The Problem Of Existence In Nyaya And Buddhism:

The Problem of Existence in Nyāya and Buddhism Prabhas Kumar,2003-01-01 In This Volume The Nature Of Existence Has Been Demonstrated By Figure And Symbols **A Study of Time in Indian Philosophy** Anindita Niyogi Balslev,2009-01-01 Since its first publication A Study of Time in Indian Philosophy has been acclaimed as having successfully shown the simple falsity of such clichés that the Indian view of time is cyclic or that it is exclusively illusory Given the variety of views discussed in this work it is evident that the theme of time is intimately related to such basic concepts as being and becoming change and causality creation and annihilation It has been therefore observed that this book makes an excellent introduction to the heart of Indian thought Based on Sanskrit source material this book is a unique attempt to presenting a comprehensive review of the widely divergent views about time in Indian thought Clearly written it succeeds in setting out the issues of discussion pointedly and cogently Since the concept of time intervenes with such major concepts as that of causality being and non being etc this book also serves as a general introduction to the classic heart of Indian Philosophy The author has demonstrated a rare ability to translate technical doctrines from one tradition of thought into the language of another and thus has made it possible for all those who are concerned with the question of time but do not have access in the Indian conceptual world to appreciate the contributions of Indian thought with regard to this complex question Noteworthy is the fact that this book is the first attempt which successfully exposes the simple falsity of such clichés as that the Indian view of time is cyclic as opposed to the Judaeo Christian understanding of linear time A Study of Time in Indian Philosophy therefore renders a valuable service to all those who are concerned with cross cultural and inter religious exchange A Study of Time in Indian Philosophy Anindita N. Balslev,2025-03-18 This book based on original sources is an authentic study of the distinctly different views on time that have emerged from and have in turn shaped the Indian conceptual world Apart from succinctly demonstrating the impact of these views on the exploration and formulation of such basic concepts as those of being becoming causality creation and annihilation the work has as critics have acclaimed since its first publication successfully shown the simple falsity of such clichés that the Indian view of time is cyclic or exclusively illusory It has been therefore observed that this book makes an excellent introduction to the heart of Indian thought It is considered to be a major contribution as well in cross cultural philosophical conversations **Developments in Buddhist Thought** Roy C. Amore,1979-10-12 Nine Canadian scholars of Buddhism consider philosophical and cultural issues in Buddhist thought Part I On Being discusses the philosophical problem of Being in the school of the Middle Way M dhyamika Buddhism and in the Tantric School of Mah y na Buddhism Part II On the Indian Milieu surveys Hindu views of Buddhism and explores Buddhism s relationship with other Indian religious and philosophical traditions Part III On the Chinese Milieu analyzes developments in Buddhist thought in China Buddhism, Christianity and the Question of Creation Perry Schmidt-Leukel,2006 Is the world created by a divine creator Or is it the constant product of karmic forces Exploring the aspects of Buddhist objections against

the idea of a divine creator and Christian possibilities to meet the Buddhist critique this work asks for the potential truth on both sides and suggests a surprising way of overcoming the barrier *An Indian rational theology* George

Chemparathy,2025-01-27 **India, Europe and the Question of Cultural Difference** D. Venkat Rao,2021-07-29 This volume critically engages with the question of cultural difference and the idea of living with diversity in the context of India and Europe It looks at certain essential European categories of learning such as art nature the human literature relation philosophy and the humanities and analyses texts from Sanskrit language through Telugu resources to argue that categories like prakriti loka jati dharma karma sahitya kala etc cannot be conflated with conceptual formations such as nature world caste religion sanctioned action literature and art respectively The book questions and unravels the efficacy of European concepts theories and interpretive frames in understanding Indian reflective traditions and cultural forms It also lays the groundwork for reorienting teaching and research in universities in the humanities on the basis of key cultural differences By focusing on major themes in the humanities discourse and their limitations the work engages with the writings of Heidegger Derrida and Agamben among others from radically new vantage points of Sanskrit Indian reflective traditions and challenges prevailing ideas about Indian art literature and culture Part of the Critical Humanities Across Cultures series this book will be an essential read for scholars and researchers of Indian languages and literature comparative literature art and aesthetics postcolonial studies cultural and heritage studies philosophy political philosophy comparative philosophy Sanskrit studies India studies South Asian studies Global South studies and for those working on education in the humanities human sciences
