Religion and Politics in Turkey Barry Rubin, Ali Çarkoglu, 2013-09-13 Over the last decade the once marginal extreme right of the Turkish ideological spectrum has grown in size as well as in influence and has effectively reshaped party competition in Turkey Policy mandates and electoral bases of the rising extreme right rely on potentially explosive social cleavages in the country One such confrontation is between the secularist and pro Islamist forces which has always been one of the centrepieces of modern Turkish politics The rise of pro Islamist electoral forces from a marginal to an undeniably imposing position in Turkish electoral politics has led many to worry that a deep rooted schism has come to the forefront of Turkish politics The frontline of this secularist vs pro Islamist confrontation is quite widespread ranging from a debate around the ban of turban and headscarves in universities to religious education in the country from Islamic principles in the economy to Turkish foreign policy towards the Middle Eastern countries This volume was previously published as a special issue of the journal Turkish Studies

The United States and Military Coups in Turkey and Pakistan Ömer Aslan, 2017-11-14 This comparative study explores the involvement of the United States in four successful military coups in Turkey and Pakistan during the Cold War Focusing on military to military relations with the US in each country the book offers insight into how external actors can impact the outcomes of coups particularly through socialization via military training education and international organizations such as NATO Drawing upon recently declassified government documents and a trove of unexplored interviews with high ranking officials mer Aslan also examines how coup plotters in both countries approached the issue of US reaction before during and after their coups As armed forces have continued to make and unmake Turkish and Pakistani governments well into the twenty first century this volume offers original probing analysis of the circumstances which make coups possible

Social Power and the Turkish State Tim Jacoby, 2004-08-02 This book focuses on the historical sociology of the Turkish state seeking to compare the development of the Ottoman Turkish state with similar processes of large scale historical change in Europe identified by Michael Mann in *The Sources of Social Power* Jacoby traces the contours of Turkey's modernisation with the intention of formulating a fresh way to approach state development in countries on the global economic periphery particularly those attempting to effect closer ties with northern markets It also highlights matters of social change pertinent to states grappling with issues relating to political Islam minority identity and irredentist dissent

Post Sovereign Constitution Making Andrew Arato, 2016-03-10 Constitutional politics has become a major terrain of contemporary struggles Contestation around designing replacing revising and dramatically re interpreting constitutions is proliferating worldwide Starting with Southern Europe in post Franco Spain then in the ex Communist countries in Central Europe post apartheid South Africa and now in the Arab world constitution making has become a project not only of radical political movements but of liberals and conservatives as well Wherever new states or

new regimes will emerge in the future whether through negotiations revolutionary process federation secession or partition the making of new constitutions will be a key item on the political agenda Combining historical comparison constitutional theory and political analysis this volume links together theory and comparative analysis in order to orient actors engaged in constitution making processes all over the world The book examines two core phenomena the development of a new democratic paradigm of constitution making and the resulting change in the normative discussions of constitutions their creation and the source of their legitimacy After setting out a theoretical framework for understanding these developments Andrew Arato examines recent constitutional politics in South Africa Hungary Turkey and Latin America and discusses the political stakes in constitution making The book concludes by offering a systematic critique of the alternative to the new paradigm populism and populist constituent politics

Turkey's Cold War Saban Halis Çalis, 2016-11-30 Drawing on a variety of sources ranging from interviews with key figures to unpublished archival material Saban Halis Çalis traces this ambition back to the 1930s In doing so he demonstrates that Turkey's policy has been shaped not just by US and Soviet positions but also by its own desire both to reinforce its Kemalist character and to Westernise The Cold War therefore can be seen as an opportunity for Turkey to realise its long held goal and align itself economically and politically with the West This book will shed new light on the Cold War and Turkey's modern diplomacy and re-orientate existing understandings of modern Turkish identity and its diplomatic history

Elites and Democratic Transitions by Regime Transformation in Southern Europe Ioannis Tzortzis, 2022-09-16 This book examines three cases of democratic transitions by self transformation of the non democratic regimes in Southern Europe the Spanish reforma pactada ruptura pactada of 1976-77 the Greek Metaxas experiment of 1973 and the Turkish democratic transition of 1983 in a comparative perspective The author argues that a democratic transition initiated by the regime elites is in contrast to widely held assumptions and notwithstanding some reservations on whether democracy can be re-introduced by non democrats worth viewing as a window of opportunity for democratisation It is up to the democratic counter elites to respond to it using the civil society and the international factor as allies to achieve their goal of acquiring more concessions from the regime

populism secularism nationalism and revolutionism Although this leftist ideology became an integral part of Turkish politics by the early 1960s it has remained a comparatively weak representative movement Its strong ideological stance advocates an authoritarian and exclusionary position particularly in relation to matters such as multiculturalism and democratisation fuelling many debates concerning the role of religion and nationalism within Turkey and perpetuating elements of xenophobia and intolerance This book will be of interest to students of politics history and current affairs and of Turkish politics in particular *Routledge Library Editions: Turkey* Various,2021-02-25 This collection of previously out of print titles examines the state of Turkey in both its Ottoman and modern incarnations Radical politics are detailed alongside constitutional democracy as well as Ottoman politics and history Turkey, Power and the West Ali Bilgic,2016-09-29 During the leadership of Recep Tayyip Erdo an and the AKP the Turkish government shifted from a reactive to an activist foreign policy As a result many in the West increasingly began to see Turkey as a key actor in the international relations of the region and indeed the wider international stage Turkey and the West offers a unique approach to this transformation and considers questions of Turkish national identity and its relations with the West through the lens of gender studies From the Ottoman Empire to the present day the book constructs an image of Turkish foreign policy as reflecting a gendered insecurity one of a non Western Turkish masculinity subordinated to a Western hegemonic masculinity and shows how Turkey s subordination has in turn been internalised by its own politicians Across a diverse range of sources Bilgic takes advantage of new theories such as critical security studies CSS to paint a picture of a Turkish republic anxious to make its mark on the world stage yet perennially insecure about its position as a global power Turkey and the West is essential for students and researchers interested in Turkish politics and the international relations of the Middle East as well as those with an interest in gender and identity studies EU-Turkey Relations in the 21st Century Birol Yesilada,2013-02-11 The possibility of Turkey s accession to the European Union has been problematic Initially the EU s pursuit of regional economic integration and enlargement of membership at the exclusion of Turkey strained relations between the two It was not until 1999 and under pressure from the US that Turkey was considered as a potential candidate for membership This book seeks to provide a comprehensive assessment of the fluctuating relations between the EU and Turkey in the twenty first century Applying complementary theoretical models to evaluate prospects for Turkey s membership analysis includes Turkey s report card on the Copenhagen criteria public opinion in Europe and Turkey and benefits and challenges based on projection estimates The results show that whilst both sides stand to make significant gains from Turkey s membership the current state of affairs point in the direction of a failure Examining complex issues surrounding EU Turkey relations and addressing the critical question of what will happen if Turkey is rejected by the EU this book will be of interest to students and scholars of politics Turkey and the wider Middle East *The Routledge Handbook of Civil-Military Relations* Florina Cristiana Matei,Carolyn Halladay,Thomas C. Bruneau,2021-11-01 This second edition of The Routledge Handbook of Civil Military

Relations offers a wide ranging internationally focused overview of the field of civil military relations The armed forces are central actors in most societies and are involved in many different roles Amongst other activities they engage in peace operations support the police in fighting crime support civilian authorities in dealing with natural disasters and fight against terrorists and in internal conflicts The existing literature on this subject is limited in its discussion of warfighting and thus does not do justice to the variety of roles This second edition not only fills this important lacuna but offers an up to date comparative analysis and provides a conceptual framework to analyze how strategies can realistically be implemented Amalgamating ideas from key thinkers in the field the book is organized into three main thematic parts Part I Civil Military Relations in Non Democratic States and Illiberal Democracies Part II Civil Military Relations in New Democracies Part III Civil Military Relations in Established Democracies This handbook will be essential reading for students and practitioners in the fields of civil military relations defense studies war and conflict studies international security and IR in general *The Secular and the Sacred* William Safran, 2004-08-02 What is the place of religion in modern political systems This volume addresses that question by focusing on ten countries across several geographic areas Western and East Central Europe North America the Middle East and South Asia These countries are comparable in the sense that they are committed to constitutional rule have embraced a more or less secular culture and have formal guarantees of freedom of religion Yet in all the cases examined here religion impinges on the political system in the form of legal establishment semi legitimation subvention and or selective institutional arrangements and its role is reflected in cultural norms electoral behaviour and public policies The relationship between religion and politics comes in many varieties in differing countries yet all are faced with three major challenges modernity democracy and the increasingly multi ethnic and multi religious nature of their societies **Inequality After the Transition** Ekrem Karakoç, 2018-10-03 After the Transition is an all encompassing examination of the origins increase and persistence of inequality in new democracies It challenges the conventional thinking found in much of the democratization inequality literature and offers a new theory It speaks simultaneously to literature of democratization party systems social policy and inequality to explain why democracies are not able to fulfill their promise to the disadvantaged and why they cannot achieve income equality It investigates social policy programs such as pensions unemployment benefits and other social transfers in Poland and the Czech Republic in Post Communist Europe and Turkey and Spain in Southern Europe The volume traces the origins and development of social policy from the formation of nation states to the present and considers how different political regimes whether totalitarian post totalitarian or authoritarian designed welfare policies to prioritize civil servants and the working classes in formal sectors at the expense of the majority poor It then demonstrates how these legacies perpetuate and widen disparities in access to welfare policies and thus income inequality in countries where low mobilization by the poor and unstable party systems prevail This study employs interviews with Polish Czech Turkish and Spanish union leaders bureaucrats and business people while also conducting an original

survey in Turkey to dissect the linkage between organized groups and parties Employing a multi method approach two paired case studies on these countries also demystify why and how new populist parties have successfully appealed to voters and affected the trajectory of social policy party systems and inequality Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow John and Rebecca Moores Professor of Political Science University of Houston
