Songs of Glory Linda Seidel, 1981 **Songs of Glory** Linda Seidel, 1981 The Experience of Crusading Marcus Graham Bull, Norman Housley, Peter W. Edbury, Jonathan P. Phillips, 2003-06-23 The study of the crusades is one of the most thriving areas of medieval history This collection of seventeen essays by leading researchers in the field reflects the best of contemporary scholarship The subjects handled are remarkably wide ranging focusing on the theory and practice of crusading and the contributions which were made by the military orders Chronologically the essays range from the church s approach towards warfare in the pre crusade era to the way in which the First Crusade has been depicted in post war fiction Together with its companion volume *The Experience of Crusading Volume 2 Defining the Crusader Kingdom* edited by Peter Edbury and Jonathan Phillips this collection has been published to celebrate the 65th birthday of Jonathan Riley Smith the leading British historian of the crusades The volume includes an appreciation of his work on the crusades and on the military orders *High Romanesque Sculpture in the Duchy of Aquitaine, C. 1090-1140* Anat Tcherikover, 1997 This study traces a regional school of Romanesque sculpture that formed against the background of the powerful feudal principality of Aquitaine The school s combination of political prominence economic prosperity and keen response to ecclesiastical reform made it one of the most innovative of its time **Songs of Glory. The Romanesque Façades of Aquitaine. By Linda Seidel. (Chicago: University of Chicago Press. 1981.)** Ilene H. Forsyth, 1984 Depicting the Holy War Elizabeth Lapina, 2025-04-29 *Depicting the Holy War* examines the impact that crusades in the Middle East had on societies in western Europe through the analysis of a heretofore largely ignored type of source mural paintings In this book Elizabeth Lapina analyzes five programs of mural paintings from the early twelfth to the late thirteenth century in what is today France and England in Hardham Berz la Ville Ponc sur le Loir Cressac and Tour Ferrande These images provide rare sources of information about attitudes toward crusades in locations that have produced next to no written evidence about the subject such as rural parishes Four of the murals are found in ecclesiastical structures themselves sacred and made more so as the location of the celebration of mass This sacralization of violence Lapina argues led to changing attitudes toward the enemy and depictions of battles as holy wars between the forces of good and evil The mural paintings come from England Normandy Aquitaine Provence and Burgundy areas that supplied both numerous crusaders and ideas related to crusades Taken together the murals show a trend toward an acceptance and celebration of increasingly varied types of violence across the period This pathbreaking study employs new methods to open a window onto perceptions and representations of crusades in strata of society about which we know relatively little It will be indispensable to historians and art historians who study crusades warfare and violence in medieval England and France **The Crusades and Visual Culture** Laura J Whatley, 2017-07-05 The crusades whether realized or merely planned had a profound impact on medieval and early modern societies Numerous scholars in the fields of history and literature have explored the influence of crusading ideas values

aspirations and anxieties in both the Latin States and Europe However there have been few studies dedicated to investigating how the crusading movement influenced and was reflected in medieval visual cultures Written by scholars from around the world working in the domains of art history and history the essays in this volume examine the ways in which ideas of crusading were realized in a broad variety of media including manuscripts cartography sculpture mural paintings and metalwork Arguing implicitly for recognition of the conceptual frameworks of crusades that transcend traditional disciplinary boundaries the volume explores the pervasive influence and diverse expression of the crusading movement from the twelfth through the fifteenth centuries

The Craft of

Thought Mary Jean Carruthers, 2000-10-26 *The Craft of Thought* first published in 1998 is a companion to Mary Carruthers' earlier study of memory in medieval culture *The Book of Memory*. This more recent volume examines medieval monastic meditation as a discipline for making thoughts and discusses its influence on literature, art, and architecture. In a process akin to today's creative thinking or cognition, this discipline recognises the essential roles of imagination and emotion in meditation. Deriving examples from a variety of late antique and medieval sources with excursions into modern architectural memorials, this study emphasises meditation as an act of literary composition or invention, the techniques of which notably involved both words and making mental pictures for thinking and composing. **In Praise of Song** Cynthia

Robinson, 2021-10-01 This volume offers a reconstruction of the court culture of the taifa kings of al Andalus 11th century A.D. using both visual and textual evidence. A focus of particular attention is the court of the Ban H d at Zaragoza and that dynasty's palace the Aljafer a. Principle written sources are not histories and chronicles but the untranslated poetic anthologies of al imyar and al Fat ibn Kh q n. The first part of the book addresses taifa visual and literary languages with especial emphasis on connections between the literary and visual aspects of taifa aesthetics. The sections on the Aljafer a's ornamental program will be of particular interest not only to historians of Islamic art but to students of all visual traditions with strong non figural components. In addition, Part One also proposes that taifa court culture has been considered as a culture of courtly love, and this argument also forms the point of departure for Part Two. The second part of the study uses luxury objects of Islamic and Limousine production as a point of departure for a detailed comparison of the thematics of taifa poetry in classical Arabic on the themes of courtly love and pleasures with those of the better known Proven al tradition.

of Christ and the Medieval West Colin Morris, 2005-03-17 What was the impact of the tomb of Christ in Jerusalem on the history of western Europe? Colin Morris shows that the Holy Sepulchre had a vital influence on pilgrimage, the Crusades, the cult of the Cross, and art and architecture. artefacts focusing on the Middle Ages as a period of high achievement of this synthesis It explores aspects of medieval church and cathedral architecture in relation to the contemporary metaphysics and theology which articulated an integrated theocentric culture architecture and art Three modes of attention comprehension instruction and contemplation informed the builders intuition and intention The book s central premise reasons that love for God was the critical force in the creation of vernacular church architecture using a selection of medieval writings to provide a unique critique of the genius of architecture and art during this period An interdisciplinary study between architecture theology and philosophy it will appeal to academics and researchers in these fields **Sculptural Seeing** Christopher R. Lakey, 2018-01-01 Demonstrating the influence of optical science on medieval relief sculpture this groundbreaking book reveals that the concepts that informed the codification of perspective by Renaissance painters were already being employed by sculptors centuries earlier

A. Dale, 1997 Against a historical backdrop of relic theft and propaganda campaigns waged by two cities vying for patriarchal authority in medieval Venetia Thomas Dale shows how Romanesque mural painting shaped sacred space and institutional identity His focus is on the late twelfth century murals in the crypt of Aquileia Cathedral The crypt which contains the relics of Aquileia s founding bishop Saint Hermagoras has a historical significance rooted in a legend identifying the saint as a direct disciple of Saint Mark the Evangelist On this basis the Carolingians promoted the city s status as patriarchal see of Venetia a claim that prompted Venice to steal Mark s relics from Alexandria Egypt and appropriate Aquileia s history This book the first English language study of the crypt explores how the paintings complement the relics of Hermagoras in their distinct devotional and political roles Hermagoras s intercessory power is activated by his orant image displayed over the central aisle within a larger

hierarchy of apostles martyrs and bishops The surrounding hagiographic cycle justifies in legalistic fashion Aquileia's patriarchal title and the consecration of the city as locus sanctus of Venetia by the blood of its martyrs The iconic images in the eastern lunettes present the Virgin's compassio as a pictorial model for the vicarious experience of Christ's Passion Finally a fictive curtain over the socle presents allegories of spiritual warfare in the form of exempla from crusades pilgrimage and the epic poem *Psychomachia* which Dale analyzes as a gloss on the main program [Open Access Mickey Abel](#),2011-12-08 [Open Access](#) Contextualizing the Archivolted Portals of Northern Spain and Western France within the Theology and Politics of Entry explores the history development and accrued connotations of a distinctive entry configuration comprised of a set of concentrically stepped archivolt surrounding a deliberate tympanum free portal opening These archivolted portals adorned many of the small rural ecclesiastical structures dotting the countryside of western France and northern Spain in the twelfth century Seeking to re contextualize this configuration within monastic meditational practices this book argues that the ornamented archivolt was likely composed following medieval prescriptions for the rhetorical ornamentation of poetry and employed the techniques of mnemonic recollection and imaginative visualization Read in this light it becomes clear that the architectural form underlying these semi circular configurations served to open the possibilities for meaning by making the sculptural imagery physically and philosophically accessible to both the monastic community and the lay parishioner Pointing to an Iberian heritage in which both light and space had long been manipulated in the conveyance of theological and political ideologies Abel suggests that the portal's architectural form grew out of a physical and social matrix characterized by pilgrimage crusade and processions where the elements of motion integral to the Quadrivium sciences of Math Geometry Astronomy and Music were enhanced by a proximity to and cultural interaction with the Islamic courts of Spain It was however within the politics of the Peace of God movement with its emphasis on relic processions that often encompassed all the parishes of the monastic domain that the archivolted portal with its elevated porch like space are shown to be the most effective
