10 years more and more linguistic and psycholinguistic research has been devoted to the study of discourse and written texts. Much of this research deals with the markers that underline the connections and the breaks between clauses and sentences plus the use of these markers by adults and children in the production and comprehension of oral and written material. In this volume major observations and theoretical views from both sides of the Atlantic are brought together to appeal to a wide range of linguists, psychologists and speech therapists. The volume presents contributions from researchers interested specifically in adult language and from others concerned with developmental aspects of language. Some contributors deal primarily with production whereas others concentrate on comprehension. Some direct their attention to oral discourse while others focus on written texts. To preserve overall coherence however the contributors were given the following recommendations. With regard to the level of linguistic analysis the emphasis should be on the clause level more particularly on the relationships between clauses. Special emphasis should also be placed on linguistic markers e.g. connectives, markers of segmentation, punctuation. An overview of a given field of research should be offered and current research should be put into perspective. For contributors in the developmental field attention should be paid to the fact that an account of the acquisition of some language functions throughout childhood should be included only if general principles of interclause relations that might be masked by the exclusive examination of adult evidence could be derived from it.

**The Art of the Artistic Director** Christopher Haydon, 2019-02-21 How do you decide what stories an audience should hear How do you make your theatre stand out in a crowded and intensely competitive marketplace How do you make your building a home for artistic risk and innovation while ensuring the books are balanced It is the artistic director s job to answer all these questions and many more Yet despite the central role that these people play in the modern theatre industry very little has been written about what they do or how they do it In *The Art of the Artistic Director* Christopher Haydon former artistic director of the Gate Theatre London s most relentlessly ambitious theatre *Time Out* compiles a fascinating set of interviews that get to the heart of what it is to occupy this unique role He speaks to twenty of the most prominent and successful artistic directors in the US and UK including Oskar Eustis Public Theater New York Diane Paulus American Repertory Theater Boston Rufus Norris National Theatre London and Vicky Featherstone Royal Court Theatre London uncovering the essential skills and abilities that go into making an accomplished artistic director The only book of its kind available *The Art of the Artistic Director* includes a foreword by Michael Grandage former artistic director of the Sheffield Crucible and the Donmar Warehouse in London

**F.S.P.** Arthur Gwynn-Browne, 2017-07-24 I am in the F S P F S P stands for Field Security Personnel That is the authorized version So begins this remarkable account of six months service with the British Expeditionary Force in France up to and including the terrible retreat to and evacuation from the beaches of Dunkirk at the end of May 1940 Absorbing affecting thrilling often funny this book is very different from other war memoirs It was the first on the ground account of Dunkirk to be published in 1942 and lacks nothing in the immediacy of its telling The narrative is gripping and the style is revolutionary immersing the readers in the emotional and psychological

turbulence of the author's experience and making them feel they are living through it themselves. The result is a stunningly authentic and involving record of one of the defining episodes of twentieth century British history. Editor N. H. Reeve provides a lucid critical and biographical Afterword and includes two extracts from an unfinished work by Gwynn Browne in which his idiosyncratic stream of consciousness style is used to describe the London Blitz and the mood of the civilian population in wartime. *Fabulous Females and Peerless Pirs*, 2004. A distinctive aspect of Hindu devotion is the veneration of a human guru who is not only an exemplar and a teacher but is often worshipped as an embodiment of the divine. In the past these gurus have almost always been men. Today however female gurus are a noticeable presence especially in the United States.
