Zarrabi-Zadeh, 2019-07-15 In *Sufism East and West* the contributors investigate the redirection and dynamics of Sufism in the modern era specifically from the perspective of global cross cultural exchange Edited by Jamal Malik and Saeed Zarrabi Zadeh the book explores the role of mystical Islam in the complex interchange and fluidity in the resonance spaces of East and West The volume challenges the enduring Orientalist binary coding of East versus West and argues instead for a more mutual process of cultural plaiting and shared tradition By highlighting amendments adaptations and expansions of Sufi semantics during the last centuries it also questions the persistent perception of Sufism in its post classical epoch as a corrupt imitation of the legacy of the great Sufis of the past **New Age Journal** ,1974-11 Sufi Studies Laurence Frederic Rushbrook Williams, 1973 **International Philosophical Quarterly** ,1975 *Sufi Studies: East and West* Idries Shah, Jalāl al-Dīn Rūmī (Maulana), 1973 *The Book of Enlightened Masters* Andrew Rawlinson, 1997 This is the definitive and complete book about a phenomenon which did not exist a hundred years ago but is now growing rapidly and dramatically changing Western culture the rise of Western mostly American teachers who fill the role of guru or master A few books have appeared on some narrow aspects of this astounding phenomenon this is the first book to survey the entire field Encyclopedic in its scope The Book of Enlightened Masters includes biographical essays on 140 spiritual teachers giving their life stories and an account of their teachings Yet it is also a user friendly introduction with a survey of the teachers and their teachings a historical narrative of how and when the movement developed and an evaluation of the issues raised by it A century ago there were no Western masters no Westerners who were for instance Hindu swamis Zen roshis or Sufi sheikhs Now there are many such teachers with millions of followers Starting from scratch the West has produced its own spiritual teachers in traditions that until recently were utterly alien And in the last quarter century a number of independent teachers have appeared who belong to no single identifiable tradition The Western masters have not merely transplanted the Eastern spiritual traditions to the West they have transformed these traditions by their distinctively Western approach innovative entrepreneurial and combining elements from previously unconnected Eastern traditions The new teachers are changing Western culture by making available a view of the human condition which is new in the West but very attractive to large and growing numbers of Westerners an approach Dr Rawlinson calls spiritual psychology Spiritual psychology holds that human beings are best understood in terms of consciousness and its modifications that consciousness can be changed by spiritual practice and that there are enlightened masters who have done this and can teach others Jorge Luis Borges Giovanna De Garayalde, 1978 A must for anyone interested in the work of the great Argentinian writer Jorge Luis Borges Prof Garayalde settles many of the puzzles and misinterpretations of his works in a very concise and convincing account both of the Sufis and their work with which she became familiar long before she approached Borges own and of the many parallels in ideas and in actual tales that are included in his work This is an ideal introduction to Sufi thought for anyone who is searching for a greater understanding of life and him herself through literature **Journal asiatique** ,1978 Ser 6 v 11 14 and 18 ser 7 v 1
