Students' Guide to Colleges Jordan Goldman, Colleen Buyers, 2005-08-02 College guides are a must for any teenager trying to choose the right school Unfortunately most guidebooks are vague boring tomes written by administrators and journalists instead of the real experts the college students that actually go there Students Guide to Colleges is different Entirely student written and edited this invaluable resource cuts through the cant with comprehensive listings of the vital statistics and requirements for America's top 100 schools accompanied by three totally honest fresh fun to read descriptions penned by attending undergrads from different walks of life Want to know how big classes really are How rigorous the academics get Or how greek or granola chill or up tight homogenous or diverse gay or straight a campus really is Lively irreverent and insightful the Students Guide to Colleges is the only guidebook that offers multiple perspectives on each school and tells it like it is so that college applicants can make the best choice when deciding where they want to spend their college years More than 30 000 students surveyed Preface by Chuck Hughes former senior dean of admissions at Harvard

Bringing in a New Era in Character Education William Damon,2013-09-01 The educational system in the United States has ended its failed experiment with separating the intellectual from the moral Schools from K 12 to colleges and universities are increasingly paying attention to students values and character But how can we ensure this new era in character education makes the right kind of difference to young people What obstacles in our current educational system must we overcome and what new opportunities can we create This anthology offers unique perspectives on what is needed to make character education an effective lasting part of our educational agenda Each chapter points out the directions that character education must take today and offers strategies essential for progress The expert contributors reveal why relativism has threatened the moral development of young people in our time and how we can pass core values down to new generations of students in ways that will elevate their conduct and their life goals And they show the critical importance of reestablishing student morality and character as targets of higher education's central mission Perhaps most important they clarify the necessity of authority in any moral education endeavor and show how it is a powerful force for developing personal freedom and building character
