S.I.O.P Peter Pringle, William Arkin, 1983-10 This is the first comprehensive look at the plan Single Integrated Operating Plan or S I O P the United States has had since 1960 to wage nuclear war on Russia **Bulletin of the Atomic Scientists** ,1984-11 **Bulletin of the Atomic Scientists** ,1984-11 [Air University Library Index to Military Periodicals](#) ,

Clausewitz in the Twenty-First Century Hew Strachan, Andreas Herberg-Rothe, 2007-09-13 Clausewitz's *On War* has at least until very recently been regarded as the most important work of theory on its subject But since the end of the Cold War in 1990 and even more since the 9 11 attacks on the United States in 2001 an increasing number of commentators have argued that *On War* has lost its analytical edge as a tool for understanding war They have argued that Clausewitz was concerned solely with inter state war and with properly defined armies and that the sorts of conflicts which he discussed are therefore part of a historical pattern which dominated Europe between 1648 the end of the Thirty Years War and 1990 itself Some have gone further and suggested that Clausewitz's best known aphorism that war is a continuation of policy by other means is not only irrelevant today but also inapplicable historically Clausewitz in the Twenty First Century reconsiders the principal themes in Clausewitz's writings from a contemporary perspective and finds in them much more inspiration and insight than these generalisations allow Embracing the perspectives of history philosophy and political science the book reconsiders both the text and its current implications Traditional interpretations of *On War* are put into fresh light neglected passages are re examined and new insights are derived from the conjunction between Clausewitz's text and today's challenges This book is a project of the Oxford Leverhulme Programme on the Changing Character of War [On the Eve of](#)

[the 21st Century](#) William Gay, T. A. Alekseeva, 1994 Presents a collection of essays by both Russian and American philosophers responding to the dissolution of the Soviet Union Included are a liberal feminist critique of political realism a view of Hobbes political philosophy and a view of the Marxian legacy and world security *Fraud, Famine and Fascism* Douglas Tottle, 1987 Argues that charges of a deliberate Soviet policy of genocide by famine directed against the Ukrainian nation in the early 1930s are based on inflated figures and fabricated evidence This campaign was initiated by extreme right wing forces in the USA and Nazi propagandists and has continued since the 1950s by Ukrainian emigre organizations Some writers have accused the Jews and Stalin's Jewish government of deliberately causing the famine Ch 9 pp 102 119 *Collaboration and Collusion* discusses Ukrainian nationalist involvement in pogroms and assistance to the Germans during the Holocaust particularly the faction led by Stepan Bandera and the Ukrainian Insurgent Army also describes how ex members of these groups and of Ukrainian Waffen SS units were enabled to enter the USA and Canada after the war [The Generals Have No Clothes](#) William M. them from bestselling author military expert and award winning journalist William M Arkin The first rule of perpetual war is to never stop a fact which former NBC News analyst William M Arkin knows better than anyone having served in the Army and having covered all of America s wars over the past three decades He has spent his career investigating how the military throws around the word war to justify everything from physical combat to today s globe straddling cyber and intelligence network In *The Generals Have No Clothes* Arkin traces how we got where we are bombing ten countries killing terrorists in dozens more all without Congressional approval or public knowledge Starting after the 9 11 attacks the government put forth a singular idea that perpetual war was the only way to keep the American people safe Arkin explains why President Obama failed to achieve his national security goal of ending war in Iraq and reducing our military engagements and shows how President Trump has been frustrated in his attempts to end conflict in Afghanistan and Syria He also reveals how COVID 19 is a watershed moment for the military where the country s civilian and public health needs clash with the demands of future wars against China and Russia North Korea and Iran Proposing bold solutions Arkin calls for a new era of civilian control over the military He also calls for a Global Security Index GSX the security equivalent to the Dow Jones Industrial Average which would measure the national and international events in real time to determine whether perpetual war is actually making the nation safer Arguing that the American people should be empowered by facts rather than spurred by fear *The Generals Have No Clothes* builds a damning case against the status quo Publishers Weekly and outlines how we can take control of the military before it s too late *Bracing for Armageddon* Dee Garrison,2006-03-30 This text presents a survey of the US government s civil defense plans from World War II It argues that the purpose of federal civil defense was to legitimize deterrence policy and the arms race through false assurances to the masses that they could survive nuclear war

Larkin, 2011-12-31 This work canvasses nuclear weapon abolition proposals placed on the table since 1945 and the obstacles and issues which a realistic program for abolition confronts today It has an ambitious purpose to show that nuclear abolition can and should be placed on the public agenda The author terms it interpretive in that it incorporates his commentaries never hiding his reasons and judgments It is neither just the facts nor all the facts It is an encyclopedia in the original meaning of a general course of instruction He identifies himself with all who pursue the problem posed by nuclear weapons systematically and with seriousness of purpose committed to self instruction In another sense he writes this work is a conversation with the Reader What is needed to abolish nuclear weapons His starting point is this As long as nuclear weapons are stockpiled and deployed there is risk of their use which would be catastrophic Abolition however is inconceivable in the absence of a

developed and articulated alternative to the nuclear status quo Even with that the politics of abolition bringing the governments of the nuclear weapon states to believe that abolition is in their interest is the sine qua non of achieving a world free of nuclear weapons Larkin s text is written for those whether practitioners or citizens interested in designing and bringing about denuclearization Abolition cannot be achieved by political elites in the absence of broad concurrent public support Governments career policy officials and legislators have chosen to assume responsibility for the public agenda They may be asked must be asked what they will do to bring about denuclearization
