Skepticism The Central Issues:

Skepticism Charles Landesman, 2002-05-08 This book presents and analyzes the most important arguments in the history of Western philosophy's skeptical tradition. It demonstrates that although powerful, these arguments are quite limited and fail to prove their core assertion that knowledge is beyond our reach. Argues that skepticism is mistaken and that knowledge is possible. Dissects the problems of realism and the philosophical doubts about the accuracy of the senses. Explores the ancient argument against a criterion of knowledge. Descartes' skeptical arguments and skeptical arguments applied to inductive inference and self-knowledge. Uses Moore's proof of an external world and the reliabilist conception of knowledge to illustrate that the traditional skeptical arguments fail to meet their mark. **Contemporary Skepticism:**

and Cognitivism Oliver A. Johnson, 1978-01-01 *What the Ancients Offer to Contemporary Epistemology* Stephen Hetherington, Nicholas D. Smith, 2019-09-30 This book encourages renewed attention by contemporary epistemologists to an area most of them overlook: ancient philosophy. Readers are invited to revisit writings by Plato, Aristotle, Pyrrho, and others and to ask what new insights might be gained from those philosophical ancestors. Are there ideas, questions, or lines of thought that were present in some ancient philosophy and that have subsequently been overlooked? Are there contemporary epistemological ideas, questions, or lines of thought that can be deepened by gazing back upon some ancient philosophy? The answers are yes and yes, according to this book's 13 chapters, written by philosophers seeking to enrich contemporary epistemology through engaging with ancient epistemology. Key features: Blends ancient epistemology with contemporary epistemology, each reciprocally enriching the other. Conceptually sensitive chapters by scholars of ancient epistemology. Historically sensitive chapters by scholars of contemporary epistemology. Clearly written chapters guiding readers at once through central elements both of ancient and of contemporary epistemology. **The Philosophy of Steven Soderbergh** R. Barton Palmer, Steven M.
