Sociology and Statistics in Britain, 1833-1979 Plamena Panayotova, 2020-09-28 At the beginning of the twentieth century Britain stood at the forefront of science and statistics and had a long and respected tradition of social investigation and reform But it still did not yet have a science of society When in the early 1900s a small band of enthusiasts got together to address this situation the scene was set for a grand synthesis No such synthesis ever took place and instead British sociology has followed a resolutely non statistical path Sociology and Statistics in Britain 1833 1979 investigates how this curious situation came about and attempts to explain it from an historical perspective It uncovers the prevalence of a deep and instinctive distrust within British sociology of the statistical methodology and mindset resulting in a mix of quiet indifference and active hostility which has persisted from its beginnings right up to the present day While British sociology has thrived institutionally since the post war expansion of higher education this book asks whether or not it is poorer for having failed to recognise that statistics provides the foundations for the scientific study of society and for having missed opportunities to build upon those foundations Ultimately this important revealing and timely book is about British sociology's refusal to come to grips with a modern scientific way of thinking which no discipline that aspires to an effective study of society can afford to ignore

Literature, Cinema and Politics 1930-1945 Lara Feigel, 2010-07-16 This book tells the story of a generation of writers who were passionately engaged with politics and with cinema exploring the rise and fall of a distinct tradition of cinematic literature Dismayed by the rise of fascism in Europe and by the widening gulf separating the classes at home these writers turned to cinema as a popular and hard hitting art form Lara Feigel crosses boundaries between high modernism and social realism and between high and popular culture bringing together Virginia Woolf with W H Auden Elizabeth Bowen with John Sommerfield Sergei Eisenstein with Gracie Fields The book ends in the

Second World War an era when the bombs and searchlights rendered everyday life cinematic Feigel interrogates the genres she maps drawing on cultural theories from the 1920s onwards to investigate the nature of the cinematic and the literary While it was not possible directly to transfer the techniques of the screen to the page any more than it was possible to go over to the working classes the attempts nonetheless reveal a fascinating intersection of the visual and the verbal the political and the aesthetic In reading between the frames of an unexplored literary tradition this book redefines 1930s and wartime literature and politics
