AIDS Narratives Steven F. Kruger,2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual s bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it

Jack Holmes and His Friend Edmund White, 2012-01-05 Many straight men and gay men are best friends but if the phenomenon is an urban commonplace it has never been treated before as the focus of a major novel Jack Holmes is in love but the man he loves never shares his bed The other men Jack sleeps with never last long and he dallies with several women He sees a shrink and practices extreme discretion about his gay adventures since the book begins in the 1960s before gay liberation and ends after the advent of AIDS in the 1980s Jack's friend Will Wright comes from old stock has aspirations to be a writer and like Jack works on the Northern Review a staid cultural quarterly Will is shy and lonely and Jack introduces him to the beautiful brittle young woman he will marry Over the years Will discovers his sensuality and almost destroys his marriage in doing so Towards the end of the 1970s Jack's and Will's lives merge as they both become accomplished libertines Jack Holmes and his Friend deploys Edmund White's wonderful perceptions of American society to dazzling effect as character after character is delicately and colourfully rendered and one social milieu after another glows in the reader's mind He is a connoisseur of the nuances of personality and mood and here unveils his very human cast in all their radical individuality New York itself is a principle character with its old society and its bohemians rich and poor with its sleek European immigrants and its rough and tumble transplanted Midwesterners With narrative daring and a gifted sense of the rueful submerged drama of life the novel is a beautifully sculpted exploration of sexuality and sensibility

Reporting Skin and the Wounded Body in Victorian Britain Diana Garrisi, 2024-12-05 Drawing on a wide range of primary sources this book explains what made skin newsworthy in Victorian Britain It represents a unique contribution to the media history of the human body by delving into the cultural and historical underpinnings of wound representation in Western culture Employing a case study approach the book provides a comprehensive exploration of the interplay between dermatology and the Victorian press This work suggests that there was a mutually constitutive relationship between skin reporting and the formal evolution of news discourse during the nineteenth century Narratives related to skin such as wounds caused by corporal

punishment plagues resulting from neglect in workhouses and occupational skin diseases emerged as defining features of Victorian newspapers. Notably, media coverage of wounded skin assumed a central rhetorical position in debates pertaining to discipline, abuse, poverty, labour, and social norms, a legacy still discernible in contemporary journalism. Analysing the mediation of the wounded body in Victorian Britain offers a unique insight into the foundations of modern journalism. It sheds light on the impossibility of maintaining an objective framework when observing and reporting on bodies in pain. Paradoxically, news writers and commentators of that era navigated this challenge by encapsulating such narratives within rhetorical constructs that provided a template for the evolution of contemporary news values.
