Subotai The Valiant Genghis Khans Greatest General:

Genghis Khan's Greatest General Richard A. Gabriel, 2006 This book tells the story of Subotai the Valiant a warrior for Genghis Khan and one of the greatest generals in military history Subotai commanded armies whose size scale and scope of operations surpassed those led by any other commander in the ancient world Under Subotai's direction Mongol armies moved faster over greater distances and with a greater scope of maneuver than any army had ever done before When Subotai died at age seventy three he had conquered thirty two nations and won sixty five pitched battles according to Muslim historians Had the great Khan not died Subotai likely would have destroyed Europe itself *Subotai the Valiant* Richard A. Gabriel, 2004-06-30 This book tells the story of Subotai the Valiant one of the greatest generals in military history surely the equal of Hannibal and Scipio in tactical brilliance and ranking right along with both Alexander and Caesar as a strategist Subotai commanded armies whose size scale and scope of operations surpassed all of the commanders of the ancient world Under his direction and command Mongol armies moved faster over greater distances and with a greater scope of maneuver than any army had ever done before His legacy lives to the present day for much of the theory and practice of modern military operations was first used by Subotai The modern emphasis on speed maneuver surprise envelopment the rear battle the deep battle concentration of firepower and the battle of annihilation all emerged as tactical skills first practiced by this great Mongol general Subotai died at age 73 by which time he had conquered 32 nations and won 65 pitched battles as the Muslim historians tell us For 60 of those years Subotai lived as Mongol soldier first as a lowly private who kept the tent door of Genghis himself rising to be the most brilliant and trusted of Genghis Khan's generals When Genghis died Subotai continued to be the moving force of the Mongol army under his successors It was Subotai who planned and participated in the Mongol victories against Korea China Persia and Russia It was Subotai's conquest of Hungary that destroyed every major army between the Mongols and the threshold of Europe Had the great Khan not died it is likely that Subotai would have destroyed Europe itself **500 Great Military Leaders** Spencer C. Tucker, 2014-12-16 This insightful encyclopedia examines the most influential commanders who have shaped military history and the course of world events from ancient times to the present From Alexander the Great and Attila the Hun to Ho Chi Minh and Colin Powell 500 Great Military Leaders provides readers with insight into the most innovative and prominent individuals who have led armies to victory on battlefields all over the world The broad coverage ranges from military leaders from the ancient world to the present day including political figures who directed war efforts and those who were responsible for major technological improvements This encyclopedia goes beyond providing factual information about each individual's life to delve into the greater historical context and impact on their contemporaries as well as on future military history The presentation of information is designed to enable readers to both observe the gradual evolution of warfare over time and clearly perceive the differences in tactics used by generals with varying military resources at their disposal The entries include not only information on the individual's

life and work but a summary statement that assesses successes and failures across each leader's career and summarizes the overall impact. Each entry also provides several references for further reading about that individual. The accessible writing style of this resource and in-depth information and analyses make it appropriate for high school and undergraduate level students as well as scholars of military history and individuals who simply enjoy reading about military history.

The History of Central Asia Christoph Baumer, 2016-05-30 Between the ninth and the fifteenth centuries Central Asia was a major political, economic and cultural hub on the Eurasian continent. In the first half of the thirteenth century it was also the pre-eminent centre of power in the largest land-based empire the world has ever seen. This third volume of Christoph Baumer's extensively praised and lavishly illustrated new history of the region is above all a story of invasion when tumultuous and often brutal conquest profoundly shaped the later history of the globe. The author explores the rise of Islam and the remarkable victories of the Arab armies which inspired by their vital, austere and egalitarian desert faith established important new dynasties like the Seljuks, Karakhanids and Ghaznavids. A golden age of artistic, literary and scientific innovation came to a sudden end when between 1219 and 1260 Genghis Khan and his successors overran the Chorasmanian Abbasid lands. Dr Baumer shows that the Mongol conquests while shattering to their enemies nevertheless resulted in much greater mercantile and cultural contact between Central Asia and Western Europe.

The Mongol Conquests Carl Fredrik Sverdrup, 2017-05-04 A scholarly detailed history of how the Mongols created the greatest landlocked empire in history. Midwest Book Review The Mongols created the greatest landlocked empire known to history. It was an empire created and sustained by means of conquest. Initially an insignificant tribal leader Genghis Khan gradually increased his power overcoming one rival after another. After he had subjugated all tribes of Inner Asia he struck southward into China and later attacked distant Khwarizm in the Near East. Subsequently he continued to make significant conquests after Genghis Khan died conquering central China and leading a large force into the heart of Europe. Between them Genghis Khan and Subutai directed more than 40 campaigns fought more than 60 battles and conquered all lands from Korea in the east to Hungary and Poland in the west. This book offers a detailed narrative of the military operations of these two leaders based on early Mongolian, Chinese, Near Eastern and European sources. Making full use of Chinese sources not translated properly into any European language the accounts offer details never before given in English works. Detailed maps showing the operations support the text. Many conventional wisdom views of the Mongols such as their use of terror as a deliberate strategy or their excellence at siege warfare are shown to be incorrect. This is a major contribution to our knowledge of the Mongols and their way of warfare. History is littered with great leaders leading great armies and conquering large swathes of the world: Attila the Hun, Alexander the Great, the Roman Empire but none perhaps as staggering as that of Genghis Khan. I have never heard of Subutai. I'm ashamed to say until now in this excellent book by Carl Fredrik Sverdrup Asian history has never particularly appealed to me but this is big history and the author's style makes it compelling and readable. Books Monthly This is a very

valuable addition to the literature on the Mongol conquests giving us a much clearer idea of the detailed course of their campaigns the world in which they took place and the methods used to win them
