Soo Ling Finds A Way:

Soo Ling Finds a Way June Behrens, 1973 Su-Ling's Treasure , Japan and American Children's Books Sybille Jagusch, 2021-06-18 For generations children's books provided American readers with their first impressions of Japan. Seemingly authoritative and full of fascinating details about daily life in a distant land, these publications often presented a mixture of facts, stereotypes, and complete fabrications. This volume takes readers on a journey through nearly 200 years of American children's books depicting Japanese culture, starting with the illustrated journal of a boy who accompanied Commodore Matthew Perry on his historic voyage in the 1850s. Along the way, it traces the important role that representations of Japan played in the evolution of children's literature, including the early works of Edward Stratemeyer who went on to create such iconic characters as Nancy Drew. It also considers how American children's books about Japan have gradually become more realistic, with more Japanese American authors entering the field and with texts grappling with such serious subjects as internment camps and the bombing of Hiroshima and Nagasaki. Drawing from the Library of Congress's massive collection, Sybille A. Jagusch presents long passages from many different types of Japanese-themed children's books and periodicals, including travelogues, histories, rare picture books, folktale collections, and boys' adventure stories, to give readers a fascinating look at these striking texts. Published by Rutgers University Press in association with the Library of Congress.

The Irish Retribution Bruce Cooke, 2021-04-13 Tully Sanderson can report events all over the globe with no problems. He can ferret out stories in the most secretive of places and emerge unscathed from the most dangerous worlds. He can lure almost any woman into his bed and hold his liquor till everyone else is under the table. The one thing he doesn't seem to be able to do, however, is to overcome the estrangement between him and his daughter, Carrie. Maybe it's time he told her the truth about how her mother died, but he might just lose her forever if she finds out that he's the one who pulled the trigger.

In Hartford, Connecticut, in the late 1940s, a set of twins is parted at birth, not by accident. Nat Cartwright goes home with his parents, a schoolteacher and an insurance salesman, while his twin brother begins his days as Fletcher Davenport, son of a millionaire and his society wife. During the 1950s and 1960s, the two brothers grow up apart, following similar paths that take them in different directions. Nat leaves college at the University of Connecticut to serve in Vietnam, then finishes school, earns his MBA, and becomes a successful currency dealer. Fletcher meanwhile graduates from Yale University with a bachelor's and a law degree, going on to distinguish himself as a criminal defense lawyer. At various times in their lives, both men are confronted with challenges and obstacles, tragedy and betrayal, loss and hardship, before they both decide to run for governor, unaware they are brothers.
