for healing He reveals the patterns behind healing and lays out the physical and mental principles associated with recovery first we need to physically heal our diet and our immune systems Next we need to mentally heal our stress response and our identities Through rigorous research Dr Rediger shows that much of our physical reality is created in our minds Our perception changes our experience even to the point of changing our physical bodies and thus the healing of our identity may be our greatest tool to recovery Ultimately miracles only contradict what we know of nature at this point in time **Cured** leads the way in explaining the science behind these miracles and provides a first of its kind guidebook to both healing and preventing disease Family Ministry Diana R. Garland,2012-08-02 Now revised and updated throughout Diana Garland s core text for ministers and others in the helping professions provides a comprehensive look at the Christian purpose of family and the complex world our families inhabit A HUMAN VENTURE V. Virom Coppola,2009-10-30 **Until the End of Time** Stan Rogers,2010-08-20 I like to examine the dark side of life through my writing Whether it is through my novels or my poetry I find I prefer the walk along the dark side of the road over the heart lifting sunnier side This Anthology is a walk along that road although it does include lighter moments and the occasional funny aside Apart from the poetry in this Anthology you will also find views of life and in particular my antipathy towards organised religion alongside a couple of very short children s stories So please read my Anthology It will make you smile I hope as well as make you cry I have also written and published one novel so far entitled LOVE SEX AND TIME TRAVEL I always point out that it is not a science fiction novel as such There are no time machines aliens or spaceships in it but it is rather a bitter sweet love story again examining the darker side of love and life
