Rural Lifestyles, Community Well-being and Social Change: Lessons from Country Australia for Global Citizens Angela T. Ragusa, 2014-01-08 In our increasingly global world individuals are highly mobile and interconnected Politics policies and technologies foster interconnection amongst and within countries as individuals relocate from one place to another One key issue facing developed and developing countries is urban overcrowding In Australia urban density is one factor prompting institutions and individuals to embrace rural revival as a possible solution to urban congestion and rural decline In the past decade rural Australia has received heightened publicity and interest as a lifestyle destination encouraged by national decentralization policies to alleviate urban overcrowding particularly the metropolises Melbourne and Sydney regional councils marketing initiatives and international refugee relocation Rural communities struggle in contrast with urban counterparts for several often complex reasons The realities of rural life are frequently marginalized while marketing campaigns evoke stereotypical imagery of idyllic lifestyles and bucolic pastures to sell dreams of country bliss to fatigued urbanites This edited e book is a collection of articles that explores rural realities of country life in Australia for global audiences interested in rurality health and well being By transcending disciplinary specific boundaries this multi disciplinary book not only presents contemporary challenges but also equips readers with evidence based knowledge to improve resilience in communities and individuals facing key issues such as aging depression disability environmental degradation limited service delivery and social isolation Utilizing a variety of social science research methods each chapter will enhance readers insights about rural amenities geography identity culture health and governance which impact wellbeing and lifestyle satisfaction Collectively this book exposes readers to ideas from a dynamic range of experts in the humanities social and natural sciences to encourage a holistic approach to developing solutions for a complex social world The content of this volume will interest a wide audience of graduates and undergraduates researchers professional practitioners and policymakers involved with non profit and government organizations and interested community members

Depression and Narrative Hilary Clark, 2008-10-09 *Depression and Narrative* examines stories of depression in the context of recent scholarship on illness and narrative which up to this point has largely focused on physical illness and disability Contributors from a number of disciplinary perspectives address these narrative accounts of depression by both sufferers and those who treat them as they appear in memoirs diaries

novels poems oral interviews fact sheets blogs films and television shows Together they explore the stories we tell about depression its contested causes its gendering the transformations in identity that it entails and the problems it presents for communication associated as it is with stigma and shame Unlike certain physical illnesses such as cancer depression is stigmatized sometimes as a nonproblem the sufferer should snap out of it and sometimes as the slippery slope to madness Thus depression narratives have their work cut out for them This book highlights the work these stories do including bringing meaning to sufferers explaining depression justifying therapies and treatments and reducing the burden of shame accounting for a suffering that is in the end unaccountable

Psychiatry, Mental Institutions, and the Mad in

Apartheid South Africa Tiffany Fawn Jones, 2012 This book is an examination of South African mental institutions and policy from 1939 1994 It examines how racial gender and sexual discrimination affected practitioners views and practices and also reveals the role that patients and international events played in shaping mental health policy

Living Outside Mental Illness Larry Davidson, 2003-08 An essential volume for improving understanding of the recovery process for people diagnosed with schizophrenia Schizophrenia is widely considered the most severe and disabling of the mental illnesses Yet recent research has demonstrated that many people afflicted with the disorder are able to recover to a significant degree Living Outside Mental Illness demonstrates the importance of listening to what people diagnosed with schizophrenia themselves have to say about their struggle and shows the dramatic effect this approach can have on clinical practice and social policy It presents an in depth investigation based on a phenomenological perspective of experiences of illness and recovery as illuminated by compelling first person descriptions This volume forcefully makes the case for the utility of qualitative methods in improving our understanding of the reasons for the success or failure of mental health services The research has important clinical and policy implications and will be of key interest to those in psychology and the helping professions as well as to people in recovery and their families

Pride in the Projects Nancy L. Deutsch, 2008-07-12 Teens in America's inner cities grow up and construct identities amidst a landscape of relationships and violence support and discrimination games and gangs In such contexts local environments such as after school programs may help youth to mediate between social stereotypes and daily experience or provide space for them to consider themselves as contributing members of a community Based on four years of field work with both the adolescent members and staff of an inner city youth organization in a large Midwestern city Pride in the Projects examines the construction of identity as it occurs within this local context emphasizing the relationships within which identities are formed Drawing on research in psychology sociology education and race and gender studies the volume highlights the inadequacies in current identity development theories expanding our understanding of the lives of urban teens and the ways in which interpersonal connections serve as powerful contexts for self construction The adolescents stories illuminate how they find ways to discover who they are and who they would like to be in positive and healthy ways in the face of very real obstacles The book closes with implications for practice alerting scholars educators practitioners and concerned citizens of the positive developmental possibilities inherent in youth settings when we pay attention to the voices of youth

Women and Depression Michelle N. LaFrance, 2009-01-13 This book critically examines the ways in which women negotiate and resist hegemonic discourses of femininity in their struggle to recover from depression and be well

Living with Brain Injury J.

Eric Stewart, 2014 When Nancy was in her late twenties she began having blinding headaches tunnel vision and dizziness which led to the discovery of an abnormality on her brain stem Complications during surgery caused serious brain damage resulting in partial paralysis of the left side of her body and memory and cognitive problems Although she was constantly evaluated by her doctors Nancy's own questions and her distress got little attention in the hospital Later despite excellent job performance post injury her physical impairments were regarded as an embarrassment to the perfect and beautiful corporate image of her employer Many conversations about brain injury are deficit focused those with disabilities are typically spoken about by others as being a problem about which something must be done In *Living with Brain Injury* J Eric Stewart takes a new approach offering narratives which highlight those with brain injury as agents of recovery and change in their own lives Stewart draws on in depth interviews with ten women with acquired brain injuries to offer an evocative multi voiced account of the women's strategies for resisting marginalization and of their process of making sense of new relationships to self to family and friends to work and to community Bridging psychology disability studies and medical sociology *Living with Brain Injury* showcases how and on what terms the women come to re author identity community and meaning post injury

 Exploring Practical Wisdom and the Virtues Ferdinand Tablan **Feminism and a Vital Politics of Depression and
 Recovery** Simone Fullagar, Wendy O'Brien, Adele Pavlidis, 2019-08-13 Drawing upon insights from feminist new materialism
 the book traces the complex material discursive processes through which women s recovery from depression is enacted
 within a gendered biopolitics Within the biomedical assemblage that connects mental health policy service provision research
 and everyday life the gendered context of recovery remains little understood despite the recurrence and pervasiveness of
 depression Rather than reducing experience to discrete biological psychological or sociological categories feminist thinking
 moves with the biopsychosocialities implicated in both distress and lively modes of becoming well Using a post qualitative
 approach the book creatively re presents how women do recovery within and beyond the normalising imperatives of
 biomedical and psychotherapeutic practices By pursuing the affective movement of self through depression this inquiry goes
 beyond individualised models to explore the enactment of multiple self world relations Reconfiguring depression and
 recovery as bodymind matters opens up a relational ontology concerned with the entanglement of gender inequities and
 mental ill health **The Maternal Experience** Margo Lowy, 2020-11-29 The Maternal Experience explores the powerful
 and dynamic nature of maternal ambivalence and disrupts the conventional narrative of the mother s lived experience by
 arguing that encounters with feelings of hatred are both universal and have the capacity to stimulate and enrich her
 maternal love The book draws on the author s personal mothering experiences those of other women and examples from film
 to inspire new introspection about the everyday maternal experience Lowy takes a psychosocial approach to weave thinking
 from selected psychoanalytic and contemporary accounts together with personal stories to explore how maternal
 ambivalence operates and how mothering is sourced in psychic struggles between loving and hating feelings in an
 atmosphere that is rife with social and personal expectations and prohibitions By reworking the experience of maternal
 ambivalence the book secures an understanding of the mother s feelings of hatred as a catalyst for her love and allows these
 maligned and taboo emotions to be named and reframed into acceptable and transformative feelings Brought alive by
 examples from film and first hand experience this book is fascinating reading for academics and students of psychology

 counselling Handbook of International Feminisms Alexandra Rutherford, Rose Capdevila, Vindhya Undurti, Ingrid
 Palmay, 2011-08-23 The goal of Handbook of International Perspectives on Feminism is to present the histories status and

contours of feminist research and practice in their respective regional and or national contexts The editors have invited researchers who are doing this work to present their perspectives on women culture and rights with the objective to illuminate the diverse forms that feminist psychological work takes around the world and connect these forms with the unique positions and concerns of women in these regions What does feminist psychology look like in Japan In South Africa In Sri Lanka In Canada In Brazil How did it come to look this way How do psychologists in these countries or regions each with unique political economic and cultural histories engage in feminist work in the societies in which they live How do they employ the tools of psychology broadly defined to do this work and what tensions and challenges have they faced

Abolishing the Concept of Mental Illness Richard Hallam, 2018-03-20 In Abolishing the Concept of Mental Illness Rethinking the Nature of Our Woes Richard Hallam takes aim at the very concept of mental illness and explores new ways of thinking about and responding to psychological distress Though the concept of mental illness has infiltrated everyday language academic research and public policy making there is very little evidence that woes are caused by somatic dysfunction This timely book rebuts arguments put forward to defend the illness myth and traces historical sources of the mind body debate The author presents a balanced overview of the past utility and current disadvantages of employing a medical illness metaphor against the backdrop of current UK clinical practice Insightful and easy to read Abolishing the Concept of Mental Illness will appeal to all professionals and academics working in clinical psychology as well as psychotherapists and other mental health practitioners
