Skeletons in Our Closet Clark Spencer Larsen, 2020-09-01 The dead tell no tales Or do they In this fascinating book Clark Spencer Larsen shows that the dead can speak to us about their lives and ours through the remarkable insights of bioarchaeology which reconstructs the lives and lifestyles of past peoples based on the study of skeletal remains The human skeleton is an amazing storehouse of information It records the circumstances of our growth and development as reflected in factors such as disease stress diet nutrition climate activity and injury Bioarchaeologists by combining the methods of forensic science and archaeology along with the resources of many other disciplines including chemistry geology physics and biology read the information stored in bones to understand what life was really like for our human ancestors They are unearthing some surprises For instance the shift from hunting and gathering to agriculture approximately 10 000 years ago has commonly been seen as a major advancement in the course of human evolution However as Larsen provocatively shows this change may not have been so positive Compared to their hunter gatherer ancestors many early farmers suffered more disease had to work harder and endured a poorer quality of life due to poorer diets and more marginal living conditions Moreover the past 10 000 years have seen dramatic changes in the human physiognomy as a result of alterations in our diet and lifestyle Some modern health problems including obesity and chronic disease may also have their roots in these earlier changes Drawing on vivid accounts from his own experiences as a bioarchaeologist Larsen guides us through some of the key developments in recent human evolution including the adoption of agriculture the arrival of Europeans in the Americas and the biological consequences of this contact and the settlement of the American West in the eighteenth and nineteenth centuries Written in a lively and engaging manner this book is for anyone interested in what the dead have to tell us about the living

Skeletons in the Closet Aysan Sev'er, Jan E. Trost, 2011-09-28 Family conflict has traditionally been studied by researchers who are at a safe intellectual distance from the families under their study In *Skeletons in the Closet* and in line with feminist research methodologies the hierarchical distance between researcher and subject is broken down All of the

contributors to this volume are academics and all are closely related to the families they write about *Skeletons in the Closet* consists of ten essays about unresolved or unresolvable family conflicts The contributors start from the assumption that families whether legal marriage families common law marriage families single parent families multiple generation families same sex partnerships or adoptive families are cradles of intense emotion That intensity they argue may translate into conflict competition domination abuse exploitation or even hate This book explores those areas most likely to grip family members in unresolved interpersonal strife as well as the strategies people use to solve the issues and the shame and isolation that conflict brings in societies that normatively expect family life to be one of joy mutual sharing and caring This first hand narration of family conflict by social scholars has much to contribute to sociological studies of the family both methodologically and theoretically The introduction and conclusion place family conflict within sociological and social psychological theories and methods

*Men of Character: Abraham* Gene A. Getz,1996-01-15 Out of a sinful and pagan world God called Abraham to leave everything and everyone he knew and travel to a land he had never seen Abraham stepped out in faith yet he hesitated and delayed Throughout his long life it was only when Abraham full yielded himself to the will of God that God could fulfill His will through Abraham *From a Child's Mind; to an Adult's Heart* Thop Brown,2008-04-28 From a Child s mind to an Adult s Heart is written about my life as I saw it as a child and the adults that made an impact on my life I would like to dedicate this book to all the adults in our community who molded me into the adult I am today I m a living witness that one must be careful in the way we act or the things that we say around a child because children tend to mimic adults We must be careful of the conversations we have when we think children arent listening Those conversations can come back to either honor or embarrass us when the child becomes an adult This book is a prime example of how God allows situations and circumstances to be embedded in some childrens minds and hearts for future references As I look at this world today and how some children have to worry about where their next meal is coming from or whether their mothers are coming home I realize how blessed I was to be born in the era of the 50s where the majority of the adults genuinely cared about the well being of the children This era inspired me to write this book in the hope that it would jog the memory of others causing them to recall how special they felt when adults took the time out of they busy schedules to play ball or any game with them Also some may have forgotten what it was like to be a child without worries I hope that this book brings back memories of how safe and secure some children felt knowing that a set of adult eyes were always watching out for their safety Today children deserve to feel the same type of safety and security that we felt as children This is their God given right Let us give our children the happiness and security that they deserve Out of much love and great respect for the people in my community I have changed the names city streets and gender of some of the characters in my book to protect their identities In the same spirit I deemed

it necessary to inform my readers so that they would not be deceived On one hand I know that my readers will find laughter and shed many tears On the other hand the love and devotion that the adults had for each other and us will shine through
