National Library of Medicine (U.S.)

Social And Historical Foundations Of Modern Medicine:

Social and Historical Foundations of Modern Medicine Iago Galdston, 1981 **Medicine in Society** Andrew Wear, 1992-02-27 The social history of medicine over the last fifteen years has redrawn the boundaries of medical history. Specialised papers and monographs have contributed to our knowledge of how medicine has affected society and how society has shaped medicine. This book synthesises through a series of essays some of the most significant findings of this new social history of medicine. The period covered ranges from ancient Greece to the present time. While coverage is not exhaustive, the reader is able to trace how medicine in the West developed from an unlicensed open market place with many different types of practitioners in the classical period to the nineteenth and twentieth century professionalised medicine of State influence of hospitals, public health medicine and scientific medicine. The book also covers innovative topics such as patient doctor relationships, the history of the asylum and the demographic background to the history of medicine. *The Body of Compassion* Joel Shuman, 2003-03-12 In *The Body of Compassion* Joel Shuman presents an important new theological treatment of contemporary bioethics, weaving together personal experience, a critical treatise on bioethics and an exploration of a Christian theological alternative. The author first draws the reader toward a consideration of the current state of his grandfather, a hardworking man with deep attachments to family and land who died a solitary death unaccompanied by loved ones in the unfamiliar and sterile world of a hospital. Troubled by the way his grandfather died, Shuman takes the reader along as he explores how modern medicine has distanced itself from dealing with people as living beings beyond their immediate physicality. He examines how various approaches to bioethics over the past twenty years have tried to remedy this problem by prescribing certain standards for treatment and how each of these ultimately has fallen short due to the lack of a teleological concern for the body, i.e. a concern for what the body is actually for in a larger context. From this point, Shuman deftly moves to a discussion of the centrality of the body to Christianity, focusing on how baptism, participation in the liturgy and the partaking of the Eucharist all serve to unite Christians as one in the body of Christ. For Christians, the author argues, the body does not just belong to the individual but rather is one with the community of the Church. With this in mind, Shuman proposes a new kind of bioethics for Christians where care for the body of Christ becomes the model of how we should care for and receive care from each other. This fresh and thought-provoking book is sure to be of interest to ethicists, medical professionals and everyone who is troubled by the conflicts between science and religion. *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), 1973 First multi-year cumulation covers six years 1965-70. *Bibliography of the History of Medicine*, 1984 *Riding the Diabetes Rollercoaster* Helen Cooper, Robert Geyer, 2018-04-19 This work includes a foreword by Ian Botham OBE, former England Cricket Captain and father of a daughter with Type 1 Diabetes. This groundbreaking book reveals how science and medicine have traditionally tried to make diabetes simple and orderly despite its obvious messiness and complexity. The result has left patients, carers and health professionals

confused and frustrated Using complexity science Riding the Diabetes Rollercoaster provides a radical new approach to understanding and managing diabetes that embraces its uncertainties and challenges From a complexity perspective the diabetes rollercoaster is normal and is a mirror of life itself Learning to embrace and use the tools of complexity can completely alter your approach to diabetes Despite huge amounts of research funding and effort diabetes like many other chronic illnesses refuses to go away or even to get any easier to deal with Health professionals have grown increasingly frustrated with their inability to develop radical improvements patients and carers struggle to comply with complicated self management regimes We believe that Complexity offers a way forward Learning to balance rather than control diabetes is the ultimate goal of diabetes management Helen Cooper and Robert Geyer in the Preface *The Early Sociology of Health and Illness* Kevin White,2001

Sex and Gender H. T. Wilson,2023-12-28 This book shows how different a focus on gender is from one on sex whether in scholarly thinking professional activity or public policy making It indicates how incorrect contemporary renditions of the difference between them is provides an explanation of this tension and difference based on the critical analysis of key institutions and shows the serious consequences of this confusion for women in particular across a wide range of institutional processes and practices in North America and Western Europe This confusion out of the failure to understand adequately the historical origins of sex as a civil designation in a political economy and in state taxation and census concerns and the corollary determination of spokesmen for the emerging capitalist and industrial nation state to extirpate the last vestiges of gender given its tie to a pre industrial kinship system found in towns and local communities This is a forcefully written study which integrates material from a vast range of disciplines and professional practices It also seeks to integrate salient work in women s and feminist studies into a critique of key institutions and practices if advanced industrial societies it uses critical theory and makes this available to students and practitioners as well as scholars and academics

Complexity and Public Policy Robert Geyer,Samir Rihani,2012-09-10 This book provides a clear concise and readable introduction to complexity thinking its application to the social sciences and public policy and the relevance of some of its various tools to those fields of politics health the international realm development planning and terrorism The authors argue that the foundation for many of the current crises in these areas can be traced to the attempt by social scientists and policy makers to treat these systems and processes as fundamentally orderly predictable and controllable By providing an overview of complex systems a practical introduction to basic concepts and tools of these systems and examples for understanding and managing them in real life policy situations they provide an exciting new perspective for rethinking our basic approaches to the social sciences and for understanding and managing the increasingly interdependent world of public policy The book is vital reading for students and scholars of the social sciences and public policy and also policymakers and the policy actor audience

Revisiting Usog, Pasma, Kulam Michael L. Tan,2008 The author explains the social and cultural contexts of usig pasma kulam and other folk illnesses in the Philippines

A Companion to Nineteenth-Century Britain

Chris Williams, 2008-04-15 *A Companion to Nineteenth Century Britain* presents 33 essays by expert scholars on all the major aspects of the political, social, economic and cultural history of Britain during the late Georgian and Victorian eras. Truly British rather than English in scope. Pays attention to the experiences of women as well as of men. Illustrated with maps and charts. Includes guides to further reading. Survey of Social Science: Horticultural economic systems Frank Northen Magill, 1994. Bulletin of the Menninger Clinic Menninger Clinic, 1981. Chicorel Index to Mental Health Book Reviews Marietta Chicorel, 1986. A History of the Royal College of Physicians of London Sir George Norman Clark, Asa Briggs, 1964. Volume 4 examines the way in which the Royal College of Physicians has adapted to far-reaching changes in medical knowledge, social attitudes and the organization of health. At the same time it illuminates the history of the NHS and examines controversial public issues such as smoking. *The United States Catalog* Mary Burnham, Carol Hurd, 1928. *Books Out-of-print*, 1986. Argief-Jaarboek vir Suid-Afrikaanse Geskiedenis, 1990. Secularization and Syndicalization Catherine Smet, 1997. **Subject Guide to Books in Print**, 1984.
