Facing the Crises Ljubica Matek, Jasna Poljak Rehlicki, 2014-06-26 Owing to the diverse research interests of the

contributors this collection of essays offers a varied picture of the current approaches to Anglo American literature and culture and points to the need for a deeper understanding of current cultural economic and social processes in the globalizing and globalized culture of the West Because crisis seems to be the key word of contemporary Western culture the first part of the book titled *In the Face of Crises* explores the implicit or explicit idea of a crisis between the real and the simulated suggesting that one of the major issues for the contemporary man is how to deal with the virtual or with the absence of the real Our fast paced technology laden and materialist oriented existence brings about the need to rethink our human identity putting into perspective our relationship to technology the impact of capitalist economy and colonial past as well as consequences of constant warfare The second part of the book *New Perspectives on Literary Genres* analyzes forms topics and styles in literary texts belonging to specific sometimes marginalized genres Literary analyses in this section also touch upon the idea of crisis be it the crisis of understanding and redefining a particular genre or a crisis that is inherent in the controversial topic or form of the text As a reaction to recent allegations concerning the crisis of humanities as non profitable this book shows that humanist research is indispensable and crucial for understanding the human condition making this book a relevant addition to the contemporary discussion of literature and culture

The Rhizomatic West Neil Campbell, 2008-12-01 Is the American West in Sergio Leone's spaghetti westerns the same American West we find in Douglas Coupland's *Generation X* In Jim Jarmusch's movies In Calexico's music Or is the American West as this book tells us a constantly moving mutating idea within a complex global culture And what precisely or better yet imprecisely does it mean Using Gilles Deleuze and Félix Guattari's concept of the rhizome Neil Campbell shows how the West or westness continually breaks away from a mainstream notion of American rootedness and renews and transforms itself in various cultural forms A region long

traversed by various transient peoples from tribes and conquerors to immigrants traders and trappers the West reflects a mythic quest for settlement permanence and synthesis even notions of a national or global identity at odds with its rootless history culture and nature Crossing the concept of roots with routes this book shows how notions of the West in representations ranging from literature and film to photography music and architectural theory give expression to ideas about identity nationhood and belonging in a world increasingly defined by movement across time and borders The Rhizomatic West offers a new vision of the American West as a hybrid performative space a staging place for myriad intersecting and constantly changing identities *Focus on Canada* Masarykova univerzita v Brně, European Network for Canadian Studies, 2003 Hunger for the Wild Michael L. Johnson, 2007 Americans have had an enduring yet ambivalent obsession with the West as both a place and a state of mind Michael L Johnson considers how that obsession originated how it has determined attitudes toward and activities in the West and how it has changed over the centuries The Canadian Forum , 1999-03 The English Bodley Family ; and The Viking Bodleys Horace Elisha Scudder, 1884
