**Landscape of Fear** Tony Magistrale, 1988 One of the very first books to

take Stephen King seriously Landscape of Fear originally published in 1988 reveals the source of King's horror in the sociopolitical anxieties of the post Vietnam post Watergate era In this groundbreaking study Tony Magistrale shows how King's fiction transcends the escapism typical of its genre to tap into our deepest cultural fears that the government we have installed through the democratic process is not only corrupt but actively pursuing our destruction that our technologies have progressed to the point at which the individual has now become expendable and that our fundamental social institutions school marriage workplace and the church have beneath their veneers of respectability evolved into perverse manifestations of narcissism greed and violence Tracing King's moralist vision to the likes of Twain Hawthorne and Melville Landscape of Fear establishes the place of this popular writer within the grand tradition of American literature Like his literary forbears King gives us characters that have the capacity to make ethical choices in an imperfect often evil world Yet he inscribes that conflict within unmistakably modern settings From the industrial nightmare of Graveyard Shift to the breakdown of the domestic sphere in The Shining from the techno horrors of The Stand to the religious fanaticism and adolescent cruelty depicted in Carrie Magistrale charts the contours of King's fictional landscape in its first decade

[Welcome to Parkview](#) Brian Paone, 2010-07-15 Welcome To Parkview reads the rusted sign along the outskirts of town The tarnishing letters seem inviting yet foreboding and mysterious Is passing through such a wise idea The final destination may be more dangerous than the trip itself an unapologetic journey through a town that thrives on sex violence and the macabre A place built on deceit and temptation A spot forever cursed with soulless transients unforgiving lovers and merciless vampires who hide in the shadows beyond The facade is peeled back just enough for you to see past its surface There's but a glimpse of the darkness that put Parkview on the map Then you realize that nothing here is a coincidence In Parkview it may be best to keep buried secrets quiet In Parkview even truth can be a deception

**Gothic Things** Jeffrey Andrew Weinstock, 2023-07-04 SHORTLISTED THE ALLAN LLOYD SMITH PRIZE FOR BEST MONOGRAPH Offering an innovative approach to the Gothic Gothic Things Dark Enchantment and Anthropocene Anxiety breaks ground

with a new materialist analysis of the genre highlighting the ways that since its origins in the eighteenth century the Gothic has been intensely focused on ominous matter and thing power In chapters attending to gothic bodies spaces books and other objects Gothic Things argues that the Gothic has always been about what happens when objects assume mysterious animacy or potency and when human beings are reduced to the status of just one thing among many more powerful others In exploring how the Gothic insistently decenters the human Jeffrey Andrew Weinstock reveals human beings to be enmeshed in networks of human and nonhuman forces mostly outside of their control Gothic Things thus resituates the Gothic as the uncanny doppelgänger of twenty first century critical and cultural theory lurking just beneath the surface and sometimes explicitly surfacing as it haunts considerations of how human beings interact with objects and their environment In these pages the Gothic offers a dark reflection of the contemporary nonhuman turn expressing a twenty first century structure of feeling undergirded by anxiety over the fate of the human spectrality monstrosity and apocalypse Substituting horror for hope the Gothic Weinstock explains has been a philosophical meditation on human relations to the nonhuman since its inception raising significant questions about how we can counter anthropocentric thought in our quest to live more harmoniously with the world around us
