Subject Of Addiction Psychoanalysis And The Administration Of Enjoyment:

The Subject of Addiction Rik Loose,2018-06-27 Drugs and drug use are an integral part of human culture Yet we know hardly anything about drugs at least not the kind of knowledge that would help us to understand how drugs affect people and how people become addicted to drugs This is most surprising in the light of the vast amount of knowledge accumulated in the sciences Psychoanalysis might not be an obvious choice for the treatment of addiction Nevertheless it is in an excellent position to make a contribution to a problem that has so far defied much of our understanding By inviting people to speak about themselves psychoanalysis has established a unique way of collecting clinical material a material that surely must be immediately relevant coming as it does from the horse's mouth With addiction on the increase this fact alone justifies the necessity for a different approach Providing a theoretical foundation for the argument that psychoanalysis should be seriously considered and where possible incorporated into the treatment of addicts this thoughtful and innovative book can serve as an orientation in the ongoing front line battle with addicts and addiction

Psy-Complex in Question Ian Parker,2018-01-26 *Psy Complex in Question* traces a series of key debates in and against the psy complex through critical reviews of twenty five key texts over the last twenty five years with an emphasis on recent critical psychological psychoanalytic and critical social theory contributions to how we think about human agency and subjectivity The reviews together set out the unfolding context for the debate and situate the texts under discussion in the cross cutting debates that define critical psychology today It also provides an accessible introduction to how psychoanalysis and social theory with a particular focus on the work of Jacques Lacan and Slavoj Žižek bears upon work carried out by a new generation of researchers Ian Parker's book is written from the perspective of a critical insider to the discipline of psychology psychoanalysis and social theory and it will serve as a primer for those new to the ideas searching for compass points and radical arguments as well as examples of how to write and how not to write a book review

Freud the typical psychoanalytic patient was afflicted with neurotic disorders however the modern day psychotherapy patient often suffers instead from a variety of addictive disorders As the treatment of neurotic disorders based on unconscious conflicts cannot be applied to treatment of addictive disorders psychoanalysis has been unable to keep pace with the changes in the type of patient seeking help To address the shift and respond to contemporary patients needs Ulman and Paul present a thorough discussion of addiction that studies and analyzes treatment options Their honest and unique work provides new ideas that will help gain access to the fantasy worlds of addicted patients The Self Psychology of Addiction and Its Treatment emphasizes clinical approaches in the treatment of challenging narcissistic patients struggling with the five major forms of addiction Ulman and Paul focus on six specific case studies that are illustrative of the five forms of addiction They use the representative subjects to develop a self psychological model that helps to answer the pertinent questions regarding the origins and pathway of addiction This comprehensive book links addiction and trauma in an original manner that creates a greater understanding of addiction and its foundations than any clinical or theoretical model to date

Lacan and Addiction Yael Goldman Baldwin,2018-05-08 With chapters from Rik Loose Fabian Naparstek Patricia Gherovici Bruce Fink Thomos Svolos and many others the anthology is for people interested in the topic of addictions or in Lacanian psychoanalysis and especially for those interested in how the two intersect Lacan and Addiction is based on papers presented at a 2006 conference where Lacanians from around the world gathered to speak about addictions Conference participants explored the complexity of the problem for the individual society clinicians and for treatment In the current climate where addiction is mostly treated by variations of twelve step approaches and psychopharmacological countermeasures it is all too easy to lose sight of the dimensions of addiction that render it not just a disease to be managed but rather a significant form of human suffering and a subjective responsibility both of which are critical components of addiction treatment More and more addiction treatment is turning away from psychological and psychoanalytic theorization and towards psychopharmacological measures this anthology attempts to rectify that situation
