*Cervantes y el Cuarto misterio* Vicente Pérez de León, 2010. *Cervantes y el Cuarto misterio* es un tratado filosófico acerca del arte narrativo de Cervantes; esto es sobre *La Galatea*, *Don Quijote I y II*, *Las Novelas Ejemplares* y *Persiles*. Pero también es un intento de descifrar el lapis philosophorum del mayor alquimista de las letras a través de una reflexión profunda sobre el concepto de verosimilitud en el arte del Renacimiento. El problema ontológico del universo acausal expuesto en la narrativa cervantina se considera en esta obra a partir de la proyección narrativa del *Cuarto misterio*. Católico. Entendemos que la Cuaternidad que complementa la Trinidad se manifiesta bien en forma de coincidencias significativas naturales bien inducida artísticamente en forma de sincrismos bien sugerida en extrañas transmisiones acausales de hitos. Defendemos además que la universalidad y prevalencia del arte narrativo cervantino en la historia literaria se explica por el hecho de que es una de las contadas propuestas del arte universal que expresa una preocupación existencial en forma de reflexión autoconsciente dentro de la obra artística sobre el principio rector de la conciencia acausal, el cual aporta sentido al lado más evidentemente numinoso del ser humano. De hecho, la incapacidad de interpretar correctamente eventos de la realidad acausal constituye la base de la articulación de los personajes cervantinos más trágicos. En la novela cervantina no solo se aprecia una asimilación y comprensión de ciertos actos de conciencia acausal como las propias sincronicidades cuyo efecto se induce mediante el arte literario. A estas también se añaden otros principios y recursos metartísticos como la verosimilitud mágica, la cual de un modo similar al trampantojo nos fuerza ocasionalmente a asociarnos profundamente con el truco literario tras el cual está el secreto de la obra. Estos y otros artificios literarios que conformen las maneras más efectivas de crear un profundo vínculo entre novela y lector sin duda marcaron el camino para que Cervantes alcanzara el Parnaso de la eterna fama literaria.

**Spaniards in Mauthausen** Sara J. Brenneis, 2018-01-01. *Spaniards in Mauthausen* is the first study of the cultural legacy of Spaniards imprisoned and killed during the Second World War in the Nazi concentration camp Mauthausen. By examining narratives about Spanish Mauthausen victims over the past seventy years, author Sara J. Brenneis provides a historical, critical and chronological analysis of a virtually unknown body of work. Diverse accounts from survivors of Mauthausen chronicled in letters, artwork, photographs, memoirs, fiction, film, theatre and new media illustrate how Spaniards have become cognizant of the Spanish government's relationship to the Nazis and its role in the victimization of Spanish nationals in Mauthausen. As political prisoners, their numbers and experiences differ significantly from the millions of Jews exterminated by Hitler; yet the Spaniards in Mauthausen were nevertheless objects of Nazi violence and witnesses to the

La pobre colaboración del poder legislativo explica el autor obligó a la jurisprudencia a otorgar un nuevo sentido a estos textos inspirándose para ello en un principio favorecer a las víctimas. El análisis revisa críticamente las dos principales tendencias jurisprudenciales fundadas en este principio por una parte la evolución hacia una concepción objetiva de la responsabilidad civil y hacia la prescindencia de la culpa en ciertas áreas como condición de la responsabilidad y por otra parte la expansión de la reparación de los daños y la garantía de su pago      **Teología cristiana** Francisco Avendaño Herrera,2011      **Ideas Ajenas y propias para reflexionar** Manuel Navarro Hernán,2009
