Suffering Presence:

Suffering Presence Stanley Hauerwas, 1986 This work examines contemporary views on medical ethics such as preventing death defining family relations and reproductive and disabled issues The Crisis of Presence in Contemporary Culture Vincent Miller, 2015-09-25 Discussions about the contemporary online world are often in a one dimensional manner shaped by moral panics about online trolling cyberbullying cybercrime terrorists online etc The associated right wing extremist agenda for Internet politics is about control surveillance and censorship Vince Miller s book questions this agenda and is an excellent work for understanding how to use philosophical thought for the analysis of ethics privacy and disclosure in this turbulent world of the Internet in the information society It shows how to come to grips with the contested relationship between online freedom and control Christian Fuchs University of Westminster Author of Social Media A Critical Introduction By investigating three issues which have captured the public imagination as problems emerging directly from the contemporary use of communications technology anti social behaviour privacy and free speech online Vincent Miller explores how the digital revolution is challenging our notion of self and presence Through a critical and philosophical examination of each of these cases he argues that they have at their root the same phenomena a crisis of presence Focussing on the concept of presence and the challenges that our changing presence poses to our ethics privacy and public discourse Miller illustrates how ubiquitous communication technologies have created a disjuncture between how we think we exist in the world and how we actually do exist through our use of such devices The solution he claims is not to focus exclusively on content and its regulation as much as it is to examine understand and resist the alienating aspects of the media itself such as the technological ordering metaphysical abstraction and mediation which increasingly define our social encounters and presences He suggests that such resistance involves several ambitious revisions in our ethical legal and technological regimes

Real Presence Michael Hickey, 2025-09-04 Christ s real presence is manifested not only in the Eucharist but also in all aspects and subsections throughout humanity the author engages with many of these manifestations devoting an entire chapter to the exploration of each Any books written on the subject of Real Presence thus far have confined the writing to be strictly writing about the real presence of God Christ in the Eucharist which confines itself mostly to a discussion among Catholics who are the principal Christian church which believes in Christ s real presence in the Eucharist This book differs for several reasons First the author writes about the real presence of Jesus Christ not only in the Eucharist but also in the poor and lowly in children in the suffering in creation in the stranger and the prisoner in the neighbor and the family in the Word of God in the Bible in the church community etc Each area is examined through an entire chapter devoted to it This broadens the scope of God s real presence in the world as God is continually revealing Godself to humanity in many other ways than only the Eucharist Because Christ is revealing Himself through the power and presence of the Holy Spirit within us each moment can be seen as a Sacrament of the present moment The book continues to discuss the principle of

sacramentality and how each moment we are alive on this earth is a sacramental moment involving more than we can be mortally aware of This moment is not only a moment in time but a reflection of the timelessness of all of eternity Christ continues to reveal his presence to us not only through the Eucharistic Banquet but Christ attempts to encounter us with his presence throughout all created reality Because Christians believe in faith that after the crucifixion death and resurrection of Jesus the Holy Spirit of Jesus Christ we received in Baptism is in us as the Body of Christ Because the resurrected Christ is now the universal Christ throughout all of creation the entire universe has become Christocentric Therefore all created reality now being imbued with the presence of Christ at its center can prove to be a potential encounter with the REAL PRESENCE of Christ a greater interest not only to Catholics but because of its universality to Christians of all denominations

Vulnerability and Care Andrew Sloane, 2016-01-28 Medical and bioethical issues have spawned a great deal of debate in both public and academic contexts Little has been done however to engage with the underlying issues of the nature of medicine and its role in human community This book seeks to fill that gap by providing Christian philosophical and theological reflections on the nature and purposes of medicine and its role in a Christian understanding of human society The book provides two main doorways into a Christian philosophical theology of medicine First it presents a brief description of the contexts in which medicine is practiced in the early 21st century identifying key problems and challenges that medicine must address It then turns to issues in contemporary bioethics demonstrating how the debate is rooted in conflicting visions of the nature of medicine and so human existence This leads to a discussion of some of the philosophical and theological resources currently available for those who would reflect Christianly on medicine The heart of the book consists of an articulation of a Christian understanding of medicine as both a scholarly and a social practice articulating the philosophical theological framework which informs this perspective It fleshes out features of medicine as an inherently moral practice one informed by a Christian social vision and shaped by key theological commitments The book closes by returning to the issues relating to the context of medicine and bioethics with which it opened demonstrating how a Christian philosophical theology of medicine informs and enriches those discussions **Presence, Volume I** Rupert Spira, 2016-12-01 Our self aware

presence knows no resistance to any appearance and as such is happiness itself like the empty space of a room it cannot be disturbed and is therefore peace itself like this page it is intimately one with whatever appears on it and is thus love itself and like water that is not affected by the shape of a wave it is pure freedom Causeless joy imperturbable peace love that knows no opposite and freedom at the heart of all experience this is our ever present nature under all circumstances

Theology as Hope Ryan A. Neal, 2009-01-01 Hope is the leitmotiv of Jürgen Moltmann's theology Not merely one aspect of his project hope is the whole of it the supreme doctrine interpenetrating all others Indeed hope is his method The present study is both historical and developmental while also being analytical and interrogative This chronological exploration seeks to show the nature composition and development of Moltmann's doctrine of hope as the distinctive doctrine of his theology

implicating all others Part I establishes Moltmann's doctrine of hope as grounded in God's faithfulness in the cross and resurrection Part II investigates major doctrines in his project in light of this ground This design seeks to take advantage of the chronological approach while also integrating the best elements of a topical approach Promise and Presence John E. Colwell,2011-09-22 John Colwell presents a robust sacramental theology for Protestant churches He maintains that a doctrine of the Trinity leads us to conceive of God's gracious engagement with his creation as one that is mediated through that creation And this lies at the foundation for an understanding of the sacraments Colwell further argues that the Church and Scripture confer context definition and validity on all other sacramental events The final section reconsiders the seven Sacraments of the Catholic tradition in the light of the understanding of sacramentality developed earlier in the book baptism confirmation the Lord's Supper cleansing healing ministry and marriage Colwell discusses the Sacraments from an evangelical perspective but with a committed ecumenical intent Sinners in the Presence of a Loving God R. Zachary Manis,2019-06-03 In *Sinners in the Presence of a Loving God* R Zachary Manis examines in detail the several facets of the problem of hell considers the reasons why the usual responses to the problem are unsatisfying and suggests how an adequate solution to the problem can be constructed **The Goals of Medicine** Mark J. Hanson,Daniel Callahan,2000-10-27 Debates over health care have focused for so long on economics that the proper goals for medicine seem to be taken for granted yet problems in health care stem as much from a lack of agreement about the goals and priorities of medicine as from the way systems function This book asks basic questions about the purposes and ends of medicine and shows that the answers have practical implications for future health care delivery medical research and the education of medical students The Hastings Center coordinated teams of physicians nurses public health experts philosophers theologians politicians health care administrators social workers and lawyers in fourteen countries to explore these issues In this volume they articulate four basic goals of medicine prevention of disease relief of suffering care of the ill and avoidance of premature death and examine them in light of the cultural political and economic pressures under which medicine functions In reporting these findings the contributors touch on a wide range of diverse issues such as genetic technology Chinese medicine care of the elderly and prevention and public health *The Goals of Medicine* clearly demonstrates the importance of clarifying the purposes of medicine before attempting to change the economic and organizational systems It warns that without such examination any reform efforts may be fruitless **Unsettling Arguments** Charles R.
