**Schools and Informal Learning in a Knowledge-Based World** Javier Calvo de Mora, Kerry J. Kennedy, 2019-09-19 This book has two purposes To open up the debate on the role of informal education in schooling systems and to suggest the kind of school organizational environment that can best facilitate the recognition of informal learning Successive chapters explore what is often seen as a duality between informal and formal learning This duality is particularly so because education systems expend so much time and effort in certifying formal knowledge often expressed in school subjects reflecting academic disciplines Recognizing the contribution informal learning can make to young people s understanding and development does not negate the importance of valued social knowledge That complements it Students come to school with knowledge learnt from their families peers the community and both traditional and social media They should not have to unlearn this in order to enter the world of formal learning Rather students different learning worlds should be integrated so that each informs the other In a knowledge based society all learning needs to be valued Some contributors to this book reflect on how new educational systems could be created in a move away from top down authoritarian and bureaucratic management Such open systems are seen to be more welcoming in acknowledging the importance of informal learning

Others provide practical examples of how informal learning is currently recognized. Some attention is also paid to the evaluation of informal learning. A key objective of the work presented here is to stimulate debate about the role of informal learning in knowledge based societies and to stimulate thinking about the kind of reforms needed to create more open and more democratic school learning environments.

**Rezballers and Skate Elders** David Kamper, 2025-06. Ethnographer and American Indian studies scholar David Kamper examines how Indigenous youth and adults are making basketball and skateboarding meaningful to their communities by sustaining the transmission of intergenerational knowledge and combatting intergenerational trauma. Kamper looks at how the events and tournaments built around rezball are similar to powwows in how they bring people together across localized communities and generations and he coins the phrase skate elders for those who use the social nature of skateboarding to build community and mentorships. Through a broad picture of North America, Kamper demonstrates how Native peoples have long indigenized cultural practices and material culture to assert Native sovereignty, creating joy and hope in the process. In *Rezballers and Skate Elders*, Kamper considers how Native expressions of basketball and skateboarding show continuities with the historical transformation of practices that originated outside Indian Country to make them meaningful in Native life.

**Girl Gangs, Zines, and Powerslides** Natalie Porter, 2025-09-16. All thriller, no filler. Dr. Indigo Willing, sociologist and lead researcher of Skate Create Educate and Regenerate, and co-author of *Skateboarding Power and Change*, a vibrant, meticulously researched celebration of the women and non-binary skateboarders who defied a hostile industry and redefined skateboarding around the world. With enthusiasm and empathy, *Girl Gangs, Zines, and Powerslides* celebrates the relentless participation of women in skateboarding from the 1960s onward who defied a hostile industry to carve out their own space through underground networks. Skater librarian Natalie Porter presents interviews and meticulous research, including the DIY zines created by female and non-binary skaters as a means of communication to expose this unacknowledged story while offering a personal narrative about the importance of community building and validation, with or without your own video game. *Girl Gangs, Zines, and Powerslides* disrupts the image of skateboarding as an exclusive male domain, offering historical context for the seemingly rapid progress of female skaters today seen competing on the Olympic stage. Discover how the collective action of a grassroots movement in the 1980s established meaningful change, building a foundation that has led to greater inclusion and diversity, which has inspired women, girls, and non-binary youth worldwide to roll on a skateboard for the first time or rediscover their youthful obsession as an adult and feel inspired to drop once again.
