Before Enigma David Boyle, 2016-01-11 How did the British codebreakers succeed in cracking the apparently unbreakable Enigma code during the Second World War Was it their gifted amateurism The brilliance of Alan Turing The invention of the very first computers Or the pioneering work of Polish cryptographers It was all of the above But there is one other crucial factor which is much less well known The same team had done it before The truth is that many of those most closely involved in cracking the Enigma code Alistair Denniston Frank Birch Dilly Knox had wrestled with German naval codes for most of the First World War By the end of the war they had been successfully cracking a new code every day from their secret Room 40 at the Old Admiralty Building in a London blacked out for Zeppelin Raids The techniques they developed then the ideas that they came to rely on the people they came to trust had been developed the hard way under intense pressure and absolute secrecy during World War I Before Enigma tells their story and explains how they managed to crack the supposedly indecipherable code The book outlines the capture of the Magdeburg and the Hobart discusses the use of cracked codes to bring German fleets to battle at Dogger Bank and Jutland and focuses on individuals such as Winston Churchill and Admiral Sir Reginald Blinker Hall and their importance in the development of a British naval code tradition *Prologue*, 1996

The Art of Cyber Warfare Peter Kestner, 2024-05-02. The Art of Cyber Warfare explores the strategic and tactical approaches for offense and defense in the digital age. Drawing on historical conflicts from Sun Tzu to Carl von Clausewitz, the author illustrates that despite changed conditions such as time, location, means, and resources, but not the laws of physics, it is possible to learn from past actions and reactions. The author aims to demonstrate in this book that in reality, we have only transferred old methods into our current era but have forgotten to translate their reasons, effects, and the resulting lessons. For as it has been for thousands of years, the reasons for human created conflicts remain the same: wealth, fame, power, honor, or desire.
