## **Situating Feminism Vol 2 From Thought To Action:**

*Situating Feminism* Sondra Farganis, 1994-06-07 Feminist theory has undergone continuous evolution since its recognized establishment in 1963. Sondra Farganis's insightful volume revisits feminist philosophy's turbulent beginnings and explores the myriad political and social factors influencing its development during the past three decades. The author also considers the interaction between feminism and the greater women's movement, discussing not only the commonalities but the differences among women of various cultures and experiences. Finally, she recounts four of the most controversial women-centered court cases of recent years, identifying elements of feminist theory and how they affected or were affected by the social and political context in which they occurred. Inspiring new directions in critical thought and theoretical advancement, *Situating Feminism* will prove an essential resource for students and professionals in the areas of women's and culture studies, political science, social work, communication, and psychology. Sondra Farganis does not shy away from rigorous arguments or moral issues dealing directly with the relationship of postmodernism and feminism and the concerns that the former undermines the latter. She capably moves among writers like Berger and Luckman, Freire, Habermas, and Butler. Ultimately, the strength of this book is its ability to present a wide range of feminist political and social theories in a coherent fashion while demonstrating its application to actual real-life situations.

Affilia: Sondra Farganis has written a concise study on the situation of feminist thought in relation to contemporary social controversies. She analyzes the Nussbaum domestic violence and victimization, Baby M motherhood and surrogacy, Sears employment and affirmative action, and Hill-Thomas race and sexual harassment cases in a broad theoretical context. Farganis outlines major themes and conflicts within feminist thought, illustrating how these played out in the resolution of the cases.

*Inclusion as Social Justice: Theory and Practice in African Higher Education* discusses the extent to which education enables equitable social access for diverse student populations in the context of historical sidelining of indigenous knowledge systems and epistemic injustice of colonial epistemologies in Africa. The goal is to theoretically unpack the social differentials and micro inequities that practically disempower diverse students in African higher education. To this end, the book features aspects of diversity such as gender, rurality, refugee status, and disability in general, with hearing and visual impairment as prime illustrations. It is argued that despite the ethically defensible and socially just policy and structural interventions for transforming higher education meant to redress the legacy of colonial injustices, urban universities present epistemological equity challenges for students from rural communities. Similarly, the opaque fate of students displaced from their home countries and currently studying in universities in host countries is analyzed. The book illustrates the access case for gender and disability in higher education using empirical studies and examples from Tanzania, Kenya, Ethiopia, Zimbabwe, and South Africa. Challenges facing students in higher education in these countries and the strategies the students devise to succeed in the institutions are analyzed.
