Understanding the Art of Sound Organization Leigh Landy, 2007-08-17 The first work to propose a comprehensive musicological framework to study sound based music a rapidly developing body of work that includes electroacoustic art music turntable composition and acoustic and digital sound installations The art of sound organization also known as electroacoustic music uses sounds not available to traditional music making including prerecorded synthesized and processed sounds The body of work of such sound based music which includes electroacoustic art music turntable composition computer games and acoustic and digital sound installations has developed more rapidly than its musicology Understanding the Art of Sound Organization proposes the first general foundational framework for the study of the art of sound organization defining terms discussing relevant forms of music categorizing works and setting sound based music in interdisciplinary contexts Leigh Landy's goal in this book is not only to create a theoretical framework but also to make the work more accessible to suggest a way to understand sound based music to give a listener what he terms something to hold on to for example by connecting elements in a work to everyday experience Landy considers the difficulties of categorizing works and discusses such types of works as sonic art and electroacoustic music pointing out where they overlap and how they are distinctive He proposes a sound based music

paradigm that transcends such traditional categories as art and pop music Landy defines patterns that suggest a general framework and places the studies of sound based music into interdisciplinary contexts from acoustics to semiotics proposing a holistic research approach that considers the interconnectedness of a given work s history theory technological aspects and social impact The author s ElectroAcoustic Resource Site EARS www.ears.dmu.ac.uk the architecture of which parallels this book s structure offers updated bibliographic resource abstracts and related information **Sound Worlds from the Body**

to the City Ariane Wilson,2019-03-13 This volume reveals the extent to which aural perception influences our spatial awareness Spanning various fields and practices from psychology to geography and from zoology to urban planning it covers a range of environments in which sounds contribute to forming our sense of space and place The contributions gathered here lead from the mother s womb through the habitats of insects and owls to the resonating bodies of buildings and the city to artistic endeavours that aim to consciously reveal the spatiality of sound In this progression the book demonstrates the profoundly constitutive role of hearing and listening at all stages of our biological and social development as well as the epistemological phenomenological and emotional importance of sound in relation to our construction of space As such it will appeal not only to architects town planners and artists but also to the growing community of scientists and scholars intrigued by sonic issues Differing from both quantitative acoustics and sound design its approach opens new perspectives on the sonic dimension and aural understanding of our environment by tracing analogies between a diversity of spaces formed when sound interacts with listening as a mode of attention **Indigenous Poetics in Canada** Neal McLeod,2014-05-16

Indigenous Poetics in Canada broadens the way in which Indigenous poetry is examined studied and discussed in Canada Breaking from the parameters of traditional English literature studies this volume embraces a wider sense of poetics including Indigenous oralities languages and understandings of place Featuring work by academics and poets the book examines four elements of Indigenous poetics First it explores the poetics of memory collective memory the persistence of Indigenous poetic consciousness and the relationships that enable the Indigenous storytelling process The book then explores the poetics of performance Indigenous poetics exist both in written form and in relation to an audience Third in an examination of the poetics of place and space the book considers contemporary Indigenous poetry and classical Indigenous narratives Finally in a section on the poetics of medicine contributors articulate the healing and restorative power of Indigenous poetry and narratives Performing Identity/performing Culture Greg Dimitriadis,2009 Performing Identity

Performing Culture Hip Hop as Text Pedagogy and Lived Practice is the first book length ethnography of young people and their uses of hip hop culture Originally published in 2001 this second edition is newly revised expanded and updated to reflect contemporary currents in hip hop culture and critical scholarship as well as the epochal social cultural and economic shifts of the last decade Drawing together historical work on hip hop and rap music as well as four years of research at a local community center Greg Dimitriadis argues here that contemporary youth are fashioning notions of self and community

outside of school in ways educators have largely ignored His studies are broad ranging how two teenagers constructed notions of a Southern tradition through their use of Southern rap artists like Eightball how young people constructed notions of history through viewing the film Panther a film they connected to hip hop culture more broadly and how young people dealt with the life and death of hip hop icon Tupac Shakur constructing resurrection myths that still resonate and circulate today

The Routledge Handbook of Sound Design Michael Filimowicz, 2024-10-22 The Routledge Handbook of Sound Design offers a comprehensive overview of the diverse contexts of creativity and research that characterize contemporary sound design practice Readers will find expansive coverage of sound design in relation to games VR globalization performance soundscape and feminism amongst other fields Half a century since its formal emergence this book considers sound design in a plethora of practical contexts including music film soundscape and sonification as well as the emerging theoretical and analytical approaches being used in scholarship on the subject The Routledge Handbook of Sound Design tracks how ideas and techniques have migrated from one field to the next as professionals expand the industry applications for their skills and knowledge and technologies produce new form factors for entertainment and information Collectively the chapters included in this volume illustrate the robustness and variety of contemporary sound design research and creativity making The Routledge Handbook of Sound Design essential reading for students teachers researchers and practitioners working on sound design in its many forms

Sound Curriculum Walter S. Gershon, 2017-06-26 Part of a growing group of works that addresses the burgeoning field of sound studies this book attends not only to theoretical and empirical examinations but also to methodological and philosophical considerations at the intersection of sound and education Gershon theoretically advances the rapidly expanding field of sound studies and simultaneously deepens conceptualizations and educational understandings across the fields of curriculum studies and foundations of education A feature of this work is the novel use of audio files aligned with the arguments within the book as well as the discussion and application of cutting edge qualitative research methods

Meanings of Music Participation C. Victor Fung, Lisa J. Lehmberg, 2022-08-26 This book uncovers the multifaceted nature of music participation through a collection of studies in a wide variety of musical contexts across the United States The contributors combine personal voices and vivid narratives with scholarship to present many potential meanings of music participation and lay out research based implications for lifelong music education Exploring music participation in choral and instrumental ensembles school music classes and community groups in person and virtual spaces among children young adults and older adults and for native born citizens and immigrants the 10 original studies in this volume present a diverse portrait of musical engagement The chapters draw out themes including enjoyment identity development learner autonomy social interaction motivation commitment and quality of life and draw connections between musical meanings and philosophical principles from both Western and Eastern traditions Linked by interludes that connect the empirical studies with philosophical interpretations this volume brings together multiple methodologies and perspectives

to consider the social cultural and psychological meanings of lifelong music participation It offers a valuable resource for scholars professionals and students working in school and community music or music education research as well as readers interested in general education social psychology lifelong learning and aging studies *Identity and Difference* Kathryn Woodward,1997-05-05 Book on identity Poetry of Reality Katherine Norman,2005-08-15 First published in 1998 Routledge is an imprint of Taylor Francis an informa company *Improvising Across Abilities* Thomas Ciufo,Abbey L. Dvorak,Kip Haaheim,Jennifer Hurst,Grace Shih-en Leu,Leaf Miller,Ray Mizumura-Pence,Nicola Oddy,Jesse Stewart,John Sullivan,Sherrie Tucker,Ellen Waterman,Ranita Wilks,2024-01-22 Improvising Across Abilities Pauline Oliveros and the Adaptive Use Musical Instrument AUMI brings together scholars musicians and family members of people with disabilities to collectively recount years of personal experiences research and perspectives on the societal and community impact of inclusive musical improvisation One of the lesser known projects of composer improviser and humanitarian Pauline Oliveros 1932 2016 the AUMI was designed as a liberating and affordable alternative to the constraints of instruments created only for normative bodies thus opening a doorway for people of all ages genders abilities races and socioeconomic backgrounds to access artistic practice with others More than a book about AUMI this book is an invitation to readers to use AUMI in their own communities This book which contains wisdom from many who have been affected by their work with the instrument and the people who use it is a representation of how music and extemporized performance have touched the lives and minds of scholars and families alike Not only has AUMI provided the opportunity to grow in listening to others who may speak differently or not at all but it has been used as an avenue for a diverse set of people to build friendships with others whom they may have never otherwise even glanced at in the street By providing a space for every person who comes across AUMI to perform listen improvise and collaborate the continuing development of this instrument contributes to a world in which every person is heard welcomed and celebrated Expanding the Horizon of Electroacoustic Music Analysis Simon Emmerson,Leigh Landy,2016-04-07 A state of the art overview of the analysis of electroacoustic music which includes discussions of a wide range of works **Listening Up, Writing Down, and Looking Beyond** Susan Gingell,Wendy Roy,2012-08-01 Listening Up Writing Down and Looking Beyond is an interdisciplinary collection that gathers the work of scholars and performance practitioners who together explore questions about the oral written and visual The book includes the voices of oral performance practitioners while the scholarship of many of the academic contributors is informed by their participation in oral storytelling whether as poets singers or visual artists Its contributions address the politics and ethics of the utterance and text textualizing orature and orality simulations of the oral the poetics of performance and reconstructions of the oral *Shades of White* Pamela Perry,2002-02-14 A comparative ethnography in two high schools one urban and one suburban that studies the differing notions of whiteness and race that predominate among students at each school

Silvestre Revueltas Roberto Kolb-Neuhaus,Roberto Kolb,2023 Silvestre Revueltas Sounds of a Political Passion shows

how Revueltas strongly inspired by the Mexican and Russian Revolutions sought ways to sound the voice of the commoners wandering the Mexican streets as well as that of gypsy miners in Spain Black women in the U S South and slaves in Cuba in colonial times

Attentional Engines William P. Seeley, 2020 Attentional Engines explores the potential of the growing field of cognitive sciences and aesthetics Along the way it introduces readers to the philosophy of art and evaluates what psychology and neuroscience can and cannot tell us about the nature and value of artworks Seeley utilizes a case study approach to explain how research in perceptual psychology and the neuroscience of attention can contribute to our everyday understanding of art

Sonic Design Alexander Refsum Jensenius, 2024-05-09 This open access book offers a historical context and an overview of the field s current artistic and scientific research Sonic design includes the construction and performance of acoustic instruments but also recording editing mixing and synthesizing sounds using analog and digital electronic devices This book explores sonic design from the perspectives of music theory music perception embodied cognition phenomenology soundscape studies acoustics new interfaces for musical expression sound and music computing and music information retrieval The chapters are selected contributions from an international seminar organized to celebrate the achievements of Professor Rolf Inge Godøy at the University of Oslo As a composer researcher teacher and supervisor Professor Godøy has been central in developing a holistic approach to sonic design from theory to practice This book offers a comprehensive overview of the field s current state making it essential reading for students practitioners and researchers across a wide range of disciplines

The Cambridge Companion to Women in Music since 1900 Laura Hamer, 2021-05-06 An overview of women s work in classical and popular music since 1900 as performers composers educators and music technologists

Recalling Recitation in the Americas Janet Neigh, 2017-01-01 Spoken word is one of the most popular styles of poetry in North America While its prevalence is often attributed to the form s strong ties to oral culture Recalling Recitation in the Americas reveals how poetry memorization and recitation curricula shaped by British Imperial policy influenced contemporary performance practices During the early twentieth century educators frequently used the recitation of canonical poems to instill proper speech and behaviour in classrooms in Canada the Caribbean and the United States Janet Neigh critically analyses three celebrated performance poets E Pauline Johnson Tekahionwake 1861 1913 Langston Hughes 1902 1967 and Louise Bennett 1919 2006 who refashioned recitation to cultivate linguistic diversity and to resist its disciplinary force Through an examination of the dialogues among their poetic projects Neigh illuminates how their complicated legacies as national icons obscure their similar approaches to resisting Anglicization Recalling Recitation in the Americas focuses on the unexplored relationship between education history and literary form and establishes the far reaching effects of poetry memorization and recitation on the development of modern performance poetry in North America
