The American Future What Would George And Tom Do Now:

Between Two Ages William Van Dusen Wishard, 2001-06-29 In *Between Two Ages* Van Wishard has provided us with a masterful synthesis of the main currents of history ranging over the centuries with an experts eye to identify the key trends in economics technology and culture that have led us to this place in time By itself this would be an important contribution to our understanding But the true significance of *Between Two Ages* lies in his placing this analysis within a profoundly moral and ethical framework Van Wishard has not simply diagnosed the reasons for our spiritual malaise He has also suggested how each of us can overcome this malaise and find a larger purpose or meaning to our lives From the foreword by Dr Mitchell B Reiss Dean of International Affairs College of William it is change at the very core of life Culture smashing change Identity shattering change Soul crushing change Prior generations faced change within a context of stable institutions that functioned more or less effectively Earlier generations had a more stable if less comfortable framework as well as more clearly defined reference points Our era doesnt have such guides for all of Americas institutions from government to family from business to religion are in upheaval The past century has seen civilized life increasingly ripped from its moorings The immutable certainties that anchored our ancestors no longer seem to hold in a world where the tectonic plates of life are clashing where human antagonisms obliterate tens of thousands of people in Africa Bosnia or Chechnya in a matter of a few days or weeks where a stray bullet ends the life of an elderly lady quietly walking home from church in Washington D C In so many ways a life that has lost its essential meaning has cut giant swaths across humanity Clearly we have been standing at a unique historical dividing line the end of the modern era as well as the Industrial Age the end of the colonial period the end of the Atlantic based economic political and military global hegemony the end of Americas culture being drawn primarily from European sources the end of the masculine patriarchal hierarchical epoch and as Joseph Campbell suggests the end of the Christian eon Obviously one era doesnt stop and a new one start in a week Yearseven decades or generations of overlap take place The sense of an age ending and something new emerging was evident during the earliest years of the 20th century In 1913 Harvard philosopher George Santayana noted The civilization characteristic of Christendom has not yet disappeared yet another civilization has begun to take its place In 1928 at the height of the Roaring Twenties historian Will Durant wrote Human conduct and belief are now undergoing transformations profounder and more disturbing than any since the appearance of wealth and philosophy put an end to the tradition *Down to Earth Sociology: 14th Edition* James M. Henslin, 2007-02-13 Presents a selection of forty six readings that provide an introduction to the sociological perspective look at how sociologists conduct research examine the cultural underpinnings of social life and discuss social groups and social structure gender and sexuality deviance and social stratification institutions and change *Future Survey Annual*, 1995 Public Papers of the Presidents of the United States, George W.
