Soul Body And Survival Essays On The Metaphysics Of Human Persons:

Soul, Body, and Survival Kevin Corcoran, 2018-08-06 How are soul and body related to one another Are human beings immaterial souls or complex physical organisms Will we survive the death of our bodies Does only the dualist view allow the possibility of life after death This collection brings together cutting edge research on the metaphysics of human nature and the possibility of post mortem survival Kevin Corcoran s collection Soul Body and Survival includes chapters from those who embrace traditional soul body dualism those who assert person body identity and those who propose entirely new views that fall outside the categories of monism and dualism The first book to connect the metaphysics of persons with the belief in life after death thus intersecting with theological as well as philosophical inquiry it blurs the divide between metaphysics and the philosophy of mind

Personal Identity and Resurrection Georg Gasser, 2016-09-17 What happens to us when we die According to Christian faith we will rise again bodily from the dead This claim raises a series of philosophical and theological conundrums is it rational to hope for life after death in bodily form Will it truly be we who are raised again or will it be post mortem duplicates of us How can personal identity be secured What is God s role in resurrection and everlasting life In response to these conundrums this book presents the first ever joint work of leading philosophers and theologians on life after death This is an impressive demonstration of interdisciplinary cooperation between philosophy and theology Various models are offered which depict what resurrection into an incorruptible post mortem body might look like Therefore this book is an indispensable resource for anyone interested in the doctrine of bodily resurrection be they philosophers theologians scholars in religious studies or believers interested in examining their faith

Explorations in Neuroscience, Psychology and Religion Kevin S. Seybold, 2016-04-15 In the 1990s great strides were taken in clarifying how the brain is involved in behaviors that in the past had seldom been studied by neuroscientists or psychologists This book explores the progress begun during that momentous decade in understanding why we behave think and feel the way we do especially in those areas that interface with religion What is happening in the brain when we have a religious experience Is the soul a product of the mind which is in turn a product of the brain If so what are the implications for the Christian belief in an afterlife If God created humans for the purpose of having a relationship with him should we expect to find that our spirituality is a biologically evolved human trait What effect might a disease such as Alzheimer s have on a person s spirituality and relationship with God Neuroscience and psychology are providing information relevant to each of these questions and many Christians are worried that their religious beliefs are being threatened by this research Kevin Seybold attempts to put their concerns to rest by presenting some of the scientific findings coming from these disciplines in a way that is understandable yet non threatening to Christian belief

Eternal Life and Human Happiness in Heaven Christopher M. Brown, 2021-08-22 Eternal Life and Human Happiness in Heaven treats four apparent problems concerning eternal life in order to clarify our thinking about perfect human happiness in heaven The teachings of St Thomas Aquinas provide the basis

for solutions to these four problems about eternal life insofar as his teachings call into question common contemporary theological or philosophical presuppositions about God human persons and the nature of heaven itself Indeed these Thomistic solutions often require us to think very differently from our contemporaries But thinking differently with St Thomas is worth it for the Thomistic solutions to these apparent problems are more satisfying on both theological and philosophical grounds than a number of contemporary theological and philosophical approaches Christopher Brown deploys his argument in four sections The first section lays out in three chapters four apparent problems concerning eternal life Is heaven a mystical or social reality Is heaven other worldly or this worldly Is heaven static or dynamic Won t human persons eventually get bored in heaven Brown then explains how and why some important contemporary Christian theologians and philosophers resolve these problems and notes serious problems with each of these contemporary solutions The second section explains in five chapters St Thomas significant distinction between the essential reward of the saints in heaven and the accidental reward and treats in detail his account of that in which the essential reward consists namely the beatific vision and the proper accidents of the vision delight joy and charity The third section treats in five chapters St Thomas views on the multifaceted accidental reward in heaven where the accidental reward includes among other things glorified human embodiment participation in the communion of the saints and the joy experienced by the saints in sensing God s new heavens and new earth Finally section four argues in four chapters that St Thomas views allow for powerful solutions to the four apparent problems about eternal life examined in the first section These solutions are powerful because not only are they consistent with authoritative Catholic Christian Tradition but they do not raise any of the significant theological or philosophical problems that attend the contemporary theological and philosophical solutions examined in the first section

The Soul of Theological Anthropology Joshua R. Farris, 2016-11-25 Recent research in the philosophy of religion anthropology and philosophy of

mind has prompted the need for a more integrated comprehensive and systematic theology of human nature This project constructively develops a theological accounting of human persons by drawing from a Cartesian as a term of art model of anthropology which is motivated by a long tradition As was common among patristics medievals and Reformed Scholastics Farris draws from philosophical resources to articulate Christian doctrine as he approaches theological anthropology Exploring a substance dualism model the author highlights relevant theological texts and passages of Scripture arguing that this model accounts for doctrinal essentials concerning theological anthropology While Farris is not explicitly interested in thorough critique of materialist ontology he notes some of the significant problems associated with it Rather the present project is an attempt to revitalize the resources found in Cartesianism by responding to some common worries associated with it

In Search of the Soul Joel B. Green, Stuart L. Palmer, Kevin Corcoran, 2005-01-01 Editors Joel B Green and Stuart L Palmer present differing evangelical perspectives on the body and soul mind and brain problem Stewart Goetz on substance dualism William Hasker on emergent dualism Nancey Murphy on nonreductive physicalism and Kevin Corcoran on the constitution view of persons

Christian Physicalism? , Joshua R. Farris, R. Keith Loftin, 2017-12-26 On the heels of the advance since the twentieth century of wholly physicalist accounts of human persons the influence of materialist ontology is increasingly evident in Christian theologizing To date the contemporary literature has tended to focus on anthropological issues e g whether the traditional soul body distinction is viable with occasional articles treating physicalist accounts of such doctrines as the Incarnation and Resurrection of Jesus cropping up as well Interestingly the literature to date both for and against this influence is dominated by philosophers The present volume is a collection of philosophers and theologians who advance several novel criticisms of this growing trend toward physicalism in Christian theology The present collection definitively shows that Christian physicalism has some significant philosophical and theological problems No doubt all philosophical anthropologies have their challenges but the present volume shows that Christian physicalism is most likely not an adequate accounting for essential theological topics within Christian theism Christians then should consider alternative anthropologies

oxfordbibliographies.com *The Ashgate Research Companion to Theological Anthropology* Joshua R. Farris, Charles Taliaferro, 2016-03-09 In recent scholarship there is an emerging interest in the integration of philosophy and theology. Philosophers and theologians address the relationship between body and soul and its implications for theological anthropology. In so doing, philosophers and theologians interact with cognitive science, biological evolution, psychology, and sociology. Reflecting these exciting new developments, *The Ashgate Research Companion to Theological Anthropology* is a resource for philosophers and theologians, students and scholars interested in the constructive critical exploration of a theology of human persons. Throughout this collection of newly authored contributions, key themes are addressed: human agency and grace, the soul, sin and salvation, Christology, glory, feminism, the theology of human nature, and other major themes in theological anthropology in historic as well as contemporary contexts. **Debating Christian Theism** J. P. Moreland, Khalidoun A. Sweis, Chad V. Meister, 2013-08-01 This volume offers groundbreaking dialogue by many of the most prominent scholars in the field in a definitive treatment of central issues in theism and Christian faith. **The Blackwell Companion to Substance Dualism** Jonathan J. Loose, Angus J. L. Menzies, J. P. Moreland, 2018-03-13 *THE BLACKWELL COMPANION TO SUBSTANCE DUALISM* This is a terrific volume by a long way the best currently available anthology on dualism and a worthy addition to Blackwell's distinguished series of Companions. Tim Crane, Central European University. A major contribution to an ongoing transformation of analytic philosophy of mind. Howard Robinson, Central European University. This high quality volume offers a rich variety of perspectives on substance dualism and will be a valuable resource for students and researchers in philosophy of mind and philosophy of religion. John Cottingham, University of Reading. Thorough and fair, the quality of the essays is high. This will certainly be the book on substance dualism. Michael Tye, University of Texas at Austin. Substance dualism has for some time been dismissed as an archaic and defeated position in philosophy of mind, but in recent years the topic has experienced a resurgence of scholarly interest and has been restored to contemporary prominence by a growing minority of philosophers prepared to interrogate the core principles upon which past objections and misunderstandings rest. As the first book of its kind to bring together a collection of contemporary writing from top proponents and critics in a pro contra format, *The Blackwell Companion to Substance Dualism* captures this ongoing dialogue and sets the stage for rigorous and lively discourse around dualist and physicalist accounts of human persons in philosophy. Chapters explore emergent Thomistic, Cartesian, and other forms of substance dualism broadly conceived in dialogue with leading varieties of physicalism, including animalism, non-reductive physicalism, and constitution theory. Loose, Menzies, and Moreland pair essays from dualist advocates with astute criticism from physicalist opponents and vice versa, highlighting points of contrast for readers in thematic sections while showcasing today's leading minds engaged in direct debate. Taken together, essays provide nuanced paths of introduction for students and capture the imagination of professional philosophers looking to expand their understanding of the subject. Skillfully curated and in touch with contemporary science.

as well as analytic theology the Blackwell Companion to Substance Dualism strikes a measured balanced between advocacy and criticism and is a first rate resource for researchers scholars and students of philosophy theology and neuroscience

Theological Anthropology: A Guide for the Perplexed Marc Cortez,2010-03-21 A guide to the most challenging issues that face anyone studying theological anthropology *The Oxford Handbook of Philosophy of Mind* Brian McLaughlin,Ansgar Beckermann,Sven Walter,2009-01-15 This is the most authoritative and comprehensive guide ever published to the state of the art in philosophy of mind a flourishing area of research An outstanding team of contributors offer 45 new critical surveys of a wide range of topics *Death, Resurrection, and Transporter Beams* Silas N.

Langley,2014-08-22 What has Star Trek to do with eternal life It provides the perfect metaphor for understanding the main Christian views concerning what happens to us when we die In this book Silas Langley uses the Star Trek transporter beam to explain five main Christian views about life after death Each of us lives with some personal answer to the universal question of what comes after death Even among Christians views differ as to what exactly happens when we die Meanwhile the modern secular world increasingly challenges the possibility of life after death How can we live again after we die if much of science and philosophy suggests that all that we are dies with our bodies This book shows how each of these views responds to these challenges Death Resurrection and Transporter Beams sorts out these disagreements and their biblical grounding These differences matter since they bear on who we are and how we are to live our lives Readers will come away with a clearer understanding of their own beliefs on this topic and with tools to enter into dialogue with people whose beliefs differ **Unborn Bodies** Margaret D. Kamitsuka,2023 The afterlife is often a concern during fragile moments of

reproductive loss The historical church ignored the death of unborn beings and the precarity of pregnancy focusing more on the soul than the body A new approach to eschatology is needed that upholds emerging unborn life and the pregnant believer's moral agency *The Cosmic Breath* Amos Yong,2012-05-10 Recent thinking in the interfaith dialogue and in the theology science dialogue have taken a pneumatological turn The Cosmic Breath explores this pneumatological theology as unfolded in the Christian Buddhist dialogue alongside critical interaction with the theology and science conversation As an attempt in comparative and constructive Christian philosophical theology its central thesis is that a pneumatological approach to Buddhist traditions in further dialogue with modern science generates new philosophical resources that invigorate Christian thinking about the natural world and humanity's place in it The result is a transformation of the Buddhist Christian dialogue from insights generated in the theology and science interface and a contribution to the religion and science dialogue from a comparative theological and philosophical perspective **Embodied Souls, Ensouled Bodies** Marc Cortez,2011-10-20 The

book explores the relationship between Christology and theological anthropology through the lens provided by the theology of Karl Barth and the mind body discussion in contemporary philosophy of mind It thus comprises two major sections The first develops an understanding of Karl Barth's theological anthropology focusing on three major facets 1 the centrality of

Jesus Christ for any real understanding of human persons 2 the resources that such a christologically determined view of human nature has for engaging in interdisciplinary discourse and 3 the ontological implications of this approach for understanding the mind body relationship The second part draws on this theological foundation to consider the implications that Christological anthropology has for analyzing and assessing several prominent ways of explaining the mind body relationship Specifically it interacts with two broad categories of theories nonreductive forms of physicalism and holistic forms of dualism After providing a basic summary of each the book applies the insights gained from Barth s anthropology to ascertain the extent to which the two approaches may be considered christologically adequate **Aquinas's Ontology of**

the Material World Jeffrey E. Brower, 2014-06-26 What is the nature of the material world And how are its fundamental constituents to be described These questions are of central concern to contemporary philosophers and in their attempt to answer them they have begun reconsidering traditional views about metaphysical structure including the Aristotelian view that material objects are best described as hylomorphic compounds that is objects composed of both matter hyle and form morphe In this major new study Jeffrey E Brower presents and explains the hylomorphic conception of the material world developed by Thomas Aquinas the most influential Aristotelian of the Middle Ages According to Brower the key to understanding Aquinas s conception lies in his distinctive account of intrinsic change Beginning with a novel analysis of this account Brower systematically introduces all the elements of Aquinas s hylomorphism showing how they apply to material objects in general and human beings in particular The resulting picture not only sheds new light on Aquinas s ontology as a whole but provides a wholesale alternative to the standard contemporary accounts of material objects In addition to presenting and explaining Aquinas s views Brower seeks wherever possible to bring them into dialogue with the best recent literature on related topics Along the way he highlights the contribution that Aquinas s views make to a host of contemporary metaphysical debates including the nature of change composition material constitution the ontology of stuff vs things the proper analysis of ordinary objects the truthmakers for essential vs accidental predication and the metaphysics of property possession
