conducted by the author Pierce defines the life of perhaps the most influential animator of the twentieth century As well as contributing to classics such as Snow White and the Seven Dwarfs and Pinocchio from the late 1940s to the early 1970s Kimball established a highly graphic idiosyncratic approach to animation alongside the studio's more recognizable storybook realism In effect Ward Kimball became the only animator to run his own in studio production team largely outside of Walt Disney's direction In the 1950s and 1960s he emerged as a director and producer of his own animation while remaining inside Disney's studio Through Kimball the studio developed a series of nonfiction animation programs in the 1950s that members of Congress pointed to as paving the way for NASA The studio also allowed Kimball's work to abandon some ties to conventional animation looking instead to high art and graphic design as a means of creating new animated forms which resulted in films that received multiple Academy Award nominations and two awards Throughout his life Kimball was a maverick animator an artist who helped define the field of American animation and a visionary who sought to expand the influence of animated films
