Sixty Days to Peace Walter Scott Dillard,1982      Sixty Days to Peace Walter Scott Dillard,1982      **Sixty Days to Peace** Walter Scott Dillard,2002-12-01 Historical events are never identical but the study of them does provide a context within which to formulate meaningful questions to order and guide decision making And that is the purpose of our Military History Series not to provide blueprints for future action but rather historical benchmarks to assist in forming creative responses to the ever changing global challenges to US interests and security An especially informative historical period took place during the last days of the US military withdrawal from Vietnam On 23 January 1973 the President announced to the Nation that the United States and North Vietnam had reached agreement in Paris on ending the war and restoring peace in Vietnam The accord provided for a Four Party Joint Military Commission composed of military representatives from North Vietnam South Vietnam the Viet Cong and the United States to implement certain provisions of the accord This National Defense University military history records the experiences of the US soldiers on the US Delegation during the 60 day life of the Commission The author Lieutenant Colonel Walter S Dillard USA was the official historian of the US Delegation and is thus uniquely qualified to write of the events marking the last days of our military presence in Vietnam The author s analyses of these events should be instructive for those who would better understand the enigmas of US relations with the developing world for our military who would better understand the functions of and constraints on such delegations and for students of statecraft who would better understand the interplay between treaty making and desired outcomes John S Pustay Lieutenant General United States Army President National Defense University      **SIXTY DAYS TO PEACE.** ,1982      **Imperialism and Expansionism in American History** Chris J. *Raid Too Far* James H. Willbanks, 2014-02-02 In February 1971 the Army of the Republic of Vietnam ARVN launched an incursion into Laos in an attempt to cut the Ho Chi Minh Trail and destroy North Vietnamese Army NVA base areas along the border This movement would be the first real test of Vietnamization Pres Richard Nixon s program to turn the fighting over to South Vietnamese forces as US combat troops were withdrawn US ground forces would support the operation from within South Vietnam and would pave the way to the border for ARVN troops and US air support would cover the South Vietnamese forces once they entered Laos but the South Vietnamese forces would attack on the ground alone The operation dubbed Lam Son 719 went very well for the first few days but as movement became bogged down the NVA rushed reinforcements to the battle and the ARVN forces found themselves under heavy attack US airpower wreaked havoc on the North Vietnamese troops but the South Vietnamese never regained momentum and ultimately began to withdraw back into their own country under heavy enemy pressure In this first in depth study of this operation military historian and Vietnam veteran James H Willbanks traces the details of battle analyzes what went wrong and suggests insights into the difficulties currently being incurred with the training of indigenous forces

The War after the War Johannes Kadura, 2016-02-01 In *The War after the War* Johannes Kadura offers a fresh interpretation of American strategy in the wake of the cease fire that began in Vietnam on January 28 1973 The U S exit from Vietnam continues to be important in discussions of present day U S foreign policy so it is crucial that it be interpreted correctly In challenging the prevailing version of the history of the events Kadura provides interesting correctives to the different accounts including the ones of the key actors themselves President Richard Nixon and Secretary of State Henry Kissinger foremost among them In so doing Kadura aims to forge a synthesis between orthodox and revisionist interpretations of this important period Kadura finds that the strategy employed by Nixon and Kissinger centered on the concepts of equilibrium strategy and insurance policy That approach allowed them to follow a twofold strategy of making a major effort to uphold South Vietnam while at the same time maintaining a fallback strategy of downplaying the overall significance of Vietnam Whether they won or lost on their primary bet to secure South Vietnam Nixon and Kissinger expected to come through the crisis in a viable strategic position

To Hanoi and Back Wayne Thompson,2014-07-15 After nearly eighteen months of the largely unsuccessful bombing campaign called Operation Rolling Thunder the US Air Force began to look for ways to overcome technological geographical and political challenges in North Vietnam and use limited air power more effectively In 1972 the two Linebacker campaigns joined with other air operations to make a dramatic although temporary difference While they unleashed powerful B 52 area bombers the campaigns also demonstrated the efficacy of newly developed laser guided precision bombs Drawing upon twenty years of research in classified records Wayne Thompson integrates operational political and personal detail to present a full history of the Air Force role in the war against North Vietnam He provides an unprecedented view of the motivations and actions of the people involved from aircrews to generals to politicians in every phase of the air campaigns He outlines for instance the political reasons for President Johnson s reluctance to use B 52 bombers against major North Vietnamese targets He also examines how the media influenced US policy and how US prisoners became the war s most celebrated heroes The war in Southeast Asia ultimately pushed the Air Force toward adopting more flexible tactics and incorporating increasingly sophisticated weapons that would shape later conflicts
