Keeping Up Appearances Catherine Horwood, 2011-06-01 The British have always been concerned about accent appearance and class but at no time during the twentieth century was keeping up appearances more important than during the 1920s and 1930s From the impecunious youth anxious to create a favourable impression at the local tennis club dance to female office workers advised by the Daily Mail that women in business kept their position partly if not chiefly by appearance we peer into the intimate lives and anxieties of the middle classes as they dressed to impress Choices were influenced as much by the advent of mass production economic stringency snobbery and the influence of America as by personal aesthetics Seemingly insignificant items such as ties braces gloves and hats could convey a lack of breeding if worn incorrectly This engagingly written and illustrated book explores the social mores behind one of society's most popular activities and reveals not only how we dressed but why

Interwar Gavin Stamp, 2024-03-07 A FINANCIAL TIMES BOOK OF THE YEAR 2024 A Country Life Architecture Book to Read in 2025 Elegant erudite and entertaining a superbly detailed picture of an architectural era The

Times A magnificent monument in itself to a fine architectural writer Simon Heffer Telegraph British architecture between the wars is most famous for the rise of modernism the flat roofs clean lines and concrete of the Isokon flats in Hampstead and the Penguin Pool at London Zoo but the reality was far more diverse As the modernists came of age and the traditionalists began to decline there arose a rich variety of styles and tastes in Britain and across the empire a variety that reflected the restless zeitgeist of the years before the Second World War At the time of his death in 2017 Gavin Stamp one of Britain's leading architectural critics was at work on a deeply considered account of British architecture in the interwar period correcting what he saw as the skewed view of earlier historians who were unable to see past modernism Beginning with a survey of the modern movement after the armistice Interwar untangles the threads that link lesser known movements like the Egyptian revival with the enduring popularity of the Tudorbethan to chronicle one of Britain's most dynamic architectural periods The result is more than an architectural history it is the portrait of a changing nation As an account of the period that still shapes much of Britain's towns and cities Gavin Stamp's final work is the definitive history of British architecture between the Great War and the Blitz
