The Full Severity of Compassion Chana Kronfeld, 2015-12-09 Yehuda Amichai 1924-2000 was the foremost Israeli poet of the twentieth century and an internationally influential literary figure whose poetry has been translated into some 40 languages Hitherto no

comprehensive literary study of Amichai's poetry has appeared in English. This long-awaited book seeks to fill the gap. Widely considered one of the greatest poets of our time and the most important Jewish poet since Paul Celan, Amichai is beloved by readers the world over. Beneath the carefully crafted and accessible surface of Amichai's poetry lies a profound complex and often revolutionary poetic vision that deliberately disrupts traditional literary boundaries and distinctions. Chana Kronfeld focuses on the stylistic implications of Amichai's poetic philosophy and on what she describes as his acerbic critique of ideology. She rescues Amichai's poetry from complacent appropriations, showing in the process how his work obliges us to rethink major issues in literary studies, including metaphor, intertextuality, translation, and the politics of poetic form. In spotlighting his deeply egalitarian outlook, this book makes the experimental, iconoclastic Amichai newly compelling.

Just Below South Jessica Adams, Michael P. Bibler, Cécile Accilien, 2007. Just Below South is the first book to examine the U.S. South and the Caribbean as a regional interculture shaped by performance as a space defined not so much by a shared set of geographical boundaries or by a single common culture as by the weave of performances and identities moving across and throughout it. By offering fresh ways for thinking about region, language, and performance, the volume helps to reimagine the possibilities for American Studies. It advances beyond current analyses of historical or literary commonalities between the South and the Caribbean to explore startling and significant connections between a range of performances, including Trinidadian carnival, Civil War reenactments, the Martinican dance form kalenda, dramatic adaptations of *Uncle Tom's Cabin*, rituals of spirit possession, the teaching of Haitian Kreyòl, the translation of Louisiana Creole, and the imaginative travels of southern and Caribbean writers. While generating textual conversations among scholars of Francophone, Anglophone, and Hispanophone literature and culture, and forging innovative ties between cultural studies, performance studies, linguistics, literary analysis, and studies of the African diaspora, these essays raise provocative new questions about race, ethnicity, gender, class, and nationality.

Foreign Words Susan Bernofsky, 2005-09-01. A new perspective on the principal developments in translation practice and theory in Germany during the Age of Goethe, with emphasis on the work of Goethe, Herder, and Kleist as translators. The turn of the nineteenth century was a particularly fertile period in the history of translation theory and practice. With an unprecedented number of works being carefully translated and scrutinized, this era saw a definite shift in the dominant mode of translation. Many translators began attempting for the first time to communicate the formal characteristics, linguistic features, and cultural contexts of the original text while minimizing the paraphrasing that distorted most eighteenth-century translations. As soon as these new rules became the norm, authorial

translators defined not by virtue of being authors in their own right but by the liberties they took in their translations emerged to challenge them altering translated texts in such a way as to bring them into line with the artistic and thematic concerns displayed in the translators own original work In the process authorial translators implicitly declared translation an art form and explicitly incorporated it into their theoretical programs for the poetic arts Foreign Words provides a detailed account of translation practice and theory throughout the eighteenth and early nineteenth centuries linking the work of actual translators to the theories of translation articulated by Goethe Wilhelm von Humboldt and above all Friedrich Schleiermacher Employing a variety of critical approaches author Susan Bernofsky discusses in depth the work of Kleist Hlderlin and Goethe whose virtuoso translations raise issues that serve to delineate a theory of translation that has relevance at the turn of the twenty first century as well Combining a broad historical approach with individual readings of the work of several different translators Foreign Words paints a full picture of translation during the Age of Goethe and provides all scholars of translation theory with an important new perspective

Constructing a Sociology of Translation Michaela Wolf,Alexandra Fukari,2007-10-25 The view of translation as a socially regulated activity has opened up a broad field of research in the last few years This volume deals with central questions of the new domain and aims to contribute to the conceptualisation of a general sociology of translation Interdisciplinary in approach it discusses the role of major representatives of sociology like Pierre Bourdieu Bruno Latour Bernard Lahire Anthony Giddens or Niklas Luhmann in establishing a theoretical framework for a sociology of translation

Drawing on methodologies from sociology and integrating them into translation studies the book questions some of the established categories in this discipline and calls for a redefinition of long assumed principles The contributions show the social involvement of translation in various fields and focus especially on the translator's position in an emerging sociology of translation Bourdieu's influence in conceptualising this new sub discipline methodological questions and a sociologically oriented meta discussion of translation studies

Translation and Minority Lawrence Venuti, 2016-04-29 The premise of this volume is a question What can the concept of minority bring to the practice and study of translation Minority is understood here to mean a cultural or political position that is subordinate whether the social context that so defines it is local national or global This position is occupied by languages and literatures that lack prestige or authority the non standard and the non canonical what is not spoken or read much by a hegemonic culture Yet minorities also include the nations and social groups that are affiliated with these languages and literatures the politically weak or underrepresented the colonized and the disenfranchised the exploited and the stigmatized Translation today is itself a minor use of language a lesser art an invisible craft that commands less cultural capital and fewer legal privileges than original composition Yet the focus in this collection is not on what translators worldwide have in common but on the distinctive forms that translating takes when it is done by or on behalf of minorities The articles in this volume present a variety of case studies that illuminate the linguistic and cultural problems posed by such translating as well as the economic and political agendas it has served Together these pieces show that the concept of minority is worth exploring because it inspires innovation in translation practice and research Minor cultures are coincident with new translation strategies new translation theories and new syntheses of the diverse methodologies that constitute the discipline of translation studies

Virginia Woolf and the Migrations of Language Emily Dalgarno, 2011-10-06 Virginia Woolf's rich and imaginative use of language was partly a result of her keen interest in foreign literatures and languages mainly Greek and French but also Russian German and Italian As a translator she naturally addressed herself both to contemporary standards of translation within the university but also to readers like herself In *Three Guineas* she ranged herself among German scholars who used *Antigone* to critique European politics of the 1930s Orlando outwits the censors with a strategy that focuses on Proust's untranslatable word *The Waves* and *The Years* show her looking ahead to the problems of postcolonial society where translation crosses borders In this in depth study of Woolf and European languages and literatures Emily Dalgarno opens up a rewarding new way of reading her prose

Universality and Translation Gavin Arnall, Katie Chenoweth, 2025-01-07 Within contemporary theory the concepts of translation and universality have frequently been associated with different and even opposed philosophical and political projects watchwords of either domination or liberation the erasure of difference or the defense of difference The universalizing drives of capitalism colonialism and other systems of oppression have precipitated widespread suspicion of any appeal to universality This has led some in turn to champion the very notion of universality as antithetical to these systems of oppression Similarly recent scholarship has begun to grapple with the fundamental role of translation not only in forging inclusive democratic politics but also by contrast in violence including imperial expansion and global war The present volume advocates neither for nor against translation or universality as such Instead it attends to their insurmountable ambiguity and equivocity the tensions and contradictions that are internal to both concepts and that exist between them Indeed the wager of this volume is that translation universality and their relationship name irreducible yet overlapping sites of struggle for a diverse array of struggles on the Left Drawing from multiple intellectual traditions and orientations with a special emphasis on deconstruction and Marxism this volume both reveals and participates in a subterranean current of thought committed to theorizing the dynamic plural and ultimately inextricable relationship between translation and universality Its contributors approach this problem in ways that challenge and unsettle dominant trends within translation studies and critical and postcolonial theory thereby opening new lines of inquiry within and beyond these fields Contributors Ben Conisbee Baer Barbara Cassin Souleymane Bachir Diagne Cate Reilly Peter Thomas Gavin Walker Naomi Waltham Smith Gary Wilder
