The Bombers and the Bombed Richard Overy, 2015-04-28 An essential part of the literature of World War II Jonathan Yardley The Washington Post From acclaimed World War II historian Richard Overy comes this startling new history of the controversial Allied bombing war against Germany and German occupied Europe In the fullest account yet of the campaign and its consequences Overy assesses not just the bombing strategies and pattern of operations but also how the bombed communities coped with the devastation This book presents a unique history of the bombing offensive from below as well as from above and engages with moral questions that still resonate today

Bombing, States and Peoples in Western Europe 1940-1945 Claudia Baldoli, Andrew Knapp, Richard Overy, 2011-06-30 This is the first book to treat bombing during WWII as a European phenomenon and not just the Blitz on Britain and Germany With Western Europe now at the heart of a united continent it is even more difficult to explain how only 70 years ago European states destroyed much of the urban landscape from the air There were many blitzes between 1940 and 1945 with an estimated 700 000 people killed The purpose of this book is to provide the basis for a comparison of the experience of western states under the impact of bombing In particular it considers the political cultural and social responses to bombing rather than the military strategic and social dimensions which have formed the core of the discussion hitherto This book will correct the popular perception of the British Blitz as the key bombing experience by exposing the reality of life under the bombs for communities as far apart as Brest Palermo and Rostock An international panel of historians consider the issues raised amidst the bombing of human rights and protection of civilians in this seminal event in C20th history

Bomber Crew James Taylor, Martin Davidson, 2012-03-01 Long after the Battle of Britain the aircrews of RAF Bomber Command risked their lives night after night during the Second World War Over 55 000 of the airmen never returned from these missions a further 10 000 became prisoners of war And yet Bomber Command has been mired in controversy and its veterans all volunteers have never been awarded a campaign medal Their crucial contribution to the outcome of the war has all too often been overlooked BOMBER CREW exposes the bravery of these men using gripping first person testimony from the surviving pilots and crew For them this was a time of incredible hardship and adrenaline courage and friendship and their stories bear witness to the strength of the human spirit in times of incredible danger Never before has their story been so vividly told This is also a revealing look at the history of Bomber Command itself from the early days through to eventual victory in 1945 From the terrifying action of the bombing raids to

the intimate personal accounts of heroism tragedy and triumph this is the ultimate account of these brave men and their contribution to the Allied victory

Life and Death in Bomber Command Tony Redding, 2014-03-26 Life and Death in Bomber Command is an intimate account of the human cost of the bombing offensive against Nazi Germany and targets in occupied Europe The story of Lancaster rear gunner W O Sidney Knott DFC unfolds within a detailed assessment of the bomber war by author Tony Redding Sidney Knott survived sixty four operations The first tour beginning in January 1943 included many Battle of the Ruhr targets His aircraft attacked Duisburg five times and Essen on three occasions They also participated in three raids on Berlin In April 1944 Knott began a second tour as a Pathfinder Another thirty five operations included attacks on German cities but the focus was the assault on V1 and V2 sites and French rail targets prior to D Day and the Normandy landings This unique combination of dramatic narrative and strategic overview includes controversial views about post war perspectives on the morality of area bombing and its contribution to victory in Europe It is a moving account of squadron life and describes how every individual lived with unspoken fears The story is complete as it also portrays how former aircrew struggled to set aside traumatic wartime experiences and adjust to life on civvy street

Forgotten Blitzes Claudia Baldoli, Andrew Knapp, 2012-05-03 Forgotten Blitzes analyses how states and civil society in Vichy France and Fascist Italy reacted to the experience of Allied bombing between 1940 and 1945

Hitler's Fortresses Chris McNab, 2014-03-20 The definitive illustrated history of German World War II fortifications covering the Atlantikwall Westwall and myriad other defensive works Hitler s West Wall was one of the greatest engineering projects of the 1930s Stretching more than 390 miles and containing some 14 000 pillboxes it was a significant statement of intent But it was only as World War II progressed that Germany s defensive requirements expanded beyond all previous expectations Along the Atlantic coastline Germany poured millions of tonnes of concrete into chain batteries bunkers and minefields whilst defensive works were sunk into the mountainous terrain of Italy in an attempt to halt the advancing Allies As well as these large scale defensive works Hitler s Fortresses delves into the principles and engineering of basic frontline defences showing how the average German soldiers prepared their fox holes and field fortifications as well as exploring special purpose fortifications like the huge U boat pens V weapon sites and Hitler s own personal constructions from his sprawling headquarters to his mountain top lair This exhaustive study of German wartime fortifications reveals much about the strategic and tactical thinking of the German High Command and combat accounts explore how effective the defences were in practice Illustrated throughout with contemporary photographs cutaway diagrams artworks and maps this edition shows exactly how key types of defensive positions looked and functioned and provides an authoritative record of the Third Reich s defensive mindset

12 Seconds of Silence Jamie Holmes, 2020 The riveting story of the American scientists tinkerers and nerds who solved one of the biggest puzzles of World War II and developed one of the most powerful weapons of the war 12 Seconds of Silence is the remarkable lost story of how a rag tag group of American scientists overcame one of the toughest problems of World War II

Shooting things out of the sky Working in a secretive organization known as Section T a team of physicists engineers and everyday Joes and Janes created one of the world s first smart weapons the proximity fuse The tiny gadget allowed an artillery shell to know when to explode to bring down an aircraft Against overwhelming odds and in a race against time mustering every scrap of resource ingenuity and insight the scientists of Section T would eventually save countless lives rescue the city of London from the onslaught of a Nazi superweapon and help bring about the Axis defeat A holy grail sought after by Allied and Axis powers alike the fuse ranks with the atomic bomb as one of the most revolutionary technologies of the Second World War Until now its tale was largely untold For fans of Erik Larson and Ben Macintyre set amidst the fog of espionage dueling spies and the dawn of an age when science would determine the fate of the world *12 Seconds of Silence* is a tribute to the extraordinary wartime mobilization of American science and the ultimate can do story [German V-Weapon Sites 1943-45](#) Steven J. Zaloga,2012-08-20 Designed to change the course of the war the V weapons required ambitious plans to defend their expensive and complicated launch sites In this illustrated guide Steven J Zaloga describes the configuration and planned deployment of heavy missile sites as well as the unique Allied tactics developed to counter this threat including a remote control version of the B 17 bomber From the V 1 ski sites to the mobile basing employed by the V 2 units and the other secret weapons bases like the V 3 high pressure gun at Mimoyeques this book examines the impact of these weapon systems and defences not only on the war but on modern weaponry With many of the sites described still surviving today this is a perfect companion for a tour of the V weapon sites built during World War II **The RAF's French Foreign Legion** G. H. Bennett,2011-04-28 This book examines and analyses the relationship between the RAF the Free French Movement and the French fighter pilots in WWII A highly significant subject this has been ignored by academics on both sides of the Channel This ground breaking study will fill a significant gap in the historiography of the War Bennett s painstaking research has unearthed primary source material in both Britain and France including Squadron records diaries oral histories and memoirs In the post war period the idea of French pilots serving with the RAF seemed anachronistic to both sides For the French nation the desire to draw a veil over the war years helped to obscure many aspects of the past and for the British the idea of French pilots did not accord with the myths of the Few to whom so much was owed Those French pilots who served had to make daring escapes Classed as deserters they risked court martial and execution if caught They would play a vital role on D Day and the battle for control of the skies which followed *The Bombing War* Richard Overy,2013-09-26 The ultimate history of the Blitz and bombing in the Second World War from Wolfson Prize winning historian and author Richard Overy The use of massive fleets of bombers to kill and terrorize civilians was an aspect of the Second World War which continues to challenge the idea that Allies specifically fought a moral war For Britain bombing became perhaps its principal contribution to the fighting as night after night exceptionally brave men flew over occupied Europe destroying its cities *The Bombing War* radically overhauls our understanding of the War It is the first book to examine seriously not just the most well

known parts of the campaign but the significance of bombing on many other fronts the German use of bombers on the Eastern Front for example as well as much newly discovered material on the more familiar Blitz on Britain or the Allied campaigns against Italian cities The result is the author's masterpiece a rich gripping picture of the Second World War and the terrible military technological and ethical issues that relentlessly drove all its participants into an abyss Reviews Magnificent must now be regarded as the standard work on the bombing war It is probably the most important book published on the history of the second world war this century Richard J Evans Guardian Monumental this is a major contribution to one of the most controversial aspects of the Second World War full of new detail and perspectives hugely impressive James Holland Literary Review This tremendous book does what the war it describes signally failed to do With a well thought out strategy and precision it delivers maximum force on its objectives The result is a masterpiece of the historian's art The Times It is unlikely that a work of this scale scope and merit will be surpassed Times Higher Education What distinguishes Mr Overy's account of the bombing war from lesser efforts is the wealth of narrative detail and analytical rigour that he brings to bear Economist Excellent Overy is never less than an erudite and clear eyed guide whose research is impeccable and whose conclusions appear sensible and convincing even when they run against the established trends Financial Times Hard to surpass If you want to know how bombing worked what it did and what it meant this is the book to read Times Literary Supplement About the author Richard Overy is the author of a series of remarkable books on the Second World War and the wider disasters of the twentieth century The Dictators Hitler's Germany Stalin's Russia won both the Wolfson Prize for History and the Hessel Tiltman Prize He is Professor of History at the University of Exeter Penguin publishes 1939 Countdown to War The Morbid Age Russia's War Interrogations The Battle of Britain and The Dictators He lives in London

V-1 Flying Bomb 1942-52 Steven J. Zaloga, 2011-07-20 The first deployment of the V 1 was in June 1944 when following two years of tests Hitler gave the order to attack England Known to the Allies as the Buzz Bomb or Doodlebug the V 1 was the world's first cruise missile This book explores the V 1 in detail from its initial concept first use in 1944 the various Allied counter measures and the later use of the V 1 during the Battle of the Bulge The major foreign derivatives including the US copy JB 2 Loon and numerous post war Soviet variants are also covered

Five of the Many Steve Darlow, 2008-01-19 The daring exploits of five RAF airmen who carried out the truly devastating offensive to defeat the unquestionable evil of Nazi Germany in World War II In Five of the Many the enthralling stories of Wellington pilot Rupert Cooling Wellington and Mosquito pilot Jack Goodman Halifax pilot Joe Petrie Andrews Lancaster pilot Tony Iveson and Halifax and Mosquito navigator Harry Hughes transport the reader into the intensity of the bomber battle over western Europe Collectively these men help thwart German invasion plans in 1940 and counter the U boats on the seas and in the factories They hinder German military industrial production taking part in some of the most devastating raids in history They counter the development and deployment of German V weapons and fly deep into hostile airspace to attack the heart of

Germany Berlin They clear the way for the Normandy landings and blast the German reinforcement of the battle area They indulge in special ops including sinking the Tirpitz and they directly support the land advances to Germany and disrupt enemy supply lines during the German Ardennes offensive Their stories are a fitting tribute to the youthfulness of the many the skill of the many the determination of the many and the sheer guts of the many Bomber Command's motto required its airmen to Strike Hard Strike Sure These five special men did just that fighting hard flying sure along the flight path to victory in Europe

Beyond the Beach Stephen Bourque, 2018-04-15 An important rethinking of the Normandy war narrative Beyond the Beach examines the Allied air war against France in 1944 During this period General Dwight David Eisenhower as Supreme Allied Commander took control of all American British and Canadian air units and employed them for tactical and operational purposes over France rather than as a strategic force to attack targets deep in Germany Using bombers as his long range artillery he directed the destruction of bridges rail centers ports military installations and even French towns with the intent of preventing German reinforcements from interfering with Operation Neptune the Allied landings on the Normandy beaches Ultimately this air offensive resulted in the death of over 60 000 French civilians and an immense amount of damage to towns churches buildings and works of art This intense bombing operation conducted against a friendly occupied state resulted in a swath of physical and human destruction across northwest France that is rarely discussed as part of the D Day landings This book explores the relationship between ground and air operations and its effects on the French population It examines the three broad groups that the air operations involved the doctrine and equipment used by Allied air force leaders to implement Eisenhower's plans and each of the eight major operations called lines of effort that coordinated the employment of the thousands of fighters medium bombers and heavy bombers that prowled the French skies that spring and summer of 1944 Each of these sections discusses the operation's purpose conduct and effects upon both the military and the civilian targets Finally the book explores the short and long term effects of these operations and argues that this ignored narrative should be part of any history of the D Day landings

Operation Crossbow 1944 Steven J. Zaloga, 2018-07-26 In mid 1943 Allied intelligence began to pick up the signs of unusual German construction in remote locations near the Channel Coast Several massive fortifications were beginning to take shape and they appeared to be oriented towards London Allied intelligence codenamed these sites as Crossbow and began plans to attack them before they could bombard Britain's capital city These Heavy Crossbow sites for the V 1 and V 2 missiles were supposed to be bomb proof but they soon attracted the attention of RAF heavy bombers with the new Tallboy concrete penetrating bombs Fully illustrated with commissioned artwork and contemporary photographs Operation Crossbow 1944 examines the dynamics of the world's first missile war It also describes the parallel American efforts to develop missiles and assault drones to attack the Heavy Crossbow sites including the Air Force's Aphrodite and Navy Anvil projects

Luck of a Lancaster Gordon Thorburn, 2013-08-19 The saga of a squadron a plane and the action triumphs and tragedies they saw during World War II includes photos No 9 Squadron of

Bomber Command converted from the Wellington to the Lancaster in August 1942 W4964 was the seventieth Lanc to arrive on squadron in mid April 1943 She flew her first op on the 20th by which time No 9 had lost forty one of their Lancs to enemy action and another five had been transferred to other squadrons and lost by them No 9 would soon lose a further thirteen of the seventy All of the remaining eleven would be damaged repaired transferred to other squadrons or training units and lost to enemy action or crashes except for three which in some kind of retirement would last long enough to be scrapped after the war Only one of the seventy achieved a century of ops or anything like it W4964 WS J Across all squadrons and all the war the average life of a Lancaster was 22 75 sorties but rather less for the front line squadrons going to Germany three and four times a week in 1943 and 44 which was when W4964 WS J was flying her 107 sorties all with No 9 Squadron and all from RAF Bardney The first was Stettin Szczecin in modern Poland and thereafter she went wherever 9 Squadron went to Berlin the Ruhr and most of the big ops of the time such as Peenemunde and Hamburg She was given a special character as J Johnny Walker still going strong and on September 15 1944 skippered by Flight Lieutenant James Douglas Melrose her Tallboy special bomb was the only one to hit the battleship Tirpitz During her career well over two hundred airmen flew in J None were killed while doing so but ninety six of them died in other aircraft This is their story and the story of one lucky Lancaster

Target London Peter Reese,2011-10-05 London was a target for Zeppelins and bombers during the First World War for bombers V1s and rockets in the Second and for Cold War missiles and for terrorists in more recent times yet rarely has the history of twentieth century attacks on the capital been studied as a whole Peter Reese in this thought provoking account vividly describes how the destructive potential of aerial bombing and terrorist actions has increased and how Londoners have struggled to protect themselves and their city He looks at the strategic aims of the bombing campaigns panic devastation paralysis of communications and the collapse of morale and contrasts them with the actual responses of Londoners of civilians who faced this new form of indiscriminate warfare As he traces the developing theory and practice of air power he dispels myths and misunderstandings that still surround the subject His narrative follows the story from the commencement of the First World War when the development of aircraft accelerated and the possibilities of aerial warfare came to be appreciated and feared There are graphic accounts of the German raids on the city in the First World War of the intense interwar debate about the impact of bombing and of the ordeal that followed the Blitz and the V1 and V2 campaigns He also considers in the concluding chapters more recent threats to the capital which come not from aircraft and missiles but from the bombing tactics adopted by terrorists and the need for appropriate responses
