Subud And The Javanese Mystical Tradition:

Subud and the Javanese Mystical Tradition Antoon Geels, 1997 Subud is one of hundreds of mystical movements aliran kebatinan which have grown significantly in postwar Indonesia Along with other movements like Sumarah and Pangestu Subud has attracted people from the West and has now spread to about eighty countries Despite the fact that Subud leaders deny any relation to the Javanese mystical tradition it is one of the tasks of this study to show that the greater part of Subud s conceptual apparatus is firmly rooted in the cultural history of Java Under the banner of change and renewal Subud presents a message which fundamentally is one of continuity in a society in transition This text presents an overall picture of the history of Javanese mysticism particularly the concept of God the view of man and the techniques recommended in order to bridge the gap between God and man The text discusses the rise of mystical movements in post war Java along with a presentation of three movements which attracted the West In addition the book provides a biography of the founder of Subud the basic concepts of Subud and the meaning of the Subud spiritual exercise latihan kejiwaan along with an analysis of Subud theory and practice and its relation to the Javanese mystical tradition and a psychological interpretation of the spiritual exercise

Ian Reader, 1996 This highly acclaimed study describes Aum Shinrikyo s history examines the various conflicts it was involved in and discusses the contents of Asahara s sermons and prophecies The March 1995 gas attack on the Tokyo subway system killed 12 people and injured thousands Massive police raids and the subsequent investigation linked this attack plus a variety of other criminal activities including murders to Aum Shinrikyo a small religious movement whose leader Asahara Shoko had prophesied that Armageddon was at hand Many questions have been raised by the Aum affair What were Aum s spiritual roots and the focus of Asahara s teaching Why did a religious movement ostensibly focused on yoga meditation asceticism and the pursuit of enlightenment become involved in violent activities What factors brought Aum into conflict with society at large caused it to believe it was the victim of a huge conspiracy to destroy it and impelled it to experiment with making nerve gasses build weapons and form its own alternative government Ian Reader examines these questions by describing Aum s history examining the various conflicts it was involved in and discussing the contents of Asahara s sermons and prophecies In so doing he points to a combination of factors which together took Aum down a path of violence Suggesting that the Aum case is not unique he shows how it displays similarities with other cases of violence and conflict among religious and political movements in Japan and elsewhere

Creating Laos Søren Ivarsson, 2008 This book examines the process through which Laos came into existence under French colonial rule through to the end of World War II Here Laos s position at the intersection of two conflicting spatial layouts of Thailand and Indochina made its national form a particularly contested process Rather than analyze this process in terms of administrative and political structures the book discusses how a specific idea about a separate Lao space and its culture was formed

Violence and Belonging Are J. Knudsen, 2009 Honor and violence are major themes in the anthropology of the Middle East yet apart from political violence most studies approach violence from the perspective of honour By contrast this important study examines the meanings of lethal conflict in a little studied tribal society in Pakistan s unruly North West Frontier Province NWFP and offers a new perspective on its causes Based on an in depth study of local conflicts the book challenges stereotyped images of a region and people miscast as extremist and militant Being grounded in

local ethnography enables the book to shed light on the complexities of violence not only at the structural or systemic level but also as experienced by the men involved in lethal conflict In this way the book provides a subjective and experiential approach to violence that is applicable beyond the field locality and relevant for advancing the study of violence in the Middle East and South Asia The book is the first ethnographic study of this region since renowned anthropologist Fredrik Barth's pioneering study in 1954

Fiery Dragons Sean Turnell, 2009 This book tells the story of Burma's financial system of its banks moneylenders and microfinanciers from colonial times to the present day It argues that Burma's financial system matters and that the careful study of this system can tell us something more general about Burma not least about how the richest country in Southeast Asia at the dawn of the twentieth century became the poorest at the dawn of the twenty first While financial systems and institutions matter in all countries Turnell argues that they especially count in Burma as events in the financial and monetary sphere have been unusually spectacularly prominent in Burma's turbulent modern history The story of Burma's financial system and its players is one that has shaped the country It is a dramatic story of interest beyond the confines of economics and development studies
