Environmental Protection Agency. Library Systems Branch, 1974 *EPA-600/5*, 1974-02 **Saving Florida** Leslie Kemp Poole, 2015-05-12 In *Saving Florida* Leslie Kemp Poole casts new light on the women at the forefront of Florida's environmental movement From creating parks to protesting air pollution fighting dredge and fill operations and exposing the health dangers of pesticides these women caused unprecedented changes in how the Sunshine State values its many and marvelous natural resources At the beginning of the twentieth century women didn't have the vote but by the end of the century they were founding issue specific groups like Friends of the Everglades and running state and federal agencies including the U S Environmental Protection Agency They set the foundation for the next century's environmental agenda which came to include the idea of sustainable development which meshes ecology and economy to enhance energy efficiency and the function of natural systems This is an indispensable history that not only underscores the importance of women in the environmental movement but also shows how as a collective force they forever altered how others saw women's roles in society **An Everglades Providence** Jack E. Davis, 2009 Profiles the suffragist feminist and environmentalist who fought for the preservation and protection of the Everglades and won the battle that turned it into a national wilderness area *Ecological Restoration and the U.S. Nature and Environmental Writing Tradition* Laura Smith, 2022-01-12 This book presents a critical history of the intersections between American environmental literature and ecological restoration policy and practice Through a storying restorying restoring framework this book explores how entanglements between writers and places have produced literary interventions in restoration politics The book considers the ways literary landscapes are politicized by writers themselves and by conservationists activists policymakers and others in defense of U S public lands and the idea of wilderness The book profiles five environmental writers and examines how their writings on nature wildness wilderness conservation preservation and restoration have variously inspired and been translated into ecological restoration programs and campaigns by environmental organizations The featured authors are Henry David Thoreau 1817-1862 at Walden Pond John Muir 1838-1914 in Yosemite National Park Aldo Leopold 1887-1948 at his family's Wisconsin sand farm Marjory Stoneman Douglas 1890-1998 in the Everglades and Edward Abbey 1927-1989 in Glen Canyon This book combines environmental history literature biography philosophy and politics in a commentary on considering and developing environmental literature's place in conversations on restoration ecology ecological restoration and rewilding **Will Miami Survive?** Kathleen Sullivan Sealey, Ray King Burch, P.-M. Binder, 2018-05-18 This SpringerBrief uses a complexity perspective to integrate risk finance and ecological issues in Miami USA It focuses on how the modern financial system particularly the mortgage market perceives and manages the risk of climate change Authors

Kathleen Sealey Ray King Burch and P M Binder offer the case study of South Florida to illustrate how landscapes can be either re purposed to function ecologically when residents relocate or rebuilt to reduce the threat of future flooding the tools needed to make these decisions and how financial systems view and influence them While the need to integrate financial markets into coastal and environmental management is increasingly recognized the difficulty of this task is made greater by the speed of financial innovation and the obscurity and complexity of its practices This book will discuss the innovative Southeast Florida Regional Climate Compact and the success of public private partnerships in planning and adapting to sea level rise but also the broad disconnect with the cash and credit driven real estate market of South Florida The book presents an interdisciplinary approach to the understanding of the coupled human including finance and natural systems in coastal cities thus breaking new ground in the approach towards sustainability research and education The final chapter introduces the social component of resilience which include pre disaster outreach with and the potential for decision theory to help people understand and manage risk

**Disasters in Paradise** Amanda D. Concha-Holmes,Anthony Oliver-Smith,2019-10-11 Long considered ground zero for global climate change in the United States Florida presents the perfect case study for disaster risk and prevention Building on the idea that disasters are produced by historical and contemporary social processes as well as natural phenomena Amanda D Concha Holmes and Anthony Oliver Smith present a collection of ethnographic case studies that examine the social and environmental effects of Florida s public and private sector development policies Contributors to Disasters in Paradise explore how these practices have increased the vulnerability of Floridians to hurricanes tornadoes floods droughts frosts and forest fires

**The Genius of Earth Day** Adam Rome,2013-04-16 The first Earth Day is the most famous little known event in modern American history Because we still pay ritual homage to the planet every April 22 everyone knows something about Earth Day Some people may also know that Earth Day 1970 made the environmental movement a major force in American political life But no one has told the whole story before The story of the first Earth Day is inspiring it had a power a freshness and a seriousness of purpose that are difficult to imagine today Earth Day 1970 created an entire green generation Thousands of Earth Day organizers and participants decided to devote their lives to the environmental cause Earth Day 1970 helped to build a lasting eco infrastructure lobbying organizations environmental beats at newspapers environmental studies programs ecology sections in bookstores community ecology centers In The Genius of Earth Day the prizewinning historian Adam Rome offers a compelling account of the rise of the environmental movement Drawing on his experience as a journalist as well as his expertise as a scholar he explains why the first Earth Day was so powerful bringing one of the greatest political events of the twentieth century to life
