The Age Of The Pussyfoot

Frederik Pohl

The Age Of The Pussyfoot:

The Age of the Pussyfoot Frederik Pohl, 1971 *The Age of the Pussyfoot* Frederik Pohl, 1977-10-01 How to Live Forever Stephen R L Clark, 2008-01-28 Immortality is a subject which has long been explored and imagined by science fiction writers In his intriguing new study Stephen R L Clark argues that the genre of science fiction writing allows investigation of philosophical questions about immortality without the constraints of academic philosophy He reveals how fantasy accounts of issues such as resurrection disembodied survival reincarnation and devices or drugs for preserving life can be used as an important resource for philosophical inquiry and examines how a society of immortals might function through a reading of the vampire myth *How to Live Forever* is a compelling study which introduces students and professional philosophers to the possibilities of using science fiction in their work It includes extensive suggestions for further reading both fictional and philosophical and examines the work of such major science fiction authors as Arthur C Clarke Frank Herbert Larry Niven William Gibson and Colin Wilson *The Politics and Ethics of Identity* Richard Ned Lebow, 2012-08-30 We are multiple fragmented and changing selves who nevertheless believe we have unique and consistent identities What accounts for this illusion Why has the problem of identity become so central in post war scholarship fiction and the media Following Hegel Richard Ned Lebow contends that the defining psychological feature of modernity is the tension between our reflexive and social selves To address this problem Westerners have developed four generic strategies of identity construction that are associated with four distinct political orientations Lebow develops his arguments through comparative analysis of ancient and modern literary philosophical religious and musical texts He asks how we might come to terms with the fragmented and illusionary nature of our identities and explores some political and ethical implications of doing so **The Mammoth Encyclopedia of Science Fiction** George Mann, 2012-03-01 This encyclopedia is the most up to date concise clear and affordable guide to all aspects of science fiction from its background to generic themes and devices from authors established and new to films Science fiction has evolved into one of the most popular cutting edge and exciting fiction genres with a proliferation of modern and classic authors themes and ideas movies TV series and awards Arranged in an A Z format and featuring a comprehensive index and cross referencing system The Mammoth Encyclopedia of Science Fiction is also the most accessible and easy to use encyclopedia of its kind currently available *An Informal History of the Hugos* Jo Walton, 2018-08-07 Engaged passionate and consistently entertaining this is a book for those who enjoyed Walton s previous collection of essays from Tor com the Locus Award winning What Makes This Book So Great The Hugo Awards named after pioneer science fiction publisher Hugo Gernsback and voted on by members of the World Science Fiction Society have been given out since 1953 They are widely considered the most prestigious award in science fiction Between 2010 and 2013 Jo Walton wrote a series of posts for Tor com surveying the Hugo finalists and winners from the award s inception up to the year 2000 Her contention was that each year s full set of finalists generally tells a meaningful story about the state of science

fiction at that time Walton's cheerfully opinionated and vastly well informed posts provoked valuable conversation among the field's historians. Now these posts lightly revised have been gathered into this book along with a small selection of the comments posted by SF luminaries such as Rich Horton, Gardner Dozois and the late David G. Hartwell. **O Pioneer!** Frederik Pohl, 1999-04-15. Evesham Giyt and his new wife are immigrants to the colony world of Tupelo, a strange planet inhabited by colonists from five different species. Giyt soon becomes mayor, a dubious honor, and uncovers a plot by the most dangerous creatures on the planet that threatens to tear the colony apart. **Beyond Human** Gregory Benford, Elisabeth Malartre, 2007-09-18. Concepts once purely fiction: robots, cyborg parts, artificial intelligences are becoming part of everyday reality. Soon robots will be everywhere performing surgery, exploring hazardous places, making rescues, fighting fires, handling heavy goods. After a decade or two they will be as unremarkable as the computer screen is now in offices, airports, or restaurants. Cyborgs will be less obvious. These additions to the human body are interior now as rebuilt joints, elbows, and hearts. Soon we will cross the line between repair and augmentation, probably first in sports medicine, then spreading to everyone who wants to make a body perform better, last longer than it ordinarily could. Controversy will arise, but it will not stop the desire to live longer and be stronger than we are. Gregory Benford and Elisabeth Malartre's *Beyond Human* treats the landscape of human self-change and robotic development as poles of the same general phenomenon. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. **Science Fiction Criticism** Rob Latham, 2017-02-23. Including more than 30 essential works of science fiction criticism in a single volume, this is a comprehensive introduction to the study of this enduringly popular genre. *Science Fiction Criticism: An Anthology of Essential Writings* covers such topics as Definitions and boundaries of the genre; The many forms of science fiction from time travel to inner space; Ideology and identity from utopian fantasy to feminist, queer, and environmental readings; The non-human: androids, aliens, cyborgs, and animals; Race and the legacy of colonialism. The volume also features annotated guides to further reading on these topics. Includes writings by Marc Angenot, J. G. Ballard, Damien Broderick, Istvan Csicsery-Ronay, Samuel R. Delany, Philip K. Dick, Grace Dillon, Kodwo Eshun, Carl Freedman, Allison de Fren, Hugo Gernsback, Donna Haraway, N. Katherine Hayles, Robert A. Heinlein, Nalo Hopkinson, Veronica Hollinger, Fredric Jameson, Gwyneth Jones, Rob Latham, Roger Luckhurst, Judith Merrill, John B. Michel, Wendy Pearson, John Rieder, Lysa Rivera, Joanna Russ, Mary Shelley, Stephen Hong Sohn, Susan Sontag, Bruce Sterling, Darko Suvin, Vernor Vinge, Sherryl Vint, H. G. Wells, David Wittenberg, and Lisa Yaszek. **Utopian Fantasy** Richard Gerber, 2019-11-21. This book, originally published in 1955 and reissued in 1973, is a study of the flourishing of an ancient literary form which had only recently been recognized and systematically studied as a proper genre: utopian fiction. Beginning with the imaginary journeys of writers like H. G. Wells at the end of the nineteenth century, Professor Gerber traces the evolving themes and forms of the genre through their culmination in the sophisticated nightmares of Aldous Huxley and George Orwell. It is a two-fold transformation. On the one hand, the optimism of social reformers whose

visions of the future were nurtured by the theories of Darwin and the triumph of science and industry gradually gives way to the pessimism of moral philosophers alarmed at the power science and technology have put at the disposal of totalitarian rulers On the other hand the earlier writers dependence on framing and distancing devices for their stories and heavy emphasis on technical details give way to the subtlety of complex psychological novels whose artistry makes the reader a citizen of the tragic worlds depicted
