Levi (intro), 1963 Persuasion after Rhetoric in the Eighteenth Century and Romanticism Yasmin Solomonescu, Stefan H. Uhlig, 2024-07-18 While the question of how rhetoric lost authority to modern philosophical and scientific inquiry has drawn much scrutiny we have paid less attention to how values that were once bound up with rhetoric were rearticulated after its demise This volume explores how persuasion ceased to be the seemingly self evident objective of rhetoric and became instead a variable and substantive focus for discussion in its own right After rhetoric ceded much of its centrality to logic and empirical procedures the significance and implications of persuasion were the subject of renewed attention in a range of different fields including philosophy law poetry novels botany cultural criticism historiography political thought and public lecturing *Persuasion after Rhetoric in the Eighteenth Century and Romanticism* maps how values of persuasion were adapted and diversified in ways that still resonate with current arguments about conviction understanding and belief Contributors address the figurations of persuasion in a range of theorists and writers from Jean Jacques Rousseau Adam Smith Immanuel Kant Edmund Burke and Mary Wollstonecraft to Samuel Richardson Jane Austen Thomas De Quincey Thomas Campbell William Hazlitt Heinrich Heine William Lloyd Garrison and Frances Ellen Watkins Harper This collection offers a detailed account of persuasive interests at the threshold of modernity It also prompts us to rethink persuasion now that its continued efficacy seems at risk in a fragmented public sphere *Routledge Handbook of Well-Being* Kathleen Galvin, 2018-05-15 The Routledge Handbook of Well Being explores diverse conceptualisations of well being providing an overview of key issues and drawing attention to current debates and critiques Taken as a whole this important work offers new clarification of the widely used notion of well being focusing particularly on experiential perspectives Bringing together leading authors from around the world *Routledge Handbook of Well Being* reflects on What it is that is experienced by humans that can be called well being What we know about how to understand it How well being is manifested in human endeavours through a wide range of disciplines including the arts This comprehensive reference work will provide an authoritative overview for students practitioners researchers and policy makers working in or concerned with well being health illness and the relation between all three across a range of disciplines from sociology healthcare and economics to philosophy and the creative arts Hidden Factors in Technological Change Edward Semper, Philip Coggin, Harry Armytage, 2013-10-22 *Hidden Factors in Technological Change* examines the educational implications of living in an advanced technological society and suggests ways in which teaching programs and learning situations in schools might be appropriately reoriented Trends in technological innovation and design are discussed along with their likely social aesthetic environmental economic moral and political consequences This book is comprised of 20 chapters and begins with

an assessment of the wider implications of technological innovation from a variety of different viewpoints with emphasis on television More specifically the social economic aesthetic scientific moral and political implications of technology are considered The next section focuses on various aspects of living with technology including the use of resources the quality of life in cities and transport and communication The consequences of technology for education especially the school curriculum are also discussed Other chapters explore ways in which schools might begin to develop in their pupils critical informed and constructive attitudes to the many opportunities and problems associated with technological change and thereby help to make technology more accountable to society and more responsive to the wishes of ordinary people This monograph will be of interest to educators and school administrators education officials and science and technology policymakers **Freedom**

Smith,2013-04-22 Liberal individualism or classical liberalism

as it is often called refers to a political philosophy in which liberty plays the central role This book demonstrates a conceptual unity within the manifestations of classical liberalism by tracing the history of several interrelated and reinforcing themes Concepts such as order justice rights and freedom have imparted unity to this diverse political ideology by integrating context and meaning However they have also sparked conflict as classical liberals split on a number of issues such as legitimate exceptions to the presumption of liberty the meaning of the public good natural rights versus utilitarianism the role of the state in education and the rights of resistance and revolution This book explores these conflicts and their implications for contemporary liberal and libertarian thought **Carnal Rhetoric** Lana Cable,1995-02-28 In recent years

New Historicists have situated the iconoclasm of Milton s poetry and prose within the context of political cultural and philosophical discourses that foreshadow early modernism In Carnal Rhetoric Lana Cable carries these investigations further by exploring the iconoclastic impulse in Milton s works through detailed analyses of his use of metaphor Building on a provocative iconoclastic theory of metaphor she breaks new ground in the area of affective stylistics not only as it pertains to the writings of Milton but also to all expressive language Cable traces the development of Milton s iconoclastic poetics from its roots in the antiprelatical tracts through the divorce tracts and Areopagitica to its fullest dramatic representation in Eikonoklastes and Samson Agonistes Arguing that like every creative act metaphor is by nature a radical and self transgressing agent of change she explores the site where metaphoric language and imaginative desire merge Examining the demands Milton places on metaphor particularly his emphasis on language as a vehicle for mortal redemption Cable

demonstrates the ways in which metaphor acts for him as that creative and radical agent of change In the process she reveals Milton s engagement at the deepest levels of linguistic creativity with the early modern commitment to an imaginative and historic remaking of the world An insightful and synthetic book *Carnal Rhetoric* will appeal to scholars of English literature Milton and the Renaissance as well as to those with an interest in the theory of affective stylistics as it pertains to reader response criticism semantics epistemology and the philosophy and psychology of language *Social Studies for Secondary Schools* Alan J. Justice and Health Care

E.E. Shelp, 2012-12-06 Bioethics is a discipline still not fully explored in spite of its rather remarkable expansion and sophistication during the past two decades The proliferation of courses in bioethics at educational institutions of every description gives testimony to an intense academic interest in its concerns The media have catapulted the dilemmas of bioethics out of the laboratory and library into public view and discussion with a steady report of the so called miracles of modern medicine and the moral perplexities which frequently accompany them The published work of philosophers theologians lawyers and others represents a substantial and growing body of literature which explores relevant concepts and issues Commitments have been made by existing institutions and new institutions have been chartered to further the discussion of the strategic moral concerns that attend recent scientific and medical progress This volume focuses attention on one of the numerous topics of interest within bioethics Specifically an examination is made of the implications of the principle of justice for health care Apart from four essays in Ethics and Health Policy edited by Robert Veatch and Roy Branson the discussion of justice and health care has been occasional almost non-existent and scattered The paucity of literature in this area is regrettable but perhaps understandable On the one hand Joseph Fletcher one of the contemporary pioneers in bioethics can hold that distributive justice is the core or key question for biomedical ethics 1 p 102

Arthur Frank Holmes, 1991 This is a print on demand book and is therefore non-returnable The teaching of ethics and the transmission of values once performed an integrative function in the Christian college curriculum however they have gradually become relegated to a subspecialty status within the philosophy or religion department Arguing that ethics is everybody's business Arthur Holmes presents in this book a concise survey of moral education its goals and methods in the Christian college Arising out of a three year Christian College Consortium project *Shaping Character* reflects the insights of a rich variety of experts writers and faculty members Holmes first orients his readers to the present ethical climate to theological dimensions and distinctive in ethics and to moral development theory He then poses three overall objectives of ethics education forming the conscience making moral decisions and developing character and fleshes out each objective with particular goals Throughout the book Holmes makes suggestions about the role of faculty and staff paying special attention to teaching methods and noting the context and dynamics of college life in general The final chapter summarizes

John Sommerville,2006-06-29 The American university has embraced a thorough secularism that makes it increasingly marginal in a society that is characterized by high levels of religious belief The very secularization that was supposed to be a liberating influence has resulted in the university's failure to provide leadership in political cultural social and even scientific arenas In The Decline of the Secular University C John Sommerville explores several different ways in which the secular university fails in its mission through its trivialization of religion He notes how little attention is being given to defining the human so crucial in all aspects of professional education He alerts us to problems associated with the prevailing secular distinction between facts and values He reviews how the elimination of religion hampers the university from understanding our post Cold War world Sommerville then shows how a greater awareness of the intellectual resources of religion might stimulate more forthright attention to important matters like our loss of a sense of history how to problematize secularism the issue of judging religions the oddity of academic moralizing and the strangeness of science at the frontiers Finally he invites the reader to imagine a university where religion is not ruled out but rather welcomed as a legitimate voice among others Sommerville's bracing and provocative arguments are sure to provoke controversy and stimulate discussion both inside and

outside the academy *Literary Criticism* Gary Day, 2008-07-04 A THE Book of the Week Did you know that Aristotle thought the best tragedies were those which ended happily Or that the first mention of the motor car in literature may have been in 1791 in James Boswell s Life of Johnson Or that it was not unknown in the nineteenth century for book reviews to be 30 000 words long These are just a few of the fascinating facts to be found in this absorbing history of literary criticism From the Ancient Greek period to the present day we learn about critics lives the times in which they lived and how the same problems of interpretation and valuation persist through the ages In this lively and engaging book Gary Day questions whether the theory wars of recent years have lost sight of the actual literature and makes surprising connections between criticism and a range of subjects including the rise of money General readers will appreciate this informative intriguing and often provocative
