Making Remittances Work Emiko Todoroki, Wameek Noor, Kuntay Celik, Anoma Kulathunga, 2014-06-19 Migrant workers routinely send small sums back to their families often a crucial lifeline for their survival But sending money across countries for these low income people is not easy and often very expensive and risky Better regulation and supervision of these payment channels can make the process easier to access and more secure

Slovakia Kemal Dervis, 1994-01-01 Slovakia retained a tradition of macroeconomic prudence low inflation and modest debt after the break up of Czechoslovakia But it also inherited a legacy of weak banks a large and inefficient system of social welfare and an industrial system that did not use the concept of comparative advantage Consequently real incomes have plunged 24 percent since 1990 This study focuses on the nation s macroeconomic and structural reform issues during its transition to a market economy reviewing the financial sector private sector development employment growth and labor markets and social benefits The report s recommendations fall into two broad categories 1 facilitating resource reallocation through further privatization increasing job mobility and eliminating regulatory impediments to free enterprise and 2 redefining the economic role of the government by reducing the fiscal deficit that discourages private activity redirecting subsidies away from enterprises and toward public capital formation that fosters private investment and providing more generous social benefits to the truly needy

Democratic Republic of the Congo International Monetary Fund. Monetary and Capital Markets Department, 2014-10-23 This Financial System Stability Assessment on the Democratic Republic of the Congo highlights that the Congolese financial sector has recovered from the crisis of 2009 but is at a crossroads Although reforms have been initiated the system remains shallow highly dollarized and characterized by balance sheet fragilities The authorities have announced a de dollarization process however greater progress on reforms to strengthen the financial system is needed to support financial deepening and economic growth The team s analysis suggests that the financial system remains vulnerable Resilience to shocks is undermined by the lack of risk based supervision lax regulation and weak enforcement of existing regulations low profitability and an excessive reliance on sight deposits Steps are also needed to improve the capacity for micro and macroprudential supervision The implementation of risk based supervision for individual banks is a critical prerequisite for effective crisis prevention Assessments of bank specific and systemic soundness are severely handicapped by weak supervisory data and other information gaps There are significant weaknesses in accounting and auditing practices and even if indicators suggest high capitalization levels a more detailed analysis suggests banks are under provisioned partly owing to lax definitions of nonperforming loans and provisioning rules

The Routledge Handbook of Field Work Education in Social Work Rajendra Baikady, Sajid S. M., Varoshini Nadesan, M. Rezaul Islam, 2022-04-28 This Handbook provides an authoritative account of international fieldwork education in social work It presents an overview of advances in research in social work field education through in depth analyses and global case studies Key features Discusses critical issues in teaching social

work and curriculum development health care social work stimulated learning field education policies needs challenges and solutions in fieldwork education reflexivity training creativity and partnership resilience enhancement integrated and holistic education for social workers student experience practice education and ethical responsibility of social work field instructors Covers social work field education across geographical regions Asia and the Pacific North and South America Australia and Oceania Europe and major themes and trends from several countries U S A Canada Australia China Hong Kong Sweden Aotearoa New Zealand England Ukraine Spain Estonia Italy Ireland Slovenia Poland Romania Greece Norway Turkey and the Czech Republic Brings together international comparative perspectives on fieldwork education in social work from leading experts and social work educators This Handbook will be an essential resource for scholars and researchers of social work development studies social anthropology sociology and education It will also be useful to educators and practitioners of social work in global institutions of higher studies as well as civil society organisations

Preventing Money Laundering and Terrorist Financing, 2009 Money laundering and terrorist financing are serious crimes that affect not only those persons directly involved but the economy as a whole According to international standards every bank has the obligation to know its customers and to report suspicious transactions Although these obligations sound straightforward they have proved challenging to implement What information precisely has to be gathered How should it be recorded If and when does one have to file a suspicious transaction report It is here that a supervisor can play a crucial role in helping supervised institutions first in understanding the full extent of the obligations of Customer Due Diligence and Suspicious Transaction Reports STR and second in ensuring that those obligations are not just words on paper but are applied in practice Effective supervision is key to the success of a country's AML CFT system In this regard field work in both developed and developing countries has shown an overall low compliance in the area of supervision of banks and other financial institutions supervisory compliance is indeed generally lower than the average level of compliance with all Financial Action Task Force recommendations As a result by providing examples of good practices this book aims to help countries better conform to international standards In this regard this handbook is specifically designed for bank supervisors

Coastal, Estuarial and Harbour Engineer's Reference Book Michael B Abbott, W. Alan Price, 1993-11-11 A major new reference book bringing together wide ranging expert guidance on coastal engineering including harbours and estuaries It covers both traditional engineering topics and the fast developing areas of mathematical modelling and computer simulation
