picture only good things happening to you so that this creative power will be expressed only within a good and positive framework You will stop brooding over your past failures and tragedies and stop causing them to be repeated in your life You will direct your strongest feelings and desires toward the things you really want in life You will never knowingly use the creative power of PMA for selfish or evil purposes knowing that the misuse of it can cause it to destroy you and all that you value Attaining these benefits your birthright as a human being will be your goal from this day on Nothing can stop you and the only resource you need is your own commitment to making it happen From the Introduction

Success Through a Positive Mental Attitude Napoleon Hill, Clement W. Stone, 1995 **Positive Attitude - Key to Success** Dan

Miller, 2015-09-10 Positive mental attitude is a concept that has been developed in many areas of life as a key to success In 1937 Napoleon Hill introduced the importance of positive thinking in his book Think and Grow Rich Later on other scholars such as W Clement Stone found positive mental attitude as a very critical component to personal success and productivity The right mental attitude is associated with positive characteristics such as hope courage faith optimism generosity initiative tolerance kindness and good common sense Positive attitude is more of a philosophy that builds on the fact that having an optimistic disposition in any circumstance of life can help you in enhancing achievement and positive changes It is a state of mind that tirelessly seeks for ways of victory regardless of the surrounding circumstances Positivity by its mere definition opposes negativity hopelessness and defeatism To develop mental strength you need deliberate measures and commitment A resilient mind is one that never loses focus even when subjected to the most stressful conditions Mental toughness will help you maneuver through stress and emerge stronger than before A mental attitude is the bridge that connects success and failure On one end of the bridge is failure which is characterized by negativity while on the other end it is success which is denoted by a positive attitude At any given time individuals are between the two points emotionally They are at liberty to swing towards any end but they must also be ready to bear the consequences It is true that you can overcome negativity but you must be determined Having a clear understanding of the end result can motivate you to changing from negativity into positivity With a positive attitude it is possible to turn situations of failure into success
