The English Elegy Studies In The Genre From Spenser To Yeats:

Sacks, 1985 Peter Sacks explores the functions as well as the forms of convention in a book that is both an interpretive study of a genre and a series of close readings of individual poems Moving from Spenser's Astrophel of 1595 to Yeats's In Memory of Major Robert Gregory of 1918 Sacks examines such elegiac motifs and conventions as the use of pastoral contexts the employment of repetition and refrains sudden outbursts of vengeful anger and assertions of deflected sexual power These and other elements of the elegy he argues are more than mere features of a conventionalized aesthetic design they emerge as elements in the performance of the task of mourning Book jacket

Hidden Designs (Routledge Revivals) Jonathan Crewe, 2014-06-27 This 1986 study offers a challenging contribution to the on going critical debate surrounding the English literary Renaissance Although informed by the new historicism and post structuralism Hidden Designs makes a plea for criticism to be practiced in its own name rather than in the name of theory and opposes the hyper professionalisation of literary studies in favour of the broader communal functions of criticism Major Renaissance authors and their recent critics are placed under suspicion as Crewe explores the elements of criminality inherent in the powerful interests personal institutional political and cultural served by the literary enterprise or channelled through it Revisionary readings of Sidney Spenser Puttenham and Shakespeare are linked by a continuing commentary on the history and theoretical claims of Renaissance criticism

The Value of Poetry Eric Falci,2020-12-03 The Value of Poetry shows how and why poetry matters in the contemporary world twenty first century readers

The Miltonic Moment J. Martin Evans,2014-07-11 Milton's poems invariably depict the decisive instant in a story a moment of crisis that takes place just before the action undergoes a dramatic change of course Such instants look backward to a past that is about to be superseded or repudiated and forward at the same time to a future that will immediately begin to unfold Martin Evans identifies this moment of transition as the Miltonic Moment This provocative new study focuses primarily on three of Milton's best known early poems On the Morning of Christ's Nativity A Mask Presented at Ludlow Castle Comus and Lycidas These texts share a distinctive perceptual and cognitive structure which Evans defines as characteristically Miltonic embracing a single moment that is both ending and beginning The poems communicate a profound sense of intermediacy because they seem to take place between the boundaries that separate events The works illuminated here which also include Samson Agonistes and Paradise Regained are all about transition from one form to another from paganism to Christianity from youthful inexperience to moral maturity and from pastoral retirement to heroic engagement This transformation is often ideological as well as historical or biographical Evans shows that the moment of transition is characteristic of all Milton's poetry and he proposes a new way of reading one of the seminal writers of the seventeenth century Evans concludes that the narrative reversals in Milton's poetry suggest his constant attempts to bring about an intellectual revolution that at a time of religious and political change in England would transform an age

Radical Elegies Eleanor Perry,2022-04-21 Scholarship

has traditionally characterized elegy as a Eurocentric tradition a genealogy spanning from ancient Greek pastoral poems via the English elegy to English and Anglo American Modernist contemporary poets Perry examines how these genealogical constructions operate as a means of framing which guides interpretation This book argues that they reflect a necropoetics a system of principles precepts and techniques which serve to establish and maintain ideas about whose lives are worthy of being mourned publicly and whose losses matter Examining elegies that challenge questions of whose deaths may be grieved elegies which articulate the various ways in which certain lives are made precarious and disposable and elegies which interrogate colonial violence structures of white power militarized forms of policing prison industrial and military industrial complexes Perry explores possibilities for radical new ways of understanding elegy beyond established genealogical frames This study retheorizes some basic terms of analysis of contemporary US poetry and poetics critical race and ethnic studies racial capitalism and contemporary theories of comparative and relational racialization

Writings of Exile in the English Revolution and Restoration Philip Major, 2016-02-11 Writings of Exile in the English Revolution and Restoration opens a window onto exile in the years 1640 1680 as it is experienced across a broad spectrum of political and religious allegiances and communicated through a rich variety of genres Examining previously undiscovered and understudied as well as canonical writings it challenges conventional paradigms which assume a neat demarcation of chronology geography and allegiance in this seminal period of British and American history Crossing disciplinary lines it casts new light on how the ruptures and in some cases liberation of exile in these years both reflected and informed events in the public sphere It also lays bare the personal psychological and familial repercussions of exile and their attendant literary modes in terms of both inner mental withdrawal and physical displacement

Mourning and Metabolization Rael Meyerowitz, 2022-11-30 By bringing together perspectives from psychoanalysis and literary studies and considering the reciprocal relation between ideas about mourning and our internal worlds this book provides a guide to thinking theoretically about loss and how we deal with it Rael Meyerowitz conceptualizes the work of psychic internalization required by loss in terms of bodily digestion and metabolization In this way successful mourning can be likened to the proper processing of physical sustenance while failed mourning is akin to indigestion as expressed in various forms of melancholia mania depression and anxiety Borrowing from the methodology of literary criticism the book conducts a detailed treatment of these themes by drawing on a series of psychoanalytic works including those of Freud Ferenczi Karl Abraham Klein Loewald Torok Nicolas Abraham and Green while paying close critical attention to a selection of literary works such as those by William Faulkner Wallace Stevens and Sylvia Plath Aimed at clinicians as well as readers with a more academic interest in psychoanalytic theory and language the close reading format offered by this book will also enable students in psychoanalytic and psychotherapy courses to engage deeply with some central texts and key concepts in psychoanalysis

Soundings of Things Done Peter E. Medine, Joseph Anthony Wittreich, 1997 The twelve essays gathered in this work are on the literature of the early modern period in honor of

S K Heninger Jr professor emeritus of English at the University of North Carolina Chapel Hill The essays proceed on the assumption that works of imaginative literature possess a definable ontology *Grief and Meter* Sally Connolly, 2016-11-09

The elegizing of poets is one of the oldest and most enduring traditions in English poetry Many of the most influential and best known poems in the language such as Milton's Lycidas Shelley's Adonais and Auden's In Memory of W B Yeats are elegies for poets In *Grief and Meter* Sally Connolly offers the first book to focus on these poems and the role they play as a specific subgenre of elegy establishing a genealogy of poetry that traces the dynamics of influence and inheritance in twentieth and twenty first century poetry She identifies a distinctive and significant Anglo American line of descent that resonates in these poems with British poets often elegizing American ones yet rarely the other way around Further she reveals how these poems function as a means of mediating effecting and tracing transatlantic poetic exchanges The author frames elegies for poets as a chain of commemoration and inheritance each link independent but when seen as part of the golden chain signifying a larger purpose and having a correspondingly greater strength *Grief and Meter* provides a compelling account of how and why these poems are imbued with such power and significance **The English Poetic**

Epitaph Joshua Scodel, 1991 Readers interested in English literary history cultural poetics comparative literature the history of attitudes toward death and the relationship between literature and the visual arts will find *The English Poetic Epitaph* a fascinating reading [On Form](#), 2008-09-18 What is form Why does form matter In this imaginative and ambitious study Angela Leighton assesses not only the legacy of Victorian aestheticism and its richly resourceful keyword form but also the very nature of the literary She shows how writers for two centuries and more have returned to the idea of form as something which contains the secret of art itself She tracks the development of the word from the Romantics to contemporary poets and offers close readings of among others Tennyson Pater Woolf Yeats Stevens and Plath to show how form has provided the single most important way of accounting for the movements of literary language itself She investigates for instance the old debate of form and content of form as music or sound shape as the ghostly dynamic and dynamics of a text as well as its long association with the aestheticist principle of being for nothing In a wide ranging and inventive argument she suggests that form is the key to the pleasure of the literary text and that that pleasure is part of what literary criticism itself needs to answer and convey *Thomas Gray* Robert L. Mack, 2000-01-01 Mack incorporates recent scholarship on Gray drawing on developments in 18th century and gender studies as well as on extensive archival research into the life of the poet and his family The result is an eloquent and enlightening book sure to be the definitive biography of this great poet a forefather of the Romantic Movement 50 illustrations
