the history of Nigeria from prehistoric times to the twenty first century Accessible overviews of both the political narrative as well as the deeper histories of social organization identity formation and inter group relationships cutting edge analysis of key themes from highly respected scholars in a single forward facing volume Book jacket [The French empire at War, 1940-1945](#) Martin Thomas,2017-03-01 The French empire at war draws on original research in France and Britain to

investigate the history of the divided French empire the Vichy and the Free French empires during the Second World War What emerges is a fascinating story While it is clear that both the Vichy and Free French colonial authorities were only rarely masters of their own destiny during the war preservation of limited imperial control served them both in different ways The Vichy government exploited the empire in an effort to withstand German Italian pressure for concessions in metropolitan France and it was key to its claim to be more than the mouthpiece of a defeated nation For Free France too the empire acquired a political and symbolic importance which far outweighed its material significance to the Gaullist war effort As the war progressed the Vichy empire lost ground to that of the Free French something which has often been attributed to the attraction of the Gaullist mystique and the spirit of resistance in the colonies In this radical new interpretation Thomas argues that it was neither of these The course of the war itself and the initiatives of the major combatant powers played the greatest part in the rise of the Gaullist empire and the demise of Vichy colonial control

Distant Drums Ashley Jackson,2009-12-03 Reveals how colonies were central to the defence of the British Empire and the command of the oceans that underpinned it This title blends overviews of the nature of imperial defence with grass roots

explanations of how individual colonies were mobilised for war **Violence and Colonial Order** Martin

Thomas, 2012-09-20 This is a pioneering multi-empire account of the relationship between the politics of imperial repression and the economic structures of European colonies between the two World Wars. Ranging across colonial Africa, Southeast Asia, and the Caribbean, Martin Thomas explores the structure of local police forces, their involvement in colonial labour control, and the containment of uprisings and dissent. His work sheds new light on broader trends in the direction and intent of colonial state repression. It shows that the management of colonial economies, particularly in crisis conditions, took precedence over individual imperial powers' particular methods of rule in determining the forms and functions of colonial police actions. The politics of colonial labour thus became central to police work, with the depression years marking a watershed not only in local economic conditions but also in the breakdown of the European colonial order, more generally.

Comprehensive Tax History of Nigeria Ifueko Omoigui Okauru, 2012 This book discusses the evolution of taxation in Nigeria within the framework of eight broad themes: i.e. The Origin and Practice of Fiscal Federalism in Nigeria; The Constitutional Context for Taxation; The Three Eras of Taxation in Nigeria; The Structure and Jurisdiction of Nigerian Tax Authorities; Instruments of Tax Policy; Statutory Developments Beyond Oil Revenue; The Case for Tax Reform and Making the Nigerian Tax System Globally Competitive. The Cambridge History of Africa J. D. Fage, Roland Anthony Oliver, Michael Crowder, 1975 The eighth and final volume of *The Cambridge History of Africa* covers the period 1940-75. It begins with a discussion of the role of the Second World War in the political decolonisation of Africa. Its terminal date of 1975 coincides with the retreat of Portugal, the last European colonial power in Africa, from its possessions and their accession to independence. The fifteen chapters, which make up this volume, examine on both a continental and regional scale the extent to which formal transfer of political power by the European colonial rulers also involved economic, social, and cultural decolonisation. A major theme of the volume is the way the African successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others. The contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent, a subject that is still the occasion for passionate debate.
