Slater's Australian Birdwatcher's Notebook Peter Slater, 1995-12 Nature and the English Diaspora Thomas R. Dunlap, 1999-09-28 First published in 1999 this book is a comparative history of the development of ideas about nature particularly of the importance of native nature as a part of the culture in the Anglo settler countries of the United States Canada Australia and New Zealand It examines the development of natural history in the great nineteenth century expansion of settlement It explores settlers adaptations to the end of expansion and scientists shift from natural history to ecology Finally it analyzes the diffusion of ecology through the Anglo world and to the general population as well as the rise of environmentalism Addressing not only scientific knowledge but also popular issues such as hunting common names for plants and animals landscape painting and nature stories this book explores the ways in which English speaking settlers looked at nature in their new lands and at the place they gave it in their societies *The Davis Collection of Ornithological and Other Natural History Documents at the Cornell Laboratory of Ornithology* Cornell University. Laboratory of Ornithology, 2005

In the Field, Among the Feathered Thomas R. Dunlap, 2011-12-01 America is a nation of ardent knowledgeable birdwatchers But how did it become so And what role did the field guide play in our passion for spotting watching and describing birds In the Field Among the Feathered tells the history of field guides to birds in America from the Victorian era to the present relating changes in the guides to shifts in science the craft of field identification and new technologies for the mass reproduction of images Drawing on his experience as a passionate birder and on a wealth of archival research Thomas Dunlap shows how the twin pursuits of recreation and conservation have inspired birders and how field guides have served as the preferred method of informal education about nature for well over a century The book begins with the first generation of late 19th century birdwatchers who built the hobby when opera glasses were often the best available optics and bird identification was sketchy at best As America became increasingly urban birding became more attractive and with Roger Tory Peterson's first field guide in 1934 birding grew in both popularity and accuracy By the 1960s recreational birders were attaining new levels of expertise even as the environmental movement made birding's other pole conservation a matter of human health and planetary survival Dunlap concludes by showing how recreation and conservation have reached a new balance in the last 40 years as scientists have increasingly turned to amateurs whose expertise had been honed by the new guides to gather the data they need to support habitat preservation Putting nature lovers and citizen activists at the heart of his work Thomas Dunlap offers an entertaining history of America's long standing love affair with birds and with the books that have guided and informed their enthusiasm **Australian Books in Print 1999** K G Saur Books, 1999-04 Excellent coverage essential to worldwide bibliographic coverage American Reference Books Annual This comprehensive reference provides current finding ordering information on more than 123 000 in print books published in Australia You'll also find brief profiles of more than 12 000 publishers distributors whose titles are represented as well as information on trade
