Muslim Writers on Judaism and the Hebrew Bible Camilla Adang,2021-09-20 Muslim Writers on Judaism and the Hebrew Bible deals with the way in which Judaism and its holy scriptures were viewed by nine medieval Muslim writers representing different genres of Arabic literature Ibn Rabban al abar Ibn Qutayba al Ya q b Ab Ja far al abar al Mas d al Maqdis al B qill n al B r n and Ibn azm After an introductory chapter on the reception of Biblical materials in early Islam and a presentation of the authors under review the book focuses on their knowledge of Judaism and the text of the Hebrew Bible and subsequently discusses issues frequently debated between Muslims and Jews namely the claim that the Torah contains references to Mu ammad and the assertion that the Torah has been both abrogated and falsified In the appendix texts by Ibn Qutayba and al Maqdis are offered for the first time in an English translation **The Sacred Law of Islam** Hamid R. Kusha,2017-07-05 Assessing the treatment of women under Iran s justice system this book offers a rare analysis of women s situation in a system of justice that adheres to Islam s Sacred Law It also demonstrates that the Sacred Law is one of the most complex detailed and comprehensive legal theories that Islam has produced in its capacity as a doctrine of social justice

Towards an Islamic Lunisolar Calendar Hisham Abad,2021-04-10 The Calendar was invented in ancient times to allow nations to pace their economic and social activities with climatic seasons Throughout the history of civilizations much depended on organizing and administering an accurate calendar Hunter gatherers needed the calendar to predict the migrations of herds of wild animals As humanity advanced farming communities required calendars to predict the coming of rain or the time of the flooding of rivers Traders and seafaring communities needed to map the best time of the year to tackle the dangers of seas when sailing far from home In contemporary times of globalization calendars have become even more critical in optimizing the complex supply chains of local and global production cycles Oral traditions ascertain that the Arabs of the Arabian Peninsula used a rudimentary lunisolar calendar called in the literature the Arabian Calendar Like with all nations the lunisolar Arabian Calendar helped the Arabs organize their meager resources in the best ways possible For example research showed that the ajj season and its pan Arabian markets were scheduled to coincide with the date harvesting season peaking from July to September The abundance of the date harvest available in this period along with assigning the concept of inviolability to the Arabian months spanning this season allowed them to travel across Arabia to

Mecca to trade in the pan Arabian markets and to participate in the religious rituals of their pilgrimage the Hajj. It is asserted in this book that Prophet Muhammad followed the lunisolar Arabian Calendar all his life. At the end of the tenth year after he migrated from Mecca to Medina and during his Farewell Pilgrimage the Qur'an sternly abolished the process of intercalation, i.e. the *Nas*, the very process which allowed the Arabs to organize their various economic and religious activities. When Caliph Umar ibn al-Khattab initiated the Hijri Calendar seven years after Prophet Muhammad's death, i.e. in 17 AH, he founded it as purely lunar, which meant its months were allowed to float within the solar year. Caliph Umar is famous for his zeal in protecting the fundamental Islamic principle of monotheism. This, I show, was the reason for introducing the Hijri Calendar as purely lunar, because the *Nas*, i.e. Quraysh's method of intercalation, was hopelessly entangled with the polytheistic religion of Quraysh, the Prophet's tribe and the guardian of the holy places in Mecca and its environs. The harmful effects of following the purely lunar Hijri Calendar were realized from early on. But the prohibition of *Nas* inhibited the early Islamic caliphs from reforming the Hijri Calendar. This book explores the history of the Arabian Calendar and its intimate connection with the Hijri Calendar. The main findings of this book are as follows:

1. The main Hajj shrines in Mecca are aligned in the direction of sunrises and sunsets of the Summer Solstice day.
2. Quraysh intercalated its Arabian Calendar by forcing the Summer Solstice (SS) Day to occur within the 11th month of the Arabian Calendar, Shawwal. The *Nas* month was added when the onset of the SS was about to transfer to into the 11th month, Dhul-Qa'da.
3. The onset of the SS day was determined through the sunset alignment along the line joining the posts of al-Wos and al-Aqaba Jamarat and also by observing the sun rising from behind the peak of Mount Thabor from the location of the sacrificial altar of pre-Islamic Mina.
4. The Prophet arrived in his migration from Mecca to Medina on the Days of Shahr which corresponded to the dates of 8th of Rab al-Thani, the 10th of the Hebrew month Tishri, and to the 23rd of September 632.
5. The epoch of the Hijri Calendar must be adjusted back by two days from the epoch used so far.
6. The Farewell Pilgrimage occurred in autumn on September 4, 632 CE, not in spring on March 11, 632 CE.

The Prophet's Heir Hassan Abbas, 2021-02-23. The life and legacy of one of Muhammad's closest confidants and Islam's patron saint, Ali ibn Abi Talib. Ali ibn Abi Talib is arguably the single most important spiritual and intellectual authority in Islam after prophet Muhammad. Through his teachings and leadership as fourth caliph, Ali nourished Islam. But Muslims are divided on whether he was supposed to be Muhammad's political successor and he continues to be a polarizing figure in Islamic history. Hassan Abbas provides a nuanced compelling portrait of this towering yet divisive figure and the origins of sectarian division within Islam. Abbas reveals how after Muhammad Ali assumed the spiritual mantle of Islam to spearhead the movement that the prophet had led. While Ali's teachings about wisdom, justice, and selflessness continue to be cherished by both Shia and Sunni Muslims, his pluralist ideas have been buried under sectarian agendas and power politics. Today, Abbas argues, Ali's legacy and message stands against that of ISIS, Al-Qaeda, and Taliban.

The History of Jihad Robert Spencer, 2018. It is taken for granted even among many Washington policymakers that Islam is a fundamentally peaceful religion and that Islamic jihad

terrorism is something relatively new a product of the economic and political ferment of the twentieth century But in *The History of Jihad From Muhammad to ISIS* Islamic scholar Robert Spencer proves definitively that Islamic terror is as old as Islam itself as old as Muhammad the prophet of Islam who said I have been made victorious through terror Spencer briskly traces the 1 400 year war of Islamic jihadis against the rest of the world detailing the jihad against Europe including the 700 year struggle to conquer Constantinople the jihad in Spain where non Muslims fought for another 700 years to get the jihadi invaders out of the country and the jihad against India where Muslim warriors and conquerors wrought unparalleled and unfathomable devastation in the name of their religion Told in great part in the words of contemporary chroniclers themselves both Muslim and non Muslim *The History of Jihad* shows that jihad warfare has been a constant of Islam from its very beginnings and present day jihad terrorism proceeds along exactly the same ideological and theological foundations as did the great Islamic warrior states and jihad commanders of the past *The History of Jihad From Muhammad to ISIS* is the first one volume history of jihad in the English language and the first book to tell the whole truth about Islam s bloody history in an age when Islamic jihadis are more assertive in Western countries than they have been for centuries This book is indispensable to understanding the geopolitical situation of the twenty first century and ultimately to formulating strategies to reform Islam and defeat radical terror

Women as Imams Simonetta Calderini, 2020-12-10 There is a long and rich history of opinion centred on female prayer leadership in Islam that has occupied the minds of theologians and jurists alike It includes outright prohibition dislike permissibility under certain conditions and although rarely unrestricted sanction or even endorsement This book discusses debates drawn from scholars of the formative period of Islam who engaged with the issue of female prayer leadership Simonetta Calderini critically analyses their arguments puts them into their historical context and for the first time tracks down how they have informed current views on female imama prayer leadership In presenting the variety of opinions discussed in the past by Sunni and Shi i scholars and some of the Sufis among them the book uncovers how they are at present being used selectively depending on modern agendas and biases It also reviews the roles and types of authority of current women imams in diverse contexts spanning from Asia Africa and Europe to America The research offers readers the opportunity to gain nuanced answers to the question of female imama today that may lead to informed discussions and to change if not necessarily in practices then at the very least in attitudes This ground breaking book interrogates the cases of women who are reported to have led prayer in the past It then analyses the voices of current women imams many of whom engage with those women of the past to validate their own roles in the present and so pave the way for the future

Betwixt and Between Liminality and Marginality Zohar Hadromi-Allouche, Michael Hubbard MacKay, 2023-03-20 Betwixt and Between Liminality and Marginality Mind the Gap offers an interdisciplinary thinking on the marginal within society Using the framework of Victor Turner s earlier notions of liminality the book both challenges Turner s symbolic anthropology and celebrates its continued influence across disciplines and under new theoretical constraints Liminality in its simplest forms provides language for meaningful approaches to articulate transition and change It also represents complex social theories beyond Turner s classical symbolic approach While demonstrating the enduring relevance of Turner s language for expressing transition this volume keeps an eye toward the validity of critiques against him It thus theorizes with Turner s work while updating even abandoning some of his primary ideas when applying it to contemporary social issues A central focus of this volume is marginality Turner recognized that marginals like liminars are betwixt and between however they lack assurance that their ambiguity will be resolved This volume explores the dialogic relationship of space and agency to recognize marginal groups and people and inquire without a harmonious resolution what happens to the marginals Have race class gender and sexual orientation become the space for thinking about reintegration and communitas Each chapter examines how marginal groups or liminal spaces and ideas destabilize shape and affect the dominant culture Classical

Sirriyeh, 2015-01-28 People in Western societies have long been interested in their dreams and what they mean However few non Muslims in the West are likely to seek interpretation of those dreams to help them make life changing decisions In the Islamic world the situation is quite different Dreaming and the import of visions are here of enormous significance to the degree that many Muslims believe that in their dreams they are receiving divine guidance for example on whether or not to accept a marriage proposal or a new job opportunity In her authoritative new book Elizabeth Sirriyeh offers the first concerted history of the rise of dream interpretation in Islamic culture from medieval times to the present Central to the

book is the figure of the Prophet Muhammad seen to represent for Muslims the perfect dreamer visionary and interpreter of dreams Less benignly dreams have been exploited in the propaganda of Islamic militants in Afghanistan and in apocalyptic visions relating to the 9 11 attacks This timely volume gives an important fascinating and overlooked subject the exploration it has long deserved

This book traces the rationale for aggression within the Islamic tradition and assesses the meaning and evolution of the contentious concept of jihad. The book reveals that there has never been a unified position on what Islamic warfare tangibly entails due to the complexity of relevant sources and discordant historical dynamics that have shaped the contours of jihad. Onder Bakircioglu advocates a dynamic reading of Islamic law and military tradition one which prioritises the demands of contemporary international relations and considers the meaning and application of jihad as contingent on the socio political forces of each historical epoch. This book will be of great interest to scholars and students of international law, Islamic law, war and security studies and the law of armed conflict.

Islam and the Infidels David Bukay, 2017-07-12. This book discusses Islam, its relationship with the world, and how Muslims perceive the world and their role within it. Using Islamic scriptures and the works of important Muslim clerics, the author explores the Islamic notion that Muslims represent the best of humanity and as such have the duty and the right to propagate their faith throughout the world by any means, including violence. Islam and the Infidels warns of the dangers Muslim immigration poses to free societies. Using a diplomacy of deceit, Islamists immigrate to Western societies. Having done so, they establish closed ethnic communities that are estranged from their host countries and are breeding grounds for native-born malcontents who may attack and destroy Western nations from within. The author is especially critical of Western apologists who not only pretend that Islam is not inherently aggressive and dangerous but also denigrate those who point out the threat to liberal values posed by fundamentalist Islamic ideology. Bukay argues that to meet the Islamic threat, the West must understand Islam's true nature and the best way of doing so is by analysing its scriptures and history. Bukay argues that Western societies should embrace the Judeo-Christian tradition, which is the root of their cultural heritage. In light of the mounting Muslim threat to liberalism in Western societies, citizens should resist oppressive Islamic practices and doctrines rather than accept them.

Land Between the Rivers Bartle Bull, 2024-09-10. The epic five-millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West. At the start of the fourth millennium BC, at the edge of historical time, civilization first arrived with the advent of cities and the invention of writing that began to replace legend with history. This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf. By 3000 BC, a city called Uruk, from which Iraq is derived, had 80,000 residents. Indeed, as Bartle Bull reveals in his magisterial history, if one divides the 5,000 years of human civilization into ten periods of five centuries each, during the first nine of these the world's leading city was in one of the three regions of current-day Iraq or to use its Greek name, Mesopotamia. Inspired by extensive reporting from the region to spend a decade delving deep into its history, Bull chronicles the story of Iraq from the exploits of Gilgamesh, almost certainly an historical figure, to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era. The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent. Here

by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape Central themes play out over the millennia humanity's need for freedom versus the co eternal urge of tyranny the ever present conflict and cross fertilization of East and West with Iraq so often the hinge We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders Bartle Bull's remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage

The Critical Qur'an Robert Spencer, 2022-05-03 A unique resource for understanding the Islamic Holy Book As Islamic terrorism becomes a distressingly common feature of life in North America and Europe it has become increasingly important for non Muslims to be aware of the ideology that animates and motivates jihad violence and Sharia oppression of women and others an ideology that's rooted in Islam's holy book the Qur'an English speaking people however have found attempts to understand the Qur'an and Islam impeded by unclear densely worded translations and explanatory notes written by Islamic apologists attempting to conceal rather than reveal how Islamic jihadis use the texts and teachings of the Qur'an to justify violence and supremacism and to make recruits of peaceful Muslims The Critical Qur'an in contrast makes clear the passages that are used to incite violence Historian and Islamic scholar Robert Spencer elucidates the Qur'anic text with extensive references to the principal tafsir or commentaries that mainstream Muslims use today to understand the Qur'an showing how interpretations that sanction violence are unfortunately not outliers but central in Islamic theology The Critical Qur'an is the Islamic counterpart to numerous critical and skeptical editions of the Bible that have appeared over the last century and more It is the one edition of Islam's book that doesn't shy away from elucidating why the holy book of Islam is so frequently quoted and referred to with reverence by people who commit and/or justify acts of violence It is a basic resource for everyone who wishes to understand the persistent phenomenon of Islamic terrorism and the peculiar provenance of this most provocative book
