Downie,2016-07-21 Although the emergence of the English novel is generally regarded as an eighteenth century phenomenon this is the first book to be published professing to cover the eighteenth century English novel in its entirety This Handbook surveys the development of the English novel during the long eighteenth century in other words from the later seventeenth century right through to the first three decades of the nineteenth century when with the publication of the novels of Jane Austen and Walter Scott the novel finally gained critical acceptance and assumed the position of cultural hegemony it enjoyed for over a century By situating the novels of the period which are still read today against the background of the hundreds published between 1660 and 1830 this Handbook not only covers those masters and mistresses of early prose fiction such as Defoe Richardson Fielding Sterne Burney Scott and Austen who are still acknowledged to be seminal figures in the emergence and development of the English novel but also the significant number of recently rediscovered novelists who were popular in their own day At the same time its comprehensive coverage of cultural contexts not considered by any existing study but which are central to the emergence of the novel such as the book trade and the mechanics of book production copyright and censorship the growth of the reading public the economics of culture both in London and in the provinces and the re printing of popular fiction after 1774 offers unique insight into the making of the English novel **The English Novel** Stephen Hazell,1978-03-02 This is a Bloomsbury Academic title For our full Academic Catalogue please visit <https://www.bloomsbury.com/uk/academic>

The Jewish Novel in the Ancient World Lawrence M. Wills, 2015-03-11 Lawrence M Wills here traces the literary evolution of popular Jewish narratives written during the period 200 BCE 100 CE In many ways these narratives were similar to Greek and Roman novels of the same era as well as to popular novels of indigenous peoples within the Roman Empire Yet as a group they demonstrated a variety of novelistic innovations the inclusion of adventurous episodes passages of description and of dialogue concern with psychological motivation and the introduction of female characters Wills focuses on five novels Greek Esther Greek Daniel Judith Tobit and Joseph and Aseneth Drawing on a wide range of theoretical works he delineates the techniques and motifs of the Jewish novel shows how the genre both initiated and distanced itself from nonfictional prose such as historical and philosophical writing discusses its relation to Greco Roman romance and describes the social conditions governing its emergence and reception Wills also places the novels in historical context situating them between the Hebrew Bible on the one hand and subsequent developments in Jewish and Christian literature on the other Wills sees the Jewish novel as a popular form of writing that provided amusement for an expanding audience of Jewish entrepreneurs merchants and bureaucrats In an important sense he maintains it was a product of the novelistic impulse the impulse to transfer oral stories to a written medium to reach a more literate audience
