The Ultimate Naval Weapon—  
Its Past, Present & Future

**DREW MIDDLETON**

**O**riginally a toy scorned by admirals, the submarine is now the most deadly weapon on the planet. Here, Drew Middleton explores the exciting past, extraordinary present and the awesome future of the submarine as a military weapon and a political instrument.

The lot of the submariner and the submarine designer has always been perilous and uncertain. Men like Robert Fulton and John Holland struggled to win acceptance of their vision from hide-bound naval establishments. The nuclear submarine is largely the product of one of the most remarkable men ever to wear Navy blue: Admiral Hyman Rickover. Rickover's trials, setbacks and eventual triumph make spellbinding reading.

The reader will learn of the submarine's role in some of the great battles of history. Japanese submarines were a flop at Pearl Harbor. American submariners early in World War II did little to halt the

*Submarine, the Ultimate Naval Weapon* Drew Middleton, 1976 Traces the development of undersea warfare and explains its importance in current global strategy      *Submarine-The Ultimate Naval Weapon* Drew Middleton, 1976      **Warships Associated with World War II in the Pacific** Harry A. Butowsky, 1985      *The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual* Ron Martini, 2005

Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can't understand terms like head deck and overhead and who think SOS is a distress signal      Jellicoe's War Nicholas Jellicoe, 2024-12-31

In February 1917 German U boats launched a savage unrestricted campaign against both Allied and neutral shipping At its peak in April 860 000 tons of Allied merchant shipping was sunk Britain's supremacy at sea was being severely challenged and with it the chances of victory in the wider war Taking up the challenge was Britain's new First Sea Lord Sir John Jellicoe until the previous December C in C of the Grand Fleet famously described by Churchill as the only man who could have lost the war in an afternoon The battle he now faced was equally critical although the timeline of defeat was a matter of days rather than hours Britain's food stocks were dangerously low with wheat reserves down to six weeks and sugar to only two while wide scale shortages were crippling the industrial economy Jellicoe outlined the gravity of the situation with total candor to Rear Admiral William Sims USN sent over before America officially declared war by Franklin Roosevelt the Assistant Secretary of the Navy The two men already knew each other from service together in China during the Boxer Rebellion so Jellicoe's plea for urgent American assistance was taken seriously by Sims After the USA joined the war in April 1917 together they lobbied Washington for aid addressing their needs directly to two reluctant Anglophobes at the head of the USN Secretary of the Navy Josephus Daniels and Chief of Naval Operations William Benson Clearly a radical new approach to anti submarine warfare was called for and Convoy was the leading contender There were many objections to protecting shipping in this way some ideological but most practical a workable system for example effectively required state control of both shipping and distribution networks something inconceivable in normal circumstances However Convoy had powerful advocates including the Prime Minister Lloyd George who later claimed he had personally forced its adoption on a reluctant Admiralty This self serving political myth cast Jellicoe as an opponent of Convoy nothing could be further from the truth As both Jellicoe and Sims understood the key requirement was a rapid increase in the number of destroyers for escort duties America provided them the first arriving in Queenstown Ireland on 4 May and by June 46 were operating in

European waters This was the first step in an Anglo American campaign that gradually brought the U boat threat under control and led to its ultimate defeat This book takes a fresh look at the undersea war as a whole and all the complex factors bearing on the campaign only one of which was convoy Its analysis is original and its conclusions thought provoking an important contribution to the naval history of the Great War      **Confederate Saboteurs** Mark K. Ragan,2015-09-01 Facing an insurmountable deficit in resources compared to the Union navy the Confederacy resorted to unorthodox forms of warfare to combat enemy forces Perhaps the most energetic and effective torpedo corps and secret service company organized during the American Civil War the Singer Secret Service Corps led by Texan inventor and entrepreneur Edgar Collins Singer developed and deployed submarines underwater weaponry and explosive devices The group s main government financed activity which eventually led to other destructive inventions such as the Hunley submarine and behind enemy line railroad sabotage was the manufacture and deployment of an underwater contact mine During the two years the Singer group operated several Union gunboats troop transports supply trains and even the famous ironclad monitor Tecumseh fell prey to its inventions In *Confederate Saboteurs Building the Hunley and Other Secret Weapons of the Civil War* submarine expert and nautical historian Mark K Ragan presents the untold story of the Singer corps Poring through previously unpublished archival documents Ragan also examines the complex personalities and relationships behind the Confederacy s use of torpedoes and submarines      [Proceedings of the United States Naval Institute](#) United States Naval Institute,1919

**Tooling for War** Elwood L. White,1994      **We Were Pirates** Robert D Schultz,James Shell,2009-09-01 A sailor s extraordinary experiences on an American submarine in the Pacific are candidly reported in this eyewitness account of war from a torpedoman s perspective Robert Hunt managed to survive twelve consecutive war patrols on the submarine USS Tambor During the course of the war Hunt was everywhere that mattered in the Pacific He stood on the bow of the Tambor as it cruised into Pearl Harbor just days after the devastation of the Japanese air raid peered through binoculars as his boat shadowed Japanese cruisers at the Battle of Midway ferried guns and supplies to American guerilla fighters in the Philippines fired torpedoes that sank vital Japanese shipping and survived a near fatal seventeen hour depth charge attack For exceptional skill and proficiency at his battle station Hunt received a commendation from Fleet Admiral Chester W Nimitz This WWII torpedoman s account of the war offers the rare perspective of an enlisted seaman that is not available in the more common officer accounts To capture and recount the progress of the Pacific War through Hunt s eyes coauthors Robert Schultz and James Shell examined the young submariner s war diary as well as crew letters photographs and captains reports and they also conducted hours of interviews Their vivid descriptions of the ways in which sailors dealt with the stress of war while at sea or on liberty show a side of the war that is rarely reported The fact that Hunt s submarine was the first of a new fleet of World War II boats and the namesake of a significant class adds further value to his remarkable story      **The Encyclopedia of the Spanish-American and Philippine-American Wars** Spencer C.
